Solidarity And The Soviet Worker:

Solidarity and the Soviet Worker Elizabeth Teague, 1988 This book shows how the reactions of the Soviet workers towards Solidarity was generally lukewarm and often hostile It argues that the Soviet worker is not after democracy but merely a higher standard of living *The Soviet Worker* Leonard Schapiro, Joseph Godson, 1984-10-01 *Transforming Peasants* Judith Pallot, 1998-07-15 The essays in this collection explore the social construction of the Russian peasantry in the period between Emancipation and Collectivisation and the impact of these constructions on Tsarist and Bolshevik agrarian policy The international group of authors represent different trends in the historical sociological and geographical investigations of the East European peasantry and draw both upon the insights of cultural studies and recently available archival materials to throw new light on the relationship between peasantry and other classes **Humour and Social Protest** Marjolein 't Hart, Dennis Bos, 2007 The seventeen essays in this book examine the power of humour in framing social and political protest *Ukraine* Taras Kuzio, Andrew Wilson, 1994 Focuses on the transition in Ukraine from the policies of perestroika and glasnost first introduced by Mikhail Gorbachev to the ultimate break with Moscow which brought an end to both the Soviet Union and Gorbachev's own career *Casebook on Insurgency and Revolutionary Warfare*, 2012 **Daily Report, Foreign Radio Broadcasts** United States. Central Intelligence Agency, 1965 **Congressional Record** United States. Congress, 1984 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **The Accidental Proletariat** Walter D. Connor, 2014-07-14 Walter Connor shows how the seven decades since Stalin launched the First Five Year plan have changed Soviet workers from a disorganized mass of unskilled ex peasants into something very much like a class not the working class intended by Lenin and Stalin but a new and powerful accidental proletariat produced by forces partly beyond the state's control Does this new proletariat threaten glasnost and perestroika To address that question Connor examines the growth of the new class and its role in the crisis ridden politics of Gorbachev's USSR In this book as in his earlier works Connor focuses on the interplay of social and political forces Do workers support economic reform he asks or oppose it Are they beneficiaries or victims of Gorbachev's policies Can a Soviet state already under severe ethnic and economic strains accommodate an emergent working class politics Connor probes these issues in a work that is essential reading for students of Russian politics government officials faced with the uncertainties of a new Russia and people seeking to do business in any economy previously isolated behind geographical military and institutional barriers Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important

Stalin's Railroad Matthew J. Payne, 2010-11-23 The Turkestan Siberian Railroad or Turksib was one of the great construction projects of the Soviet Union's First Five Year Plan As the major icon to ending the economic backwardness of the USSR's minority republics it stood apart from similar efforts as one of the most potent metaphors for the creation of a unified socialist nation Built between December 1926 and January 1931 by nearly 50 000 workers and at a cost of more 161 million rubles Turksib embodied the Bolsheviks commitment to end ethnic inequality and promote cultural revolution in one the far flung corners of the old Tsarist Empire Kazakhstan Trumpeted as the forge of the Kazakh proletariat the railroad was to create a native working class bringing not only trains to the steppes but also the Revolution In the first in depth study of this grand project Matthew Payne explores the transformation of its builders in Turksib's crucible of class war race riots state purges and the brutal struggle of everyday life In the battle for the souls of the nation's engineers as well as the racial and ethnic conflicts that swirled far from Moscow around Stalin's vast campaign of industrialization he finds a microcosm of the early Soviet Union

Factory and Community in Stalin's Russia Kenneth M. Straus, 2010-11-23 Kenneth Straus weaves together many threads in Russian social history to develop a new theory of working class formation in the years of Stalin's First Five Year Plan In so doing he addresses a long standing debate among historians by suggesting new answers to an old question Was there social support for the Stalin regime among the Soviet working class during the 1930s and if so why Straus argues that the keys for interpreting Stalinism lie in

occupational specialization on the one hand and community organization on the other He focuses on the daily life of the new Soviet workers in the factory and community arguing that the most significant new trends saw peasants becoming open hearth steel workers housewives becoming auto assembly line workers and machine operatives and youth training en masse rather than occupations categories in the vocational schools in the factories the FZU Tapping archival material only recently available and a wealth of published sources Straus presents Soviet social history within a new analytical framework suggesting that Stalinist forced industrialization and Soviet proletarianization is best understood within a comparative European framework in which the theories of Marx Durkheim and Weber best elucidate both the broad similarities with Western trends and the striking exceptional aspects of the Soviet experience Monthly Labor Review ,1989 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews The SAGE Encyclopedia of Business Ethics and Society Robert W. Kolb,2018-03-27 Spans the relationships among business ethics and society by including numerous entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment Movements After Revolution Miles V. Rodríguez,2022 Movements After Revolution is a history of the people s movements in the aftermath of the Mexican Revolution of 1910 20 that brought together industrial workers and rural communities to fight for a vast array of demands and diverse forms of justice

Revolution and Counterrevolution Kevin Murphy,2005-04 Why did the most unruly proletariat of the Twentieth Century come to tolerate the ascendancy of a political and economic system that by every conceivable measure proved antagonistic to working class interests Revolution and Counterrevolution is at the center of the ongoing discussion about class identities the Russian Revolution and early Soviet industrial relations Based on exhaustive research in four factory specific archives it is unquestionably the most thorough investigation to date on working class life during the revolutionary era Focusing on class conflict and workers frequently changing response to management and state labor policies the study also meticulously reconstructs everyday life from leisure activities to domestic issues the changing role of women and popular religious belief Its unparalleled immersion in an exceptional variety of sources at the factory level and its direct engagement with the major interpretive questions about the formation of the Stalinist system will force scholars to re evaluate long held assumptions about early Soviet society *Return to the Motherland* Seth F. Bernstein,2023-02-15 Return to the Motherland follows those who were displaced to the Third Reich back to the Soviet Union after the victory over Germany At the end of World War II millions of people from Soviet lands were living as refugees outside the borders of the USSR Most had been forced laborers and prisoners of war deported to the Third Reich to work as racial inferiors in a crushing environment Seth Bernstein reveals the secret history of repatriation the details of the journey and the new identities prospects and dangers for migrants that were created by the tumult of war He uses official and personal sources from declassified holdings in post Soviet archives

more than one hundred oral history interviews and transnational archival material. Most notably, he makes extensive use of secret police files declassified only after the Maidan Revolution in Ukraine in 2014. The stories described in *Return to the Motherland* reveal not only how the USSR grappled with the aftermath of war but also the universality of Stalinism's refugee crisis. While arrest was not guaranteed, persecution was ubiquitous. Within Soviet society, returnees met with a cold reception that demanded hard labor as payment for perceived disloyalty; soldiers perpetrated rape against returning Soviet women, and ordinary people avoided contact with repatriates, fearing arrest as traitors and spies. As Bernstein describes, Soviet displacement presented a challenge to social order and the opportunity to rebuild the country as a great power after a devastating war.

Modern Catholic Social Teaching Kenneth R. Himes, Lisa Sowle Cahill, 2005. *Modern Catholic Social Teaching* draws together the work of some 20 scholars to present a comprehensive reference that interrogates key documents, offers understanding of the biblical/philosophical foundations of Catholic social teaching, addresses doctrinal issues, reviews how Catholic social thinking is received in the US.
