## **Solo In The New Order:**

Solo in the New Order James T. Siegel, 1993-09-27 In this brilliant ethnography of contemporary Java James Siegel analyzes how language operates to organize and to order an Indonesian people. Despite the imposition of Suharto's New Order, the inhabitants of the city of Solo continue to adhere to their own complex ideas of deference and hierarchy through translation between high and low Javanese speech styles. Siegel uncovers moments when translation fails and compulsive mimicry ensues. His examination of communication and its failures also exposes the ways a culture reconstitutes itself. It leads to insights into the accidents that precede the formulations of culture as such. *The Institutional Origins of Communal Violence* Yuhki Tajima, 2014-07-28 This book develops a novel theoretical explanation for why transitions from authoritarian rule are often marked by spikes in communal violence. *Adolescents in Contemporary Indonesia* Lyn Parker, Pam Nilan, 2013-07-18 The youth demographic is a large and growing cohort in Indonesia and adolescents embody the currents of social change. Throughout the twentieth century they were significant agents of social protest leading to social and political transformation. This book looks at the importance of adolescents in contemporary Indonesia and how they are spearheading not just globalisation and a growing consumer youth culture but also the Islamisation movement. The book explores both the inner worlds and social selves of Indonesian adolescents. It presents an in-depth knowledge of Indonesian society and culture in various parts of Indonesia and discusses national patterns and trends. Grounded in two field sites, the book enables an analysis of young people's local ethnic and religious identities and their commitment to the Indonesian nation-state. It goes on to look at the physical age bracket of youth, the definitions used by the Indonesian state and other agencies, and the perceptions of youth themselves about adolescence and adulthood. Providing a comprehensive study of young people in contemporary Indonesia, the book addresses gender relations, the importance of education for youth, and youth engagement with popular culture and the moral issue concerning the sexual propriety of young people. It is a useful contribution for students and academics of Asian Studies, Sociology, and Cultural Studies. *Contemporary Developments in Indonesian Islam* Martin van Bruinessen, 2013 Once celebrated in the Western media as a shining example of a liberal and tolerant Islam, Indonesia since the end of the Soeharto regime in May 1998 has witnessed a variety of developments that bespeak a conservative turn in the country's Muslim politics. In this timely collection of original essays, Martin van Bruinessen, our most distinguished senior Western scholar of Indonesian Islam, and four leading Indonesian Muslim scholars explore and explain these developments. Each chapter examines recent trends from a strategic institutional perch: the Council of Indonesian Muslim scholars, the reformist Muhammadiyah, South Sulawesi's Committee for the Implementation of Islamic Shari'a, and radical Islamism in Solo. With van Bruinessen's brilliantly synthetic introduction and conclusion, these essays shed a bright light on what Indonesian Muslim politics was and where it seems to be going. The analysis is complex and by no means uniformly dire. For readers interested in Indonesian Muslim politics and for analysts interested in the dialectical interplay of

progressive and conservative Islam this book is fascinating and essential reading Robert Hefner Director Institute on Culture Religion and World Affairs Boston University *Solo* Frank Cyril Davison, 1924 *Producing Indonesia* Eric
