L. Frank, 1974 **A Solovyov Anthology. Arranged by S. L. Frank. Translated from the Russian by Natalie Duddington** Vladimir Sergeyevich Solovyov, 1950 Nineteenth Century Religious Thought in the West Ninian Smart, 1988 Now available in paperback the successful three volumes of Nineteenth Century Religious Thought in the West provide a fresh appraisal of the most important thinkers of that time Some essays centre on major figures of the period others cover topics trends and schools of thought between the French Revolution and the First World War The contributors are among the leading scholars in their field and analyse not only what was said but also why it was said and explore what is of lasting value in it Contributions are sufficiently clear to be of use to students in religious studies and cognate disciplines but have enough depth and detail to appeal to scholars The Russian Cosmists George M. Young, 2012-07-30 In the nineteenth and early twentieth century a controversial school of Russian religious and scientific thinkers emerged united in the conviction that humanity was entering a new stage of evolution and must assume a new active managerial role in the cosmos The ideas of the Cosmists have in recent decades been rediscovered and embraced by many Russian intellectuals In the first account in English of this fascinating tradition George M Young offers a dynamic and wide ranging examination of the lives and ideas of the Russian Cosmists A History of Russian Philosophy V. V. Zenkovsky, 2003 History Russian Philosophy V2 V Zenkovsky, 2014-06-23 First published in 2003 This is volume II in the history of Russian philosophy written in 1953 it takes in the work of Vladimir Solovyov V D Kudryatsev Nesmelov Tareyev M I Karinski Fyodorov as well as the twentieth century moves into Materialism Neo Marxism and the Religio philosophic renaissance and finally the metaphysics of total unity *Here Comes Everybody* William C. Graham, 2009 Some of these essays were first delivered as lectures in the Here Comes Everybody series to inaugurate the establishment of the Braegelman Program of Catholic Studies at The College of St Scholastica in Duluth Minnesota The authors gathered here begin to suggest something of the depth and breadth of the living Catholic Intellectual Tradition They are leading the way in

new and important discussions These programs are about more than Catholic institutions exploring and asserting their identity Surely those involved seek rigorous engagement with the Catholic Intellectual Tradition examining religious ideas and ideals and participating in the study of Catholic thought and culture They seek dialogue with Catholics of all mind sets with Christians from other denominations believers from other faith traditions and all who seek the truth Book Jacket

With All the Fullness of God Jared Ortiz,2021-01-12 Christians confess that Christ came to save us from sin and death But what did he save us for One beautiful and compelling answer to this question is that God saved us for union with him so that we might become partakers of the divine nature 1 Pet 2 4 what the Christian tradition has called deification This term refers to a particular vision of salvation which claims that God wants to share his own divine life with us uniting us to himself and transforming us into his likeness While often thought to be either a heretical notion or the provenance of Eastern Orthodoxy this book shows that deification is an integral part of Catholicism Orthodoxy and many Protestant denominations Drawing on the resources of their own Christian heritages eleven scholars share the riches of their respective traditions on the doctrine of deification In this book scholars and pastor scholars from diverse Christian expressions write for both a scholarly and lay audience about what God created us to be adopted children of God who are called even now to be filled with all the fullness of God Eph 3 19 Russian Philosophy, Volume 1 James M. Edie,2025-03-14 Russian philosophy begins through the impregnation of the ancient Byzantine tradition of Old Russia by the Western thought of the French Enlightenment and then by German Romanticism The first original Russian philosopher Gregory Skovoroda the Russian Socrates was followed by the early philosophy of history and culture Alexander Radishchev and Peter Chasadayev The fateful break of Russian philosophers into two opposed camps of the Slavophiles was accomplished by the middle of the nineteenth century The Teachings of Modern Orthodox Christianity on Law, Politics, and Human Nature John Witte (Jr.),2007 The Teachings of Modern Orthodox Christianity on Law Politics and Human Nature examines how modern Orthodox Christian thinkers have answered the most pressing political legal and ethical questions of our time It discusses the enduring teachings of important Orthodox Christian intellectuals of the late nineteenth and twentieth centuries Leading contemporary scholars analyze these thinkers views on the nature and purpose of law and authority the limits of rule and obedience the care of the needy and innocent the ethics of war and violence and the separation of church and state among other themes A diverse and powerful portrait of Orthodox Christian legal and political thought this volume underscores the various ways Orthodox Christian intellectuals have shaped modern debates over the family the state religion and society The book concentrates on Russian philosophers Vladimir Soloviev 1853 1900 and Vladimir Lossky 1903 1958 Russian theologian Nicholas Berdyaev 1874 1948 Russian nun and social reformer Mother Maria Skobtsova 1891 1945 and Romanian theologian Dumitru St niloae 1903 1993 Encyclopedia of the Essay Tracy Chevalier,2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275

contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies **Alexandre Kojève** Luis J. Pedrazuela, 2024-04-08 This edited volume addresses Alexandre Kojève's work from different perspectives emphasizing the continuity between his early reception of a set of non philosophical and philosophical influences and that which he might have sought himself to exercise in a pedagogical and practical manner The first part of the book comprises six essays in which their authors explore Kojève's understanding of art religion and atheism and his reception of the thought of Hegel Marx and Carl Schmitt The book's second part is made up by two contributions that tackle respectively Kojève's conceptions of the end of history and empire in the light of his notion of Sophia or Wisdom and his understanding of the relationship between philosophy and power in the light of an exegetical reading of the debate he held with Leo Strauss The authors of the final three essays set out to explore the extent to which Kojève's previous processing of a set of non philosophical and philosophical influences might have resulted in three increasingly concrete outcomes namely his notion of authority the Lacanian mirror stage and global trade Dostoevsky's Political Thought Richard Avramenko, Lee Trepanier, 2013-05-23 Recognized as one of the greatest novelists of all time Fyodor Dostoevsky continues to inspire and instigate questions about religion philosophy and literature However there has been a neglect looking at his political thought its philosophical and religious foundations its role in nineteenth century Europe and its relevance for us today Dostoevsky's Political Thought explores Dostoevsky's political thought in his fictional and nonfictional works with contributions from scholars of political science philosophy history and Russian Studies From a variety of perspectives these scholars contribute to a greater understanding of Dostoevsky not only as a political thinker but also as a writer philosopher and religious thinker *Man and Nature in God* Lloyd E. Sandelands, 2017-12-02 Contemporary American life is tinged with dissatisfaction Increased wealth and comfort and technological advances have not made individuals happier or society more companionable Today Americans marry later or not at all and they fail at marriage as often as they succeed *Man and Nature in God* is a story of contemporary American decadence a grim tale of our flagging relation to nature a tale confirmed at the center of our sexual lives Sandelands grounds his critique in a modern philosophical error We have conflated a particular metaphysical outlook the subjective standpoint of science with our relationship as humans to nature We fail to see that however much we may learn about nature by treating it as object to our subject we cannot in this way learn what we most want and most need to know about nature and about ourselves Answers to such questions as How are we related to nature and How are we to think and act truly in nature continue to elude us Cast as ideology by the isms of humanism naturalism and postmodernism today's subjective standpoint has turned the question of truth into one question of politics The unhappy result has been and

continues to be a profound and deadly misunderstanding of nature as well as man epitomized in contemporary American culture today Taking this as his starting point Sandelands suggests how we can save ourselves from our mortifying philosophical error thereby claiming our true relation to nature and reinvigorating our sexual lives He identifies the need for a natural philosophy that takes God to be the starting point of self understanding Although the book is about philosophy it is not only for the academic philosopher Although it is about theology it is not only for the theologian or student of religion And although the book takes modern biological and social sciences to task it is not only for biological and social scientists Instead Man and Nature in God is for everyone concerned about the disma **The Slave Soul of Russia** Daniel

Rancour-Laferriere,1995 Why asks Daniel Rancour Laferriere in this controversial book has Russia been a country of suffering Russian history religion folklore and literature are rife with suffering The plight of Anna Karenina the submissiveness of serfs in the 16th and 17th centuries ancient religious tracts emphasizing humility as the mother of virtues the trauma of the Bolshevik revolution the current economic upheavals wracking the country these are only a few of the symptoms of what The Slave Soul of Russia identifies as a veritable cult of suffering that has been centuries in the making Bringing to light dozens of examples of self defeating activities and behaviors that have become an integral component of the Russian psyche Rancour Laferriere convincingly illustrates how masochism has become a fact of everyday life in Russia Until now much attention has been paid to the psychology of Russia s leaders and their impact on the country s condition Here for the first time is a compelling portrait of the Russian people s psychology **Reimagining the Analogia Entis** Philip John

Paul Gonzales,2019-01-15 In 1932 German theologian and philosopher Erich Przywara penned his Analogia Entis a vision of the analogy of being and a metaphysical exploration of the dynamic between God and creation A translation into English in 2014 made Przywara s brilliant and influential work available to more people than ever before In this book Philip Gonzales calls English speaking readers to embrace the Christian treasure of the Analogia Entis and to reimagine what it offers Christians today Gonzales brings Przywara s text into dialogue with debates in contemporary philosophy and theology engaging in conversation with Edith Stein Karl Barth Martin Heidegger the Nouvelle th ologie Vatican II and leading figures in postmodern theology and the Continental turn to religion The first book of its kind in English Reimagining the Analogia Entis articulates a Christian vision of being for the postmodern era Vladimir Solov'ëv William Peter van den

Bercken,Manon de Courten,Evert van der Zweerde,2000 Vladimir Solov ev 1853 1900 is regarded as the most original and systematic of the Russian philosophers in the 19th century He has once again become the subject of international scholarly attention both in Slavic countries and the West This volume contains selected papers presented at the international conference on Vladimir Solov ev held at Nijmegen University the Netherlands in September 1998 The scope of this conference was wide ranging dealing with theological metaphysical philosophical and historical themes Though Solov ev s broad intellectual activity defies any strict attempt at categorisation the editors have classified its major themes under the

dual characteristic of reconciliation and polemics Solov'ev was passionately committed to the reconciliation of all beings under the idea of all unity which he attempted to achieve by engaging in uncompromising polemics with his contemporaries. The thirty contributors to this volume are specialists from Russia, Ukraine, Bulgaria, Western Europe, and the United States. The volume makes a significant contribution to the intellectual reassessment of Vladimir Solov'ev since the rediscovery of his philosophical heritage in his own homeland in the 1980s.
