**Research in Education** ,1968-07 *Housing Urban America* E. Jay Howenstine,2017-09-04 Life liberty and the pursuit of housing an increasingly difficult quest in the contemporary urban United States where crime urban blight and continuing capital decay undercut the advantages of city living The American dream has moved to the suburbs the nightmare of our cities prompts new recognition both in the president s cabinet and the college curriculum The editors of this book have updated their acclaimed earlier collection providing new introductory articles new papers such as Discrimination in Housing Prices and Mortgage Lending A Summary Report of Current Findings from the Experimental Housing Allowance Program Alternative Mortgage Designs and Their Effectiveness in Eliminating Demand and Supply Effects on Inflation and a new bibliography of the literature Additional chapters focus on differing strategies for improved urban housing and renewal by providing concrete suggestions for distributing existing resources and allocating new funding The bibliography provides the best single guide to the current literature on housing Housing Urban America in this new edition is an important guide to those students and scholars fascinated by the essential questions of adequate housing its social costs and the source of the revenues to provide it **The Geography of the Third World** Michael Pacione,2012-08-06 First published in 1988 this reissue presents a comprehensive overview of contemporary developments and research into the geography of the Third World at a time when economies and societies there were changing at a much more rapid rate than their counterparts in the developing world It covers the topic both systematically and by region showing how the unique background of each region affects developments there **Group Work** Nano McCaughan,2021-11-07 Group work is central to social work whether it be work with individuals and families residential care community work management or social work education Despite however the upsurge of interest in this aspect of social work method at the time Group Work Learning and Practice originally published in 1978 represented the first attempt at providing an up to date and carefully integrated source book for students in the form of a series of mainly original and British papers on social group work its knowledge base the possible varieties of practice settings and objectives and its implications for social work education and training models For new directions in social work education suggested that the small group was to become the core system around which much future social work teaching would be based The main concern of this new National Institute for Social Work reader the development and demonstration of intervention skills in practice would be particularly relevant The book draws attention to the opportunities

for work with groups in the community in residential institutions and with families where the emphasis was rapidly shifting towards the need for greater understanding and use of the small group dimension Group Work Learning and Practice would have been widely welcomed both by specialists in group work at the time and all those more generally interested in social work methods as teachers students practitioners supervisors and as local authority training officers It would also be of interest to a wider readership of teachers youth workers and those concerned with the group dynamics and counselling fields

**Ecologies of Urbanism in India** Anne M. Rademacher, K. Sivaramakrishnan, 2013-03-01 Essays follow rapidly proliferating and resource intensive Indian urbanism in everyday environments Case studies on nature conservation in cities urban housing and slum development waste management urban planning and contestations over the quality of air water and sanitation in Delhi and Mumbai illuminate urban ecology perspectives throughout the twentieth century The collection highlights how struggles over the environment and one's quality of life in urban centers are increasingly framed in terms of their future place in a landscape of global sustainability The text brings historical particularity and ethnographic nuance to questions of urban ecology and offers novel insight into theoretical and practical debates on urbanism and sustainability

*Crimes of Violence* Marvin Eugene Wolfgang, 1967 Submitted to the President's Commission on Law Enforcement and Administration of Justice

**Health and Sexuality Education in Schools** Steven Ridini, 1998-10-28 Recently there has been much debate over the adoption implementation and maintenance of comprehensive health and sexuality education programs in Massachusetts public schools Advocates of school based comprehensive health education programs often use a public health approach to substantiate their position They cite national and statewide statistics about adolescent sexual activity and unsafe sexual practice as a basis for providing students with the facts and the skills to make decisions to prevent pregnancy and the transmission of sexually transmitted diseases Opponents often speak about the parents role in educating their sons and daughters and object to public school instruction that regards homosexuality and safe sex as acceptable choices In the literature many models of community organization focus on the decision making structure within the community rather than on the process of social change Therefore we often know who makes community decisions without knowing much about how and why these decisions are made In this study the process of social change is explored by conducting comparative case studies of two Massachusetts communities
