The British Florist, 1846 *Bulletin - University Number* Syracuse University, 1907 **Exploring the New Exodus in John** Paul S. Coxon, 2015-03-09 The theme of the New Exodus NE in John's Gospel has been largely unexplored in recent scholarship Now however by careful intertextual exegesis of John 5:10 Paul Coxon has compellingly argued that not only is the NE key to interpreting the Fourth Gospel but also to unlocking the mysteries of the Johannine puzzle itself Anyone who is interested in searching the riches of this marvelous Gospel will want to explore the NE in John in these pages **Heads of Families at the First Census of the United States Taken in the Year 1790 ...** United States. The New Englander, 1861 A List of the Patrons, Officers, Committees, Governors & Subscribers Royal Masonic Institution for Boys, 1929 *Investigation of the Assassination of President John F. Kennedy* United States. Warren Commission, 1964 Warren Commission hearings Atonement and Ethics in 1 John Christopher Armitage, 2021-06-17 Christopher Armitage considers previous theological perception of 1 John as a text advocating that God abhors violence contrasted with biblical scholarship analysis that focuses upon the text's birth from hostile theological conflict between insiders and outsiders with immensely hostile rhetoric directed towards antichrists and those who have left the community Armitage argues that a peace oriented reading of 1 John is still viable but questions if the commandment that the community loves each other is intended to include their opponents and whether the text can be of hermeneutic use to advocate non violence and love of one's neighbour This book examines five key words from 1 John hilasmos sfazo anthropoktonos agape and adelphos looking at their background and use in the Old Testament in both Hebrew and the LXX arguing that these central themes presuppose a God whose engagement with the world is not assuaging divine anger nor ferocious defence of truth at the expense of love but rather peace and avoidance of hatred that inevitably leads to violence and death Armitage concludes that a peacemaking hermeneutic is not only viable but integral to reading the epistle Heads of Families at the First Census of the United States Taken in the Year 1790: Vermont United States. New York Yankees Openers Lyle Spatz, 2018-08-15 The New York Yankees are baseball's most storied team. They first played at Hilltop Park then moved to the Polo Grounds then Yankee Stadium, Shea Stadium, back to the renovated Yankee Stadium and now in the new Yankee Stadium. They also frequently opened the season in Boston's historic Fenway Park, fondly remembered Shibe Park in Philadelphia, Griffith Stadium in Washington, and all around the expanded leagues after 1961. This book details every opening day celebration and game from 1903 to 2017 while noting how each was affected by war, the economy, political and social protest, and population shifts. We see presidents and politicians, entertainers, celebrities, and fans, owners, managers, and most of all the players. *Literary Structure and Rhetorical Strategies in The Hebrew Bible* L.J. de Regt, J. de Waard, J.P. Fokkelman, 2023-08-14 Analysis of text structures has been a dominant feature in Biblical studies for quite some time. More recently, scholars have focused on rhetorical strategies that have been employed in Biblical texts. In this volume, rhetorical as well as structural approaches to the Hebrew Bible have been brought together. It contains studies on a range of topics and on a good many texts and textual corpora. Interpretation culminates in translation. The contributors to this volume have discussed the implications of their findings for Bible translators. Many of these translational implications have been put together in an epilogue. The volume thus not only intends to show the present state of our knowledge of literary and rhetorical techniques employed in the Bible, on these points it aims to be a selective guide to translators as well. The volume has been edited by Lenart de Regt, Jan de Waard, both of the Free University of Amsterdam, and Jan Fokkelman, Leiden University. Third Decennial Edition of the American Digest, 1929 Roger Smalley: A Case Study of Late Twentieth-Century Composition Dr. Christopher Mark, 2013-01-28 How does one go about writing the history of musical composition in the late twentieth century when on the one hand so much of it seems impossibly fractured and disassociated and on the other there has been so little certainty about what the notion of music history might entail under the critiques of post-modernism? One of the most productive ways forward is to pursue case studies involving single composers whose music reflects several aspects of recent activity. This enables the discussion of broad issues in a relatively focussed way whilst avoiding the pitfalls of traditional narrative histories and the centrifugal tendencies of the relativistic approach that some have called for. The music of the English-born 1943 and Australia-domiciled composer Roger Smalley is ideal material for such a study because of his involvement with and response to an unusually large number of the myriad concerns and practices of post-1950s composition including post-serial constructivism, parody, electro-acoustic composition, and the electronic modification of conventionally produced sound. Moment, Form, aleatorism, minimalism, the use of non-Western resources, Aboriginal and South East Asian sonorities, neo-Romanticism, and arguably the new classicism, as well as a brief flirtation with rock music in the late 60s. Employing an interview with the composer as a kind of *cantus firmus*, the book, the first extended single-author study of Smalley's music to be published, incorporates critical commentary on the composer's

major works in a chronological narrative that engages with broad issues of central relevance to Smalley's generation such as the process of learning the craft of composition in the early 60s the motivation behind the adoption of certain technical and aesthetic positions the effects on technical and aesthetic orientation of both the changing relationships between composer performer and audience and technological change and the distinction between late and post modernism in music
