*The Routledge Handbook on Crime and International Migration* Sharon Pickering, Julie Ham, 2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School. Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways. However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants. The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders. The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats. Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field. Organized Crime, Corruption and Crime Prevention Stefano Caneppele, Francesco Calderoni, 2013-10-30 This volume collects new contributions to research on mafias organized crime money laundering and other forms of complex crimes gathering some of the most authoritative and well known scholars in the field. The chapters for this volume are original peices written in honor of the retirement of Dr Ernesto U Savona highlighting his research and legacy. Throughout his academic career Professor Ernesto U Savona has investigated complex crimes ranging from organized crime to economic crime to money laundering. In his work he has tried to bring together academics policy makers and practitioners to bring understanding for crime problems and innovative solutions. His passion towards the practical application of the findings of scientific research led him to found Transcrime in 1994 which is today among the most important criminological think tanks in Europe. This important book is aimed at scholars studying criminal policy and research particularly in the areas of criminal networks organized crime white collar crime the history of criminology. *Street-Level Bureaucracy, 30th Anniversary Edition* Michael Lipsky, 2010-04-08 First published in 1980 *Street Level Bureaucracy* received critical acclaim for its insightful study of how public service workers in effect function as policy decision makers as they wield their considerable discretion in the day to day implementation of public programs. Three decades later the need to bolster the availability and effectiveness of healthcare social services education and law enforcement is as urgent as ever. In this thirtieth anniversary expanded edition Michael

Lipsky revisits the territory he mapped out in the first edition to reflect on significant policy developments over the last several decades. Despite the difficulties of managing these front line workers he shows how street level bureaucracies can be and regularly are brought into line with public purposes. Street level bureaucrats from teachers and police officers to social workers and legal aid lawyers interact directly with the public and so represent the frontlines of government policy. In *Street Level Bureaucracy* Lipsky argues that these relatively low level public service employees labor under huge caseloads, ambiguous agency goals and inadequate resources. When combined with substantial discretionary authority and the requirement to interpret policy on a case by case basis, the difference between government policy in theory and policy in practice can be substantial and troubling. The core dilemma of street level bureaucrats is that they are supposed to help people or make decisions about them on the basis of individual cases yet the structure of their jobs makes this impossible. Instead they are forced to adopt practices such as rationing resources, screening applicants for qualities their organizations favor, rubberstamping applications and routinizing client interactions by imposing the uniformities of mass processing on situations requiring human responsiveness. Occasionally such strategies work out in favor of the client. But the cumulative effect of street level decisions made on the basis of routines and simplifications about clients can reroute the intended direction of policy, undermining citizens' expectations of evenhanded treatment. This seminal award winning study tells a cautionary tale of how decisions made by overburdened workers translate into ad hoc policy adaptations that impact people's lives and life opportunities. Lipsky maintains, however, that these problems are not insurmountable. Over the years public managers have developed ways to bring street level performance more in line with agency goals. This expanded edition of *Street Level Bureaucracy* underscores that despite its challenging nature, street level work can be made to conform to higher expectations of public service.

**Supervillains** Nao Tomabechi, 2025. This book provides a savvy investigation of the supervillains that appear in superhero comics. Exploring villainous archetypes and Otherness in relation to the notion of evil, the book investigates how supervillains uphold and solidify but also trouble hegemonic ideals expressed by the heroism of superheroes.

**Advances in Social Networks Analysis and Mining** I-Hsien Ting, Panagiotis Karampelas, Min-Yuh Day, Reda Alhajj, 2025-07-14. This book explores the evolution of social network analysis and mining (SNAM), a field that originated in social and business communities but has expanded significantly in recent years. The rise of online social platforms, email logs, phone records, and instant messaging systems has driven the development of advanced techniques for analyzing social networks, drawing heavily on graph theory and machine learning. As the Web increasingly becomes a social medium, it fosters human interaction, the sharing of experiences and knowledge, and the formation and evolution of communities. This transformation has amplified the importance of SNAM in fields such as academia, politics, homeland security, and business, where understanding the complex relationships between networked actors is crucial. This volume presents a comprehensive collection of cutting edge research and developments in SNAM, offering a valuable resource for

researchers and practitioners seeking to deepen their understanding of social networks and their applications

Gennaro Vito,Jeffrey Maahs,2011-09-29 Criminology Theory Research and Policy Third Edition uses an interdisciplinary approach to examine and explain how and why crime occurs Comprehensive coverage of a variety of crimes and leading criminological theories is provided and supported by new relevant case studies By making the connection between theory research and policy this revised and updated Third Edition demonstrates the relevancy of criminological theory in the public attempt to control crime while providing justice The emphasis on these three elements with pertinent discussions and examples is what sets this text apart from other criminology titles New Material added the revised and updated Third Edition New Cybercrime chapter provides cutting edge information on the illegal use of computers and the internet New Chapter dedicated to Terrorism Includes discussion of elder abuse crimes and human trafficking Provides new information on White collar crime Updated case studies to reflect relevant crime typologies Additional Features Theory in Action boxes throughout the text provide notes that relate theoretical premises to real world cases and events Each chapter contains objectives key terms and a detailed summary of important points Instructor Resources PowerPoint slides Test Bank Instructor Manual with learning objectives      **Surveillance and Governance** Mathieu Deflem,2008-04-08 Presents insights in the sociological study of surveillance and governance in the context of criminal justice and other control strategies This volume provides a varied set of theoretical perspectives and substantive research domains on the qualities and quantities of some of the transformations of social control      Security Unbound Jef Huysmans,2014-05-09 Security concerns have mushroomed Increasingly numerous areas of life are governed by security policies and technologies Security Unbound argues that when insecurities pervade how we relate to our neighbours how we perceive international politics how governments formulate policies at stake is not our security but our democracy Security is not in the first instance a right or value but a practice that challenges democratic institutions and actions We are familiar with emergency policies in the name of national security challenging parliamentary processes the space for political dissent and fundamental rights Yet security practice and technology pervade society heavily in very mundane ways without raising national security crises in particular through surveillance technology and the management of risks and uncertainties in many areas of life These more diffuse security practices create societies in which suspicion becomes a default way of relating and governing relations ranging from neighbourhood relations over financial transactions to cross border mobility Security Unbound demonstrates that governing through suspicion poses serious challenges to democratic practice Some of these challenges are familiar such as the erosion of the right to privacy others are less so such as the post human challenge to citizenship Security unbound provokes us to see that the democratic political stake today is not our security but preventing insecurity from becoming the organising principle

of political and social life      **Women's Imprisonment and the Case for Abolition** Linda Moore, Phil Scraton, Azrini Wahidin, 2017-11-20 In 2007 the Corston Report recommended a far reaching radical women centred approach to women's imprisonment in England and Wales It suggested a fundamental re thinking about how services to support women in conflict with the law are delivered in custody and in the community recommending the development and implementation of a decarceration strategy This argued for appropriate treatment programmes in the community reserving prison for only those women who commit serious and violent offences Ten years on what progress has been made What is the relationship between Corston's vision and a more radical abolitionist agenda Drawing on a range of international scholarship this book contributes to the critical discourse on the penal system human rights and social injustice revealing the consequences of imprisonment on the lives of women and their families A decade on from Corston's publication it critically reviews her report revealing the slow progress in meeting the reforms it proposed Identifying the significant barriers to change it questions the failure to reverse the unrelenting growth of the women's prison population or to transform state responses to women's offending Reflecting the global expansion of women's imprisonment particularly marked in advanced democratic societies the chapters include comparative contributions from jurisdictions where Corston's recommendations have relevance It concludes with a critical appraisal of reformism and the case for penal abolition Essential for applied and theory courses on prisons punishment and penology social justice and the criminology of human rights gender and crime and feminist criminology

**Regulation and Regulators after Global Financial Crises** Aleksandra Jordanoska, 2024-12-31 This book provides an original theoretically and empirically grounded analysis of regulatory enforcement activism in post crisis periods and the ensuing regulatory interactions It critically addresses the more regulation enforcement agenda relating to financial misconduct in the aftermath of the 2008 financial crisis showing how misconduct was constructed through the enforcement policies and practices of the powerful UK financial conduct regulator and its interactions with the subjects of enforcement proceedings and their legal representatives during a tumultuous time in the financial markets Drawing from interviews with regulators professional intermediaries and markets participants documentary analysis of enforcement decisions and speeches and observations the volume adopts an interdisciplinary approach grounded in social constructivist perspectives on compliance and deviance regulation theory and socio legal research Through a multi dimensional analytical framework of regulatory enforcement activism that links shifts in regulatory policymaking experimentations with legal powers in information gathering legal and extra legal penalties and individual accountability and the use of enforcement tools in micro level interactions the book documents a more interventionist and punitive post crisis enforcement agenda The findings challenge current thinking in the scandal and reform literature The work argues that despite the increased focus on enforcement it is not necessarily the case that the power has tilted more towards the regulator This fine grained socio legal enquiry makes innovative and timely theoretical contributions to our understanding of the limitations of regulatory activism

and regulatory control regulatory relationships the governance of financial markets and broader thinking on regulating corporations and the individuals within them It will appeal to academics researchers regulators and policymakers working in regulation across law criminology sociology and politics
