Sociology Brian J. Jones, 1995 Includes bibliographical references p 50 glossary p 7 copyright acknowledgments p 4 name subject index p 125 **Sociology** Jones Staff, 1995-05 Sociology Etal Jones, Jones Staff, 1994-11 *The Micro-macro Link* Jeffrey C. Alexander, 1987-01-01 The work of fifteen nationally and internationally known theorists in sociology this volume demonstrates an exciting new trend in sociological thinking Each essay proposes a link between the two distinguishable traditions of sociological theory the microscopic which stresses the self and the interaction among persons and the macroscopic which concentrates on the institutional cultural and societal levels Each mode of analysis has had its champions and the proponents of each have often taken positions of polemic opposition to one another **Study Guide to Accompany Sociology** Brian J. Jones, 1995 Through the Global Lens Michael Strada, 2021-04-14 Through the Global Lens uses a global perspective to analyze human affairs This text looks at each of the six social sciences sociology anthropology political science economics psychology and geography and uses case studies feature film analyses maps and photos to highlight important historical events and concepts throughout *Back to Sociological Theory* Nicos P Mouzelis, 2016-07-27 Nicos Mouzelis argues against a marked tendency in present day sociology to conflate philosophy and sociological theory In trying to demonstrate the relative autonomy and specific logic of sociological theorising he draws from a variety of theoretical traditions in order to construct a set of interrelated concepts useful for bridging the gulf between macro and micro sociologies Drawing examples from the sociology of development and from the theory of organisations the author shows concretely how the conceptual framework proposed can help the researcher to avoid both the reification of macro institutional structures and their reduction to the intersubjective understandings of micro actors **The Historic Turn in the Human Sciences** Terrence J. McDonald, 1996 Eleven essays that probe the historical project in a wide range of disciplines Sociological Theory: What Went Wrong? Nicos Mouzelis, 2003-09-02 Written with precision and clarity this is a compelling analysis of the central problems of sociological theory today and of the means to resolve them Argues that we should build on ideas from the 50s and 60s and not dismiss them Feudal America Vladimir Shlapentokh, Joshua Woods, 2011-01-17 Do Americans live in a liberal capitalist society where evenhanded competition rules the day or a society in which big money private security and personal relations determine key social outcomes Vladimir Shlapentokh and Joshua Woods argue that the answer to these questions cannot be found among the conventional models used to describe the nation Offering a new analytical tool the authors present a provocative explanation of the nature of contemporary society by comparing its essential characteristics to those of medieval European societies Their feudal model emphasizes five elements the weakness of the state and its inability to protect its territory guarantee the security of its citizens and enforce laws conflicts and collusions between and within organizations that involve corruption and other forms of illegal or semilegal actions the dominance of personal relations in political and economic life the prevalence of an elitist ideology and the use of

private agents and organizations for the provision of safety and security Feudal America urges readers to suspend their forward thinking and futurist orientations question linear notions of social and historical progression and look for explanations of contemporary social problems in medieval European history

For a New Classic Sociology Alain Caillé, Frédéric Vandenberghe, 2020-10-25 This book examines the future of the social sciences and the reconstruction of society in contemporary times Drawing on the lead piece *For a New Classic Sociology* it calls for a new theoretical synthesis that

overcomes the fragmentation specialization and professionalization within the social sciences The position paper and the responses by a team of world class social theorists provide an alternative to utilitarianism and the colonization of the social sciences by rational choice models propose a new articulation of social theory and moral social and political philosophy It recommends a return to classical social theory and explores articulations between theories of reciprocity care and recognition A radical intervention in the study of the social sciences the volume will be indispensable to scholars and researchers across the social sciences especially social theory and sociology and social anthropology Contributions by Frank Adloff Jeffrey C Alexander Francis Chateauraynaud Raewyn Connell François Dubet Philip Gorski Nathalie Heinich Qu Jingdong Mike Savage Michael Singleton and Philippe Steiner **Handbook of Sport and International Development** Nico Schulenkorf, Jon Welty Peachey, Ramón Spaaij, Holly Collison-Randall, 2023-11-03 With sport sustaining a prominent place in international development policymaking discourse and delivery this comprehensive Handbook provides a contemporary multi disciplinary overview of state of the art scholarship in this critical space It investigates the role that different sport initiatives from community focused projects to large scale events can play across a great variety of development contexts **KONDRATIEFF WAVES** Leonid E. Grinin, Tessaleno C. Devezas, Andrey V. Korotayev, Sergey Yu. Malkov, Arno Tausch, Brian J. L. Berry, Euel Elliott, Marco Gallegati, Zenonas Norkus, Valentina M. Bondarenko, Stephen I. Ternyik, Elżbieta Mączyńska, William R. Thompson, Leo Nefiodow, Anthony Harper, Though the researchers of the theory of long and medium term cycles are certainly worried about the economic situation they understand that the cyclicity still remains an inevitable attribute of economic development And Juglar's aphorism that crisis is a consequence of the preceded prosperity is still true In this third issue of the Yearbook Kondratieff Waves with the subtitle Cycles Crises and Forecasts we present a number of insight contributions on nature regularities and interconnections among cycles of different duration Some economic cycles may result in a severe economic crisis The current one shows once again the importance of the study of cyclical dynamics and its peculiarities Between the 1980s and 1990s the Keynesian receipts were replaced by neoliberal and monetarist ones which seemed to be miraculous as well The depleted growth was marked with the largest global crisis of 2008 which also showed that within globalization when regulation in the international arena is impossible yet there recur the signs of Juglar cycles of the 19th and first half of the 20th centuries with their uncontrollable upwards and sharp declines evolving into collapses and panic This is supported by the fact that for eight years the world has been at the depressive phase This edition will be useful for economists social scientists as well as for a wide range of those interested in the problems of the past present and future of global economy and globalization This research has been supported by the Russian Foundation for the Humanities Project No 16 02 14053 California Sociologist , 1986
