One of Britain s best loved historians Dan Cruickshank grants us an intimacy with centuries of rich and varied London history

as he guides us around the Soho of the last five hundred years We learn of its original aspirations towards respectability how it became the city's bohemian quarter and why it was once home to its criminal underworld The history of Soho is written in its surviving architecture including its bars clubs and theatres Cruickshank observes how the common denominator over the centuries is its appeal as a destination for immigrants from French Huguenots to the Italian and East European Jewish community and recent Chinese diaspora and that this is the foundation of its spirit and success Even as he mourns some of the changes he pays heartfelt testament to the district's resilience

this fascinating study that British cuisine has been transformed and enriched by diverse international influences The last thirty years have seen immigrants flood British shores but Spicing Up Britain reveals that foreign influences have been infusing British cuisine for the past 150 years From the arrival of Italian ice cream vendors and German butchers in the nineteenth century to the British curry that permeates dishes today Panayi chronicles the rich and fascinating social history behind the rise of a truly multicultural cuisine The author argues that Britons eating habits have been reshaped by immigration globalization and increased wealth and he explores how other cultures have woven themselves into British society through the portal of food whether Anglo Indian fusion dishes like chicken tikka masala New British cuisine restaurants or the popular home cooked dish of spaghetti bolognese Panayi reveals how these changes in British cuisine shed light on the role of multiculturalism in the construction of modern British identity Britain is a diverse nation in which different peoples are united by willingness to sample the foods produced by other ethnic groups but those ethnic groups are at the same time ghettoized by not moving beyond their own culinary traditions A comprehensive and engaging investigation Spicing Up Britain serves up delicious new facets of food in Britain today **Safety and health requirements manual** United States. metropolis The central question what is London has produced many answers but none of them the author argues uncovers the complex ways in which knowledge is constructed in the diverse attempts to represent places and people On the contrary a gulf has opened up between analysis of contemporary London as a global postcolonial city on the one hand and historical accounts of the imperial capital on the other The author shows how the gap can be bridged by combining an analysis of the representation over time by various experts of London and certain localities with an investigation of the ways in which residents have represented their communities through struggles over symbolic and material resources
