A INTRODUCTION The Symposium Workshop on Solar Terrestrial Influences on Weather and Climate was held at The Ohio State University on 24-28 July 1978. Its purpose was to provide an international forum for the presentation and discussion of recent research results and ideas regarding the question whether variations in solar outputs affect terrestrial weather and climate and if so to what extent and through what mechanisms. The Symposium focused on the results of previous studies and consisted of both invited and contributed papers. The Workshop on the other hand built upon these deliberations to develop ideas and directions for future research. Over one hundred persons from eight countries attended the Symposium Workshop. *Solar-terrestrial Influences on Weather and Climate*, 1979* **Solar-Terrestrial Influences on Weather and Climate** Billy McCormac,T.A.
