Slayton,2010-12-23 In Women of Influence in Contemporary Music Nine American Composers Michael K Slayton has collected essays which focus on women who have made significant contributions to American music Elizabeth Austin Susan Botti Gabriela Lena Frank Jennifer Higdon Libby Larsen Tania Le n Cindy McTee Marga Richter and Judith Shatin While these composers have much in common not least of all dedication to their art their individual stories reveal different impulses in American music Their works reflect the shifting societal landscapes in the United States over the last seven decades as well as different stylistic approaches to writing music Each chapter includes a biography of the composer an interview and a detailed analysis of one major composition The composers openly reflect on their individual journeys in which they have discovered respective musical languages and have found success during different times in history Because few music books focus solely on female composers Women of Influence in Contemporary Music offers a rare glimpse into the styles and attitudes of gifted women and their work **Israeli folk songs and dances** Ernest Kaye,2003 for flute or oboe cello and piano This beautifully constructed set of simple arrangements is easy enough for younger students but substantial enough for professionals to use as encores of a lighter concert repertoire **Subject Headings Used in the Dictionary Catalogues of the Library of Congress** Library of Congress,Library of Congress. Subject Cataloging Division,1957 **The ^AMuse that Sings** Ann McCutchan,1999-11-11 The Muse That Sings is a unique behind the scenes look at both twentieth century music and the nuts and bolts of creative work Here twenty five of America s leading composers from Adams to Zorn from Bolcom to Vierk talk candidly about their craft their motivations their difficulties

and how they proceed from musical idea to finished composition While focusing on the process and the stories behind specific works the composers also touch on topics that will interest anyone involved in creative work They discuss teachers and mentors the task of revision relationships with performers and the ongoing struggle for a balance between freedom and discipline They reveal sources of inspiration artistic goals and the often unexpected ways their musical ideas develop Some describe personal tonal systems others discuss the impact of computers and other electronic tools on their work still others reflect philosophically on the inner impulses and outer influences that continue to drive them While serious music has a reputation for being difficult and inaccessible *The Muse That Sings* provides a powerful antidote The composers in this book speak clearly and thoughtfully in response to key questions of concern to all readers interested in contemporary music Each interview has been edited to stand alone as a concise meditation on muse and technique and the book includes selected discographies as well as brief biographical sketches Anyone with an interest in twentieth century music or in the creative process will find this lively collection a valuable source of inspiration and insight
