Small Town In Germany A:

A Small Town in Germany John le Carré, 2013-03-05 From the New York Times bestselling author of *A Legacy of Spies* Haven't you realized that only appearances matter The British Embassy in Bonn is up in arms Her Majesty's financially troubled government is seeking admission to Europe's Common Market just as anti-British factions are rising to power in Germany Rioters are demanding reunification and the last thing the Crown can afford is a scandal Then Leo Harting an embassy nobody goes missing with a case full of confidential files London sends Alan Turner to control the damage but he soon realizes that neither side really wants Leo found alive Set against the threat of a German-Soviet alliance John le Carré's *A Small Town in Germany* is a superb chronicle of Cold War paranoia and political compromise With an introduction by the author

Small Towns in Early Modern Europe Peter Clark, 2002-05-09 Despite the great wave of publications on European cities and towns in the pre-industrial period little has been written about the thousands of small towns which played a key role in the economic social and cultural life of early modern Europe This collection written by leading experts redresses that imbalance It provides the first comparative overview of European small towns from the fifteenth to the early nineteenth century examining their position in the urban hierarchy demographic structures economic trends relations with the countryside and political and cultural developments Case studies discuss networks in all the major European countries as well as looking at the distinctive world of small towns in the more peripheral countries of Scandinavia and central Europe A wide-ranging editorial introduction puts individual chapters in historical perspective *Small Towns in Europe in the 20th and 21st Centuries* Ludá Klusáková et al., 2017-07-01 Largely unknown small towns always in the shadow of famous cities are mostly overlooked by historical research English Spanish Portuguese Greek Czech and Russian towns are staged in this volume as examples of a typical European phenomenon They appear in diverse shapes influenced by their countries and regions in history One of possible strategies to overcome difficulties and motivate new development uses cultural heritage as a marketable value International team of urban historians sociologists and historians of arts and architects joined at the European Association for Urban History conference in Lisbon in 2014 and decided to present the issue in this volume composed of five chapters using a variety of methods and perspectives

Cities and Metropolises in France and Germany Evelyn Gustedt, Ulrike Grabski-Kieron, Christophe Demazière, Didier Paris, 2022-11-04 In both countries France and Germany there is great pressure to change and adapt towards new forms of urbanity and to conceive new strategic approaches with limited public finance and a need for economic efficiency Not all types of urban areas are equally affected by these issues The book aims to do justice to this situation considering in both cases the context of the national urban systems As it proved impossible to address all the topics relevant to the spatial development of urban and rural areas the authors decided to concentrate on a number of important topical themes which are undoubtedly relevant in both countries albeit in different ways and which could be significant for a comparison The focus is thus on issues related to metropolises

small and medium sized towns and particularly current issues of urbanity sustainability Smart Cities transport and mobility and the role of cross border urban development The structure of the chapters is conceived in these terms Besides scientific and theoretical approaches the authors also consider the practical planning perspective and methodological aspects of the topic at hand They mainly address three relevant factors the differences between the two institutional systems the development paths and historical constants and how new challenges are addressed on both sides of the border **A Small**

Town in Germany John Le Carré,1979 **British Spy Fiction and the End of Empire** Sam Goodman,2015-06-05 The position of spy fiction is largely synonymous in popular culture with ideas of patriotism and national security with the spy himself indicative of the defence of British interests and the preservation of British power around the globe This book reveals a more complicated side to these assumptions than typically perceived arguing that the representation of space and power within spy fiction is more complex than commonly assumed Instead of the British spy tirelessly maintaining the integrity of Empire this volume illustrates how spy fiction contains disunities and disjunctions in its representation of space and the relationship between the individual and the state in an era of declining British power Focusing primarily on the work of Graham Greene Ian Fleming Len Deighton and John le Carre the volume brings a fresh methodological approach to the study of spy fiction and Cold War culture It presents close textual analysis within a framework of spatial and sovereign theory as a means of examining the cultural impact of decolonization and the shifting geopolitics of the Cold War Adopting a thematic approach to the analysis of space in spy fiction the text explores the reciprocal process by which contextual history intersects with literature throughout the period in question arguing that spy fiction is responsible for reflecting strengthening and in some cases precipitating cultural anxieties over decolonization and the end of Empire This study promises to be a welcome addition to the developing field of spy fiction criticism and popular culture studies Both engaging and original in its approach it will be important reading for students and academics engaged in the study of Cold War culture popular literature and the changing state of British identity over the course of the latter twentieth century *A Geographical, Historical, and Political Description of the Empire of Germany, Holland, the Netherlands, ... Compiled and Translated from the German. To which are Added, Statistical Tables of All the States of Europe: Translated from the German of J.G. Boetticher ... Illustrated with Twenty-four Plates, and a Large Three-sheet Post Map of Germany, Holland, Italy, &c ,1800* *A Geographical, Historical, and Political Description of the Empire of Germany, Holland, the Netherlands, Switzerland, Prussia, Italy, Sicily, Corsica and Sardinia* Jakob G.
