Smoke-filled Rooms Harold Lavine, 1970 **Safety and Survival on the Fireground, 2nd Edition** Vincent Dunn, 2015-08-20 Chief Dunn the recipient of FDNY's Lifetime Achievement Award has updated his classic book on how to identify and survive hazards on the fireground Dunn attempts to reduce firefighter deaths and injuries year after year by describing the 15 most dangerous tactics and the 13 most recurring fire and explosion environmental dangers ranked by degree of danger and frequency of occurrence This indispensable book will help keep every first responder firefighter and fire officer out of harm's way It is a must read and reread for every firefighter who responds to fires and emergencies every company officer who commands a fire company and every incident commander or safety officer who is responsible for the safety of firefighters on the fireground NEW TO THIS EDITION Examination of aggressive interior firefighting attack and nonaggressive attack Discussion of risk intensity and risk frequency at the fireground Visual representation and discussion of the NIST five stage time temperature fire growth curve showing temperatures before and after firefighter venting Coverage of the Columbia University Capstone Project FDNY Property Saved Indicator with a formula to quickly calculate the dollar amount of property saved at a structure fire Updated statistics graphs and charts *The Quote Verifier* Ralph Keyes, 2007-04-01 Our language is full of hundreds of quotations that are often cited but seldom confirmed Ralph Keyes's *The Quote Verifier* considers not only classic misquotes such as Nice guys finish last and Play it again Sam but more surprising ones such as Ain't I a woman and Golf is a good walk spoiled as well as the origins of popular sayings such as The opera ain't over till the fat lady sings No one washes a rented car and Make my day Keyes's in depth research routinely confounds widespread assumptions about who said what where and when Organized in easy to access dictionary form *The Quote Verifier* also contains special sections highlighting commonly misquoted people and genres such as Yogi Berra and Oscar Wilde famous last words and misremembered movie lines An invaluable resource for not just those with a professional need to quote accurately but anyone at all who is interested in the roots of words and phrases *The Quote Verifier* is not only a fascinating piece of literary sleuthing but also a great read **Principles of Fire Protection Chemistry and Physics** Raymond Friedman, 2008-03-12 Fire Science FESHE *Suing the Tobacco and Lead Pigment Industries* Donald G. Gifford, 2010-06-02 The topic how tort law evolved over time into a system that allowed for a moment at least a *parens patriae* form of massive litigation against corporations is exceedingly interesting and important Gifford's treatment of this topic is highly informative engaging insightful very current and wise David Owen Carolina Distinguished Professor of Law and Director of Tort Law Studies University of South Carolina In *Suing the Tobacco and Lead Pigment Industries* legal scholar Donald G. Gifford recounts the transformation of tort litigation in response to the challenge posed by victims of 21st century public health crises who seek compensation from the product manufacturers Class action litigation promised a strategy for documenting collective harm but an increasingly conservative judicial and political climate limited this strategy

Then in 1995 Mississippi attorney general Mike Moore initiated a parens patriae action on behalf of the state against cigarette manufacturers. Forty five other states soon filed public product liability actions seeking both compensation for the funds spent on public health crises and the regulation of harmful products. Gifford finds that courts through their refusal to expand traditional tort claims have resisted litigation as a solution to product caused public health problems. Even if the government were to prevail the remedy in such litigation is unlikely to be effective. Gifford warns furthermore that by shifting the powers to regulate products and to remediate public health problems from the legislature to the state attorney general parens patriae litigation raises concerns about the appropriate allocation of powers among the branches of government. Donald G Gifford is the Edward M Robertson Research Professor of Law at the University of Maryland School of Law.
