and the difficulties associated with quitting smoking are a dissuading factor in themselves. However, it is important to understand that it is a process, not an event, and it's never too late to kick the habit. When we are children, it is very important for us to fit in, and when we are in our adolescent years, it becomes even more important than ever before that we fit in with our peers. Is it any wonder that most kids light up in their teens and are addicted to nicotine by the time they have reached adolescence? While there is more of an outcry than ever before, people continue to smoke despite the restrictive measures that have been implemented in many places around the world. The Wait to Quit Smoking Plan was designed by a formerly heavy smoker and has been proven to work with astounding results.
