Teaching Ethics through Literature Suzanne S. Choo, 2021-07-01 Teaching Ethics through Literature provides in-depth understanding of a new and exciting shift in the fields of English education, Literature, Language Arts, and Literacy through exploring their connections with ethics. The book pioneers an approach to integrating ethics in the teaching of literature. This has become increasingly relevant and necessary in our globally connected age. A key feature of the book is its integration of theory and practice. It begins with a historical survey of the emergence of the ethical turn in Literature education and grounds this on the ideas of influential Ethical Philosophers and Literature scholars. Most importantly, it provides insights into how teachers can engage students in ethical concerns and apply practices of Ethical Criticism using rich on-the-ground case studies of high school Literature teachers in Australia, Singapore, and the United States.

Teaching the Novel across the Curriculum Colin C. Irvine, 2007-11-30 Instructors at all levels are being encouraged to teach writing in their courses even in subjects other than English. Because the novel reflects a broad set of human experiences and history, it is the ideal vehicle for learning about a wide range of issues. This book helps educators learn how to incorporate novels in courses in English, the humanities, social and behavioral sciences, and professional studies. The chapters focus on using the novel to explore ethical concerns, multiculturalism, history, social theory, psychology, social work, and education. The book looks at major canonical works as well as graphic novels and popular literature. Language arts are at the forefront of education these days. Instructors at all levels are being encouraged to teach writing in their courses even if those courses cover subjects other than English. Literature instructors have long used fiction to teach composition. But because the novel reflects a broad range of human experiences and historical events, it is the ideal medium for learning about contemporary social issues. This book helps educators learn how to use the novel in courses in English, the humanities, social and behavioral sciences, and professional studies. The book is divided into broad sections on general education classes, multiculturalism, literature classes, humanities courses, classes in social, behavioral, and political sciences, and professional studies such as social work and teacher training. Each section includes chapters written by gifted teachers and provides a wealth of theoretical and practical information. While the book examines major canonical works such as *Hard Times*, *Billy Budd*, and *Invisible Man*, it also looks at graphic novels, science fiction, and popular contemporary works such as *Finishing School* and *Jarhead*. Chapters reflect the personal successes of their authors and cite works for further reading.
