Amoral Thomas Schramme,2014-08-22 Investigations of specific moral dysfunctions or deficits that shed light on the capacities required for moral agency Psychopathy has been the subject of investigations in both philosophy and psychiatry and yet the conceptual issues remain largely unresolved This volume approaches psychopathy by considering the question of what psychopaths lack The contributors investigate specific moral dysfunctions or deficits shedding light on the capacities people need to be moral by examining cases of real people who seem to lack those capacities The volume proceeds from the basic assumption that psychopathy is not characterized by a single deficit for example the lack of empathy as some philosophers have proposed but by a range of them Thus contributors address specific deficits that include impairments in rationality language fellow feeling volition evaluation and sympathy They also consider such issues in moral psychology as moral motivation moral emotions and moral character and they examine social aspects of psychopathic behavior including ascriptions of moral responsibility justification of moral blame and social and legal responses to people perceived to be dangerous As this volume demonstrates philosophers will be better equipped to determine what they mean by the moral point of view when they connect debates in moral philosophy to the psychiatric notion of psychopathy which provides some guidance on what humans need in order be able to feel the normative pull of morality And the empirical work done by psychiatrists and researchers in psychopathy can benefit from the conceptual clarifications offered by philosophy Contributors Gwen Adshead Piers Benn John Deigh Alan Felthous Kerrin Jacobs Heidi Maibom Eric Matthews Henning Sass Thomas Schramme Susie Scott David Shoemaker Walter Sinnott Armstrong Matthew Talbert **The Society of the Selfie**

and amplify one another feeding social estrangement With neoliberalism psychosocial wounds are agitated and authoritarianism is provoked Yet this new sociality also inspires resistance and political mobilisation Illustrating ideas and trends with examples from news and popular culture the book outlines and applies theories from Debord Foucault Fromm Goffman and Giddens among others Topics covered include the global history of communication technologies personal branding echo chamber effects alienation and fear of abnormality Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before and political differences are widened and inflamed They also provide new opportunities for protest and resistance *Food Fraud Prevention* John W.

wrongdoers show remorse and how they show remorse are matters that attract great interest both in law and in popular culture In capital trials in the United States it can be a question of life or death whether a jury believes that a wrongdoer showed remorse And in wrongdoings that capture the popular imagination public attention focuses not only on the act but on whether the perpetrator feels remorse for what they did But who decides when remorse should be shown or not shown and whether it is genuine or not genuine In contrast to previous academic studies on the subject the primary focus of this work is not on whether the wrongdoer meets these expectations over how and when remorse should be shown but on how the

community reacts when these expectations are met or not met Using examples drawn from Canada the United States and South Africa the author demonstrates that the showing of remorse is a site of negotiation and contention between groups who differ about when it is to be expressed and how it is to be expressed The book illustrates these points by looking at cases about which there was conflict over whether the wrongdoer should show remorse or whether the feelings that were shown were sincere Building on the earlier analysis the author shows that the process of deciding when and how remorse should be expressed contributes to the moral ordering of society as a whole This book will be of interest to those in the fields of sociology law law and society and criminology

Clerical Errors Peter Murnane, 2022-08-04 The Catholic church is in serious decline This book claims that the corruption of the institution derives from various clerical errors especially clericalism which assumes that clergy are superior and deserve privileges Clericalism divides the church into two unequal classes betraying the gospel which teaches that all people are equal Clerical privilege makes the sexual abuse of children more likely and has led most bishops to conceal it Clerical Errors begins by examining the trials and acquittal of Cardinal Pell Was it the jury who made a grave error or was it the cardinal Other chapters look at worldwide sexual abuse of children by Catholic clergy and traumatic impacts on survivors What might have caused this tragedy The institutional nature of the church Defective Canon Law Misuse of the sacrament of Confession Compulsory celibacy Homosexuality The book's last hopeful chapter proposes a radical but simple model for restoring the Christian church

The Still Small Voice Donald L. Carveth, 2018-05-01 Whereas Freud himself viewed conscience as one of the functions of the superego in *The Still Small Voice* Psychoanalytic Reflections on Guilt and Conscience the author argues that superego and conscience are distinct mental functions and that

therefore a fourth mental structure the conscience needs to be added to the psychoanalytic structural theory of the mind He claims that while both conscience and superego originate in the so called pre oedipal phase of infant and child development they are comprised of contrasting and often conflicting identifications The primary object still most often the mother is inevitably experienced as on the one hand nurturing and soothing and on the other as frustrating and persecuting Conscience is formed in identification with the nurturer the superego in identification with the aggressor There is a principle of reciprocity at work in the human psyche for love received one seeks to return love for hate hate the talion law *Lies Have Ruined the World* Dennis Richard Proux,2012-05-18 Every statement that a person makes is either true or false that is a lie In his comprehensive study *Lies Have Ruined the World* author Dennis Proux seeks to expose the dishonesty myths and fabrications provided by powerful influences in the most important areas of our lives including religious institutions government and our legal system Proux feels that all humans yearn to be free to discover their own worlds and realize their full potential While relying on the wisdom and insight from such authors as Charles Darwin Thomas Paine Carl Sagan and countless others Proux offers a compelling glimpse into the lies surrounding western monotheistic religions Wall Street and our nations government and justice system As he examines biblical tales reveals corruption within our society and dissects many painful realities Proux offers insight and potential solutions that will ultimately inspire a life based on fact and honesty rather than on fiction and lies *Lies Have Ruined the World* encourages seekers of the truth to explore their own perceptions of the failure of western institutions to garner and hold trust Construções Prisionais frika Sun,2016-07-04 Livro que analisa o sistema penal penitenciário de forma sistemática analisando o de forma completa a partir do crime entendido como infração as normas penais e sanções castigo aplicado aos infratores e respectivas intenções recuperativas supostamente intrínsecas às penas *Mind Behind The Crime* Cheryl Critchley,Helen McGrath,2018-06-26 Nurses and neighbours partners and parents all murderers who shocked Australia with the severity of their crimes But what makes them tick Society couple Michael O Neill and Stuart Rattle had it all their lavish country property their interior design business until Michael bludgeoned Stuart to death with a cooking pan Akon Guode intentionally drove into a lake leaving three of her children trapped in the car to drown Geoff Hunt pillar of the local community shot dead his wife and their three children before killing himself From feuds on the farm to the infamous Lindt Café Siege in Sydney *Mind Behind the Crime* profiles Australia's most horrific and often most unlikely killers Renowned psychologist Dr Helen McGrath and prolific journalist Cheryl Critchley authors of the bestselling *Why Did They Do It* join forces again to unpack the crimes and discover the personality disorders of the perpetrators They use psychoanalysis and scientific methodology to uncover the circumstances and motives of our country's most notorious murderers and to really understand the mind behind the crime Pedagogical Tact Max van Manen,2016-07-11 *Pedagogical Tact* describes how teacher student relations possess an improvisational and ethical character The daily realities of educators parents and childcare specialists are pedagogically conditioned by sensitive

How do we turn it off and reclaim our lives? Five years after September 11 we're still scared. And why not? Terrorists could strike at any moment. Our country is at war. The polar caps are melting. Hurricanes loom. We struggle to control our fear so that we can go about our daily lives. Our national consciousness has been torqued by trauma in the process transforming our behavior, our expectations, our legal system. In *The Myth of Sanity* Martha Stout, who until recently taught at the Harvard Medical School, analyzed how we cope with personal trauma. In her national bestseller *The Sociopath Next Door* she showed how to avoid suffering psychological damage at the hands of others. Now in *The Paranoia Switch* she offers a groundbreaking clinical neuropsychological and practical examination of what terror and fear politics have done to our minds and to the very biology of our brains. In this timely and essential book Stout assures us that we can interrupt the cycle of trauma and look forward to a future free of fear only by understanding our own paranoia and what flips the paranoia switch. *The Favorite Child* Ellen Weber Libby, 2011-02-02 A thirty-year veteran clinical psychologist describes in intimate detail how being the favorite child can confer both great advantages and significant emotional handicaps. Also illuminating for young parents seeking the best way to rear their children. **Toxic Divorce: A Workbook for Alienated Parents** Kathleen M. Reay, 2012-07-10 Are you an alienated parent dealing with a toxic divorce? Is your former spouse making derogatory remarks about you to your children? Have your children become really angry with you? Is your ex claiming that your children don't want to see you anymore? Do your children no longer want to have anything to do with your family, friends, or pets? Is your ex resisting or refusing to cooperate by not allowing you access to your children? If you answer yes to one or more questions, then parental alienation (PA) or parental alienation syndrome (PAS) may be occurring. This workbook will provide the knowledge, understanding, real-life examples, step-by-step directions, and powerful strategies to deal with the ramifications of PA or PAS. Alienated parents will learn effective ways to overcome negative thoughts, feelings, and behaviors that can stand in the way of rebuilding loving relationships with their children. Mental health and legal professionals will find the information in this book extremely valuable to help their clients and work in the best interests of alienated children. **Personality Disorders** Vera Sonja Maass, 2019-01-17 Details each of the 10 personality disorders in a format that makes locating information easy. *Personality Disorders* systematically explores 10 personality disorders.
