Sodomy Masculinity And Law In Medieval Literature France And England 1050 123:

Sexuality and its Queer Discontents in Middle English Literature T. Pugh, 2008-02-04 This book exposes the ways in which ostensibly normative sexualities depend upon queerness to shore up their claims of privilege Through readings of such classic texts as *The Canterbury Tales* and *Egeus and Grime* Tison Pugh explains how sexual normativity can often be claimed only after queerness has been rejected

Manuals for Penitents in Medieval England Krista A. Murchison, 2021 First comprehensive survey of a major genre of medieval English texts its purpose characteristics and reception The bestseller list of medieval England would have included many manuals for penitents works that could teach the public about the process of confession and explain the abstract concept of sin through familiar situations Among these bestselling works were the *Manuel des p ch s* commonly known through its English translation *Handlyng Synne* The *Speculum Vitae* and Chaucer's *Parson's Tale* This book is the first full length overview of this body of writing and its material and social contexts It shows that while manuals for penitents developed under the Church's control they also became a site of the Church's concern Manuals such as the *Compileison* which was addressed to a much broader audience than its English analogue *Ancrene Wisse* brought learning that had been controlled by the Church into the hands of layfolk and in so doing raised significant concerns over who should have access to knowledge Clerics worried that these manuals might accidentally teach people new sins remind them of old ones or become sites of prurient interest This finding and others explored in this book call for a new awareness of the complications and contradictions inherent in late medieval orthodoxy and reveal plainly that even writing that happened firmly within the Church's control could promote new and complex ways of thinking about religion and the self

Sodomy, Masculinity and Law in Medieval Literature William E. Burgwinkle, 2004-07-08 William Burgwinkle surveys poetry and letters histories and literary fiction including Grail romances to offer a historical survey of attitudes towards same sex love during the centuries that gave us the Plantagenet court of Henry II and Eleanor of Aquitaine courtly love and Arthurian lore Burgwinkle illustrates how sodomy becomes a problematic feature of narratives of romance and knighthood Most texts of the period denounce sodomy and use accusations of sodomitical practice as a way of maintaining a sacrificial climate in which masculine identity is set in opposition to the stigmatised other for example the foreign the feminine and the heretical What emerges from these readings however is that even the most homophobic masculinist and normative texts of the period demonstrate an inability or unwillingness to separate the sodomitical from the orthodox These blurred boundaries allow readers to glimpse alternative even homoerotic readings

The Medieval Chronicle 11, 2018-03-20 Alongside annals chronicles were the main genre of historical writing in the Middle Ages Their significance as sources for the study of medieval history and culture is today widely recognised not only by historians but also by students of medieval literature and linguistics and by art historians The series The Medieval Chronicle aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds There are several reasons why the chronicle is particularly suited as the topic of a yearbook In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written

both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions The Medieval Chronicle is published in cooperation with the Medieval Chronicle Society medievalchronicle.org

Between Medieval Men David Clark, 2009-02-26 *Between Medieval Men* argues for the importance of synoptically examining the whole range of same sex relations in the Anglo Saxon period revisiting well known texts and issues as well as material often considered marginal from a radically different perspective The introductory chapters first lay out the premises underlying the book and its critical context then emphasise the need to avoid modern cultural assumptions about both male female and male male relationships and underline the paramount place of homosocial bonds in Old English literature Part II then investigates the construction of and attitudes to same sex acts and identities in ethnographic penitential and theological texts ranging widely throughout the Old English corpus and drawing on Classical Medieval Latin and Old Norse material Part III expands the focus to homosocial bonds in Old English literature in order to explore the range of associations for same sex intimacy and their representation in literary texts such as *Genesis A* *Beowulf* *The Battle of Maldon* *The Dream of the Rood* *The Phoenix* and *lfric's Lives of Saints* During the course of the book's argument David Clark uncovers several under researched issues and suggests fruitful approaches for their investigation He concludes that in omitting to ask certain questions of Anglo Saxon material in being too willing to accept the status quo indicated by the extant corpus in uncritically importing invisible because normative heterosexist assumptions in our reading we risk misrepresenting the diversity and complexity that a more nuanced approach to issues of gender and sexuality suggests may be more genuinely characteristic of

the period *Intertextual Masculinity in French Renaissance Literature* David P. LaGuardia, 2016-05-06 Intertextual Masculinity in French Renaissance Literature is an in depth analysis of normative masculinity in a specific corpus from pre modern Europe narrative literature devoted to the subject of adultery and cuckoldry The text begins with a set of general questions that serve as a conceptual framework for the literary analyses that follow why were early modern readers so fascinated by the figure of the cuckold What was his relation to the real world of sexual behavior and gender relations What effect did he have on the construction of actual masculinities To respond to these questions David LaGuardia develops a theoretical approach that is based both on modern critical theory and on close readings of records and documents from the period Reading early modern legal texts penance manuals criminal registers and exempla collections in relation to the Cent nouvelles nouvelles Rabelais s Tiers Livre and Brant me s Dames galantes LaGuardia formulates a definition of masculinity in this historical context as a set of intertextual practices that men used to relay and to reinforce their gender identities By examining legal and literary artifacts from this particular period and culture this study highlights the extent to which this supposedly normative masculinity was historically contingent and materially conditioned by generic practices *Ravishing Maidens* Kathryn Gravdal, 1991 In this study of sexual violence and rape in French medieval literature and law Kathryn Gravdal examines an array of famous works never before analyzed in connection with sexual violence Gravdal demonstrates the variety of techniques through which medieval discourse made rape acceptable sometimes through humor and aestheticization sometimes through the use of social and political themes but especially through the romanticism of rape scenes
