Software Process Assessment And Improvement The Bootstrap Approach:

Software Process Assessment and Improvement Pasi Kuvaja, 1994 Action Focused Assessment for Software Process Improvement Tim Kasse, 2002 This informative book is designed to help professionals involved with development of software or systems manage process improvement initiatives within their company by explaining the history method and psychology behind AFA **Software Process Improvement and Capability Determination** Antonia Mas, Antoni Mesquida, Terry Rout, Rory V. O'Connor, Alec Dorling, 2012-06-02 This book constitutes the refereed proceedings of the 12th International Conference on Software Process Improvement and Capability Determination SPICE 2012 held in Palma de Mallorca Spain in May 2012 The 21 revised full papers presented and 14 short papers were carefully reviewed and selected from numerous submissions The papers are organized in topical sections on organizational process improvement SPI in small and very small enterprises process models SPI in automotive software and security SPI in medical and safety critical systems short papers **Product Focused Software Process Improvement** Markku Oivo, Seija Komi-Sirviö, 2003-07-01 On behalf of the PROFES organizing committee we would like to welcome you to the 4th International Conference on Product Focused Software Process Improvement PROFES 2002 in Rovaniemi Finland The conference was held on the Arctic Circle in exotic Lapland under the Northern Lights just before Christmas time when Kaamos the polar night is known in Finnish as Kaamos shows its best characteristics PROFES has established itself as one of the recognized international process improvement conferences Despite the current economic downturn PROFES has attracted a record number of submissions A total of 70 full papers were submitted and the program committee had a difficult task in selecting the best papers to be presented at the conference The main theme of PROFES is professional software process improvement SPI motivated by product and service quality needs SPI is facilitated by software process assessment software measurement process modeling and technology transfer It has become a practical tool for quality software engineering and management The conference addresses both the solutions found in practice and the relevant research results from academia **Software Engineering Processes** Yingxu Wang, Graham King, 2000-04-21 Software engineering is playing an increasingly significant role in computing and informatics necessitated by the complexities inherent in large scale software development To deal with these difficulties the conventional life cycle approaches to software engineering are now giving way to the process system approach encompassing development methods infrastructure organization and management Until now however no book fully addressed process based software engineering or set forth a fundamental theory and framework of software engineering processes Software Engineering Processes Principles and Applications does just that Within a unified framework this book presents a comparative analysis of current process models and formally describes their algorithms It systematically enables comparison between current models avoidance of ambiguity in application and simplification of manipulation for practitioners The authors address a broad range of topics within process based software engineering and the fundamental theories and philosophies behind them They

develop a software engineering process reference model SEPRM to show how to solve the problems of different process domains orientations structures taxonomies and methods They derive a set of process benchmarks based on a series of international surveys that support validation of the SEPRM model Based on their SEPRM model and the unified process theory they demonstrate that current process models can be integrated and their assessment results can be transformed between each other Software development is no longer just a black art or laboratory activity It is an industrialized process that requires the skills not just of programmers but of organization and project managers and quality assurance specialists Software Engineering Processes Principles and Applications is the key to understanding using and improving upon effective engineering procedures for software development
