## **Solidarity Of Strangers:**

*Solidarity of Strangers* Jodi Dean, Professor Jodi Dean, 1996-01-01 Anyone concerned by the swirling academic and political debates over identity politics multiculturalism and what could bring us together in divisive times should read Jodi Dean's welcome argument for reconstructing a conscious deliberative solidarity With insightful engagement with scholars as diverse as Judith Butler Cornel West Jurgen Habermas and Lynet Uttal Dean models the kind of dialogue she advocates Martha Minow author of *Making All the Difference Inclusion Exclusion and American Law* *Solidarity of Strangers* is an impressive achievement Dean works to move political theory beyond the poststructuralist Habermasian divide as she offers a discourse ethics that accounts for difference and a universalism that does not abandon specificities Shane Phelan author of *Getting Specific Postmodern Lesbian Politics* Dean offers a strong original and humane defense of universalist ideals against doubts which she deeply grasps and sympathetically arrays of the compatibility of such ideals with a respect for difference Frank Michelman Harvard Law School Dean has a real gift for weaving personal narrative current events law and high theory Her complicated and important argument attempts to move beyond the either/or of identity politics and its critics via a creative reevaluation of universalism premised on difference and plurality A very important book Judith Grant University of Southern California author of *Fundamental Feminism Contesting the Core Concepts of Feminist Theory* Calling for inspiration on Habermas George Herbert Mead and their critics Dean challenges conventional interpretive constraints on law and theory aiming to open up contestable spaces to democratic practices She offers the ideal of reflective solidarity as a vehicle for reclaiming a qualified notion of universality for feminism This controversial move will no doubt provoke debate requiring readers to think through the link between our epistemological convictions and our political commitments Kathy Ferguson author of *The Man Question Visions of Subjectivity in Feminist Theory* [No Strangers Here](#) Judy Chin Chan, 2017-10-13 Churches are traditionally among the first to respond to the call to aid strangers in distress In this age of globalization one group of strangers in particular asylum seekers and refugees is in urgent need of welcome as they flee their homelands in search of safety This same group however faces hostility and rejection in many places What should be the church's response This book argues that Christian hospitality offers a powerful theological and pastoral response to such vulnerable strangers in our midst For that to happen the church must answer two questions What is Christian hospitality and How do we put it into practice with refugees and asylum seekers Part One answers the first question with a cross disciplinary study of sacred hospitality in both ancient and modern times Part Two tackles the second with a fascinating case study of the church's outreach to refugees and asylum seekers in an international Chinese city As communities worldwide receive refugees and asylum seekers this book offers Christian hospitality and the Hong Kong experience as one hopeful response to needy strangers at our doorstep It is a welcome theological and practical resource for refugee ministry in the twenty first century **With Power Comes Responsibility** Maeve McKeown, 2024-02-08 What is structural injustice and who

ultimately bears responsibility for it In answering these questions Maeve McKeown goes beyond the widely accepted narrative of unintended consequences and blameless participation to explain how power and responsibility truly function in today s world Drawing on case studies from sweatshops to climate change McKeown identifies three types of structural injustice the pure and unintended accumulation of disparate activities the avoidable injustice that could be ameliorated by the powerful but nevertheless continues the deliberate perpetuation of structural processes that benefit powerful political and economic agents In each of these the role of power is different which changes the allocation of responsibility From this understanding we can shape a deeper more sophisticated idea of how structural injustice operates and what we as individuals can do about it What is the political responsibility of ordinary individuals How can ordinary individuals with very little power pressure morally responsible powerful agents to address structural injustice Do we have the same responsibility for historical injustice as we do for that which we see in today s world This is fundamental reassessment of the relationship between power ordinary people and responsibility for structural injustice

Peaceful Approaches for a More Peaceful World, 2022-02-07 Events in recent times have led many to rightly question the compatibility such traditionally revered concepts as democracy liberal tolerance and capitalism have with the realization of social peace Clearly it can no longer be uncritically assumed that the values championed by earlier generations are conducive to reaching peaceful outcomes In Peaceful Approaches for a More Peaceful World a wide array of scholars explore the challenges presented in the current age to conventional understandings of what is required for peace and provide insights that are both practical and constructive to a world in urgent need of conceiving new ways forward

**Care and the City** Angelika Gabauer, Sabine Knierbein, Nir Cohen, Henrik Lebuhn, Kim Trogal, Tihomir Viderman, Tigran Haas, 2021-10-24 Care and the City is a cross disciplinary collection of chapters examining urban social spaces in which caring and uncaring practices intersect and shape people s everyday lives While asking how care and uncaring are embedded in the urban condition the book focuses on inequalities in caring relations and the ways they are acknowledged reproduced and overcome in various spaces discourses and practices This book provides a pathway for urban scholars to start engaging with approaches to conceptualize care in the city through a critical reflexive analysis of processes of urbanization It pursues a systematic integration of empirical methodological theoretical and ethical approaches to care in urban studies while overcoming a crisis centered reading of care and the related ambivalences in care debates practices and spaces These strands are elaborated via a conceptual framework of care and situated within broader theoretical debates on cities urbanization and urban development with detailed case studies from Europe the Americas and Asia By establishing links to various fields of knowledge this book seeks to systematically introduce debates on care to the interconnecting fields of urban studies planning theory and related disciplines for the first time

People and Land Jione Havea, 2019-11-06 Empires rise and expand by taking lands and resources and by enslaving the bodies and minds of people Even in this modern era the territories geographies and peoples of a number of lands continue to

be divided occupied harvested and marketed The legacy of slavery and the scapegoating of people persists in many lands and religious institutions have been co opted to own land to gather people to define proper behavior to mete out salvation and to be silent The contributors to People and Land writing from under the shadows of various empires from and in between Africa Asia the Americas the Caribbean and Oceania refuse to be silent They give voice to multiple causes to assess and transform the usual business of theology and hermeneutics to expose and challenge the logics and delusions of coloniality to tally and demand restitution of stolen commodified and capitalized lands to account for the capitalizing touristy and forced movements of people and to scripturalize the undeniable ecological crises and our responsibilities to the whole life system watershed This book is a protest against the claims of political and religious empires over land people earth minds and the future

**Rational Extremism** Ronald Wintrobe,2006-08-14 Extremists are people whose ideas or tactics are viewed as outside the mainstream Looked at this way extremists are not necessarily twisted or evil But they can be especially when they are intolerant and violent What makes extremists turn violent This 2006 book assumes that extremists are rational given their ends they choose the best means to achieve them The analysis explains why extremist leaders use the tactics they do and why they are often insensitive to punishment and to loss of life It also explains how rational people can be motivated to die for the cause The book covers different aspects of extremism such as revolution suicide terrorism and global jihad The arguments are illustrated with important episodes of extremism including the French Revolution the rise of nationalism in Yugoslavia under Milosevic and the emergence of suicide terror and Al Qaeda today *Conflict and Catholic Social Ethics* Taylor J. Ott,2024-11-01 This book focuses on the question of how to understand conflict and its place in Catholic and Christian social ethics The author examines Catholic social teaching CST for its explicit mentions of conflict or contention and analyzes the way that CST addresses the subjects of peace labor and environment While CST offers precedent to think about conflict within the frame of Catholic ethics its lack of explicit engagement remains a major obstacle to a full rich and concrete understanding of the fabric of society and the work of social justice Any social ethic that is not informed by the presence of conflict misses a major dynamic in society and therefore leads to ethical judgements that are at best inadequate and at worst actively harmful Building upon the insight of respected thinkers within Catholic social thought this study is based on an interdisciplinary method that engages sociology political theory postcolonial theory and intersectional feminist ethics The book will be of particular interest to theological ethicists and those who work with modern CST Deafness, community and culture in Britain Martin Atherton,2018-02-28 Setting a case study of deaf people s leisure practices in north west England within a wider examination of communal deaf leisure across Britain this book offers new insights into a misunderstood and misrepresented community The book provides a detailed analysis of deaf people s leisure during the second half of the twentieth century which questions perceptions of deafness as a disability investigates the importance of shared leisure in community formation more generally and examines the ways in which changing patterns of socialisation are

affecting British society Although focusing on the British deaf community the concepts and principles explored in this book can be applied across a wide range of social cultural and ethnic groups This book draws upon a wide range of subject areas and will consequently be of interest to students and academics working in the fields of disability history community and cultural minority studies sport leisure and regional studies **Strangers on the Earth** James W. Thompson, 2020-04-24

Contrary to what we might imagine from its title the Epistle to the Hebrews is immersed in Hellenistic thought Its author demonstrates an acquaintance with Greco Roman rhetoric and often supports his arguments with the assumptions of Hellenistic philosophy While he shares the apocalyptic worldview of other Jews in this period he recasts it with the language of Middle Platonism Towards a Segmented European Political Order Jozef Bátora, John Erik Fossum, 2019-11-08 This book makes a distinctive contribution to the crucial debate on the European Union EU s present and future development It systematically examines how the range of crises and challenges over the last decade have transformed the EU and relates those findings to the discussion of an increasingly differentiated EU It argues that the post crises EU shows clear signs of becoming a segmented political order with in built biases and constraints The book spells out the key features of such an order in ideational and structural terms and shows how it more concretely manifests itself in the EU s institutional and constitutional make up and in how member states constrain and condition EU action Different states impose different types of constraints as is underlined through paying explicit attention to the Visegrád countries This book will be of key interest to scholars and students of EU politics studies European integration and politics East European politics and foreign policy

**The Legendary Past** Natalie Riendeau, 2014-12-10 The book explores Oakeshott s thought on the key role human imagination plays in relation to the political It addresses four main themes imagination foundational narratives the question of political societies identities as well as that of human living together to use Hannah Arendt s expression The book s main objective is to show that Oakeshott may be rightfully understood to be a philosopher of the imagination as well as a foundationalist thinker in the Arendtian narrative constructivist tradition *The Dark Years?* Jacob L. Goodson, 2020-08-04

In 1997 and 1998 the American secular philosopher Richard Rorty published a set of predictions about the twenty first century ranging from the years 2014 95 He predicted for instance the election of a strong man in the 2016 presidential race and the proliferation of gun violence starting in 2014 He labels the years from 2014 44 the darkest years of American history politics and society From 2045 95 Rorty thinks his own vision for social hope will be implemented within American society a vision that includes charity in the Pauline sense solidarity and sympathy Rorty considers himself a leftist liberal and a philosopher of hope So why would a philosopher of hope predict such darkness and despair In *The Dark Years* Philosophy Politics and the Problem of Predictions philosopher and political theorist Jacob L Goodson explains the fullness of Rorty s predictions the problem of making predictions within the social sciences and the reasons why even Rorty s vision for life after the dark years fails us on the standards of hope Goodson argues that we ought to challenge the monopoly that American

politics has as our object of hope Goodson makes the case for a melancholic yet redemptive hope Strangers and Scapegoats Matthew S. Vos,2022-08-16 We live in a world of oppositional relationships and increasing in group out group divisions Christian sociologist Matthew Vos explains how the problem of the stranger lies at the root of many problems humanity faces such as racism sexism and nationalism He applies classic sociological theory on the stranger to matters of faith and social justice showing that an identity in Christ frees us to love strangers as neighbors and friends The book also includes two guest chapters one on intersex persons and the church and one on stranger making in the correctional system

**The Power of Strangers** Joe Keohane,2021-07-13 A meticulously researched and buoyantly written Esquire look at what happens when we talk to strangers and why it affects everything from our own health and well being to the rise and fall of nations in the tradition of Susan Cain s *Quiet* and Yuval Noah Harari s *Sapiens* This lively searching work makes the case that welcoming others isn t just the bedrock of civilization it s the surest path to the best of what life has to offer Ayad Akhtar Pulitzer Prize winning author of *Homeland Elegies* In our cities we stand in silence at the pharmacy and in check out lines at the grocery store distracted by our phones barely acknowledging one another even as rates of loneliness skyrocket Online we retreat into ideological silos reinforced by algorithms designed to serve us only familiar ideas and like minded users In our politics we are increasingly consumed by a fear of people we ve never met But what if strangers so often blamed for our most pressing political social and personal problems are actually the solution In *The Power of Strangers* Joe Keohane sets out on a journey to discover what happens when we bridge the distance between us and people we don t know He learns that while we re wired to sometimes fear distrust and even hate strangers people and societies that have learned to connect with strangers benefit immensely Digging into a growing body of cutting edge research on the surprising social and psychological benefits that come from talking to strangers Keohane finds that even passing interactions can enhance empathy happiness and cognitive development ease loneliness and isolation and root us in the world deepening our sense of belonging And all the while Keohane gathers practical tips from experts on how to talk to strangers and tries them out himself in the wild to awkward entertaining and frequently poignant effect Warm witty erudite and profound equal parts sweeping history and self help journey this deeply researched book will inspire readers to see everything from major geopolitical shifts to trips to the corner store in an entirely new light showing them that talking to strangers isn t just a way to live it s a way to survive On Knowing Humanity Eloise Meneses,David Bronkema,2017-07-14 This volume is intended as a critique of anthropology s epistemological and ontological assumptions and a demonstration of the value added by an expanded set of parameters for the field The book s core argument is that whilst ethnographers have allowed their own perspectives to be positively influenced by the perspectives of their informants until recently anthropology has done little in the way of adopting these other viewpoints as critical tools for analysis The book is essential reading for scholars of the anthropology of religion as well as other philosophically oriented social scientists and theologians *Theories of the Stranger* Vince Marotta,2016-09-13 In

our global multicultural world how we understand and relate to those who are different from us has become central to the politics of immigration in western societies Who we are and how we perceive ourselves is closely associated with those who are different and strange This book explores the pivotal role played by the stranger in social theory examining the different conceptualisations of the stranger found in the social sciences and shedding light on the ways in which these discourses can contribute to an analysis of cross cultural interaction and cultural hybridity Engaging with the work of Simmel Park and Bauman and arguing for the need for greater theoretical clarity Theories of the Stranger connects conceptual questions with debates surrounding identity politics multiculturalism online ethnicities and cross cultural dialogue As such this rigorous conceptual re examination of the stranger will appeal to scholars across the social sciences with interests in social theory and the theoretical foundations of discourses relating to migration cosmopolitanism globalisation and multiculturalism

**The Modern Stranger** Lesley D. Harman, 2011-11-02 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language

**Studying Language in Interaction** Betsy Rymes, 2022-10-28 Studying Language in Interaction is a holistic practical guide with a hybrid purpose To emphasize a particular approach to language in the world a theory of language that has room for communicative repertoire and sociolinguistic diversity and to provide a practical guide for new researchers of language in interaction Each chapter focuses on one way of communicating providing a set of strategies to observe note and reflect on context specific ways of using multiple languages of sounding naming using social media telling stories being ironic and engaging in everyday routines This approach provides a practical guide without stripping out all the wonder and nuance of language in interaction that originally draws the novice researcher to critical inquiry and makes language relevant to the humans who use it every day Studying Language in Interaction is not only a practical research guide it is also a workbook for being in the world in ways that matter illustrating that any research on language in interaction involves both tricks of the trade and a sustained engagement with humanity With extensive pedagogical resources this is an ideal text for advanced undergraduate and graduate students of sociolinguistics intercultural communication linguistic anthropology and education who are embarking on fieldwork projects

*Migration, Protest Movements and the Politics of Resistance* Tamara Caraus, Elena Paris, 2018-10-01 Migration and cosmopolitanism are said to be complementary Cosmopolitanism means to be a citizen of the world and migration without impediments should be the natural starting point for a cosmopolitan view However the intensification of migration through an increasing number of refugees and economic migrants has generated anti

cosmopolitan stances Using the concept of cosmopolitanism as it emerges from migrant protests like Sans Papiers No One Is Illegal and No Borders an interdisciplinary group of scholars addresses this discrepancy and explores how migrant protest movements elicit a new form of radical cosmopolitanism The combination of basic theoretical concepts and detailed empirical analysis in this book will advance the theoretical debate on the inherent cosmopolitan aspects of migrant activism As such it will be a valuable contribution to students researchers and scholars of political science sociology and philosophy
