Viera, 1997 Today more and more linguists and language specialists the world over are acknowledging the vital role of ESP within the English language teaching and learning area Consequently teachers and learners alike are discovering that there is a wider scope available to them in the field Hopefully the joint effort that went into the publishing of this volume will serve to motivate others to continue working in this direction *Transfer and Interference in Language*, 1984-01-01 The topic of this bibliography in its broadest sense is the subject of a wide range of academic disciplines Given these circumstances the particular associations and connotations of the terms transfer and interference in each of these areas are legion with resultant differences in meaning in the disparate literature on these subjects And yet it is in one way or another contact and interaction of languages in the speaker hearer and learner in language acquisition contexts as well as in society in general which is basic to these two concepts throughout the various disciplines The discovery of this basic unitary notion is surely one of the reasons for the new interest in these phenomena In light of all this a bibliography cannot at present avoid being highly selective in order to demarcate an interdisciplinary area of research in its own right and with its own status The establishment of such an area is one of our main aims The focus of interest in this bibliography admittedly is directed towards the psycholinguistics of language contact and interaction **Aspects of Teaching Secondary Modern Foreign**
