SPEAKING MY MIND

by **RONALD REAGAN**

SELECTED SPEECHES WITH PERSONAL REFLECTIONS

Speaking My Mind Selected Speeches

Timothy Raphael

Speaking My Mind Selected Speeches:

Speaking My Mind Ronald Reagan, 1990 **Speaking My Mind** Ronald Reagan, 1999-10-01 One man more than any other has helped define the most important issues of our time His name is Ronald Reagan one of our nation's most powerful and popular Presidents This extraordinary audio collection includes historical excerpts from selected addresses that span his political career laying out his vision for America and the world From his cornerstone 1964 speech on behalf of Barry Goldwater to his moving farewell address in January of 1989 here is President Reagan as we came to know him the public figure the political leader the private man Included are personal reflections from President Reagan recorded exclusively for this production in an audio presentation that captures the voice the spirit and the intellect of the greatest communicator America has ever known **Speaking My Mind** Ronald Reagan, 2004-08 The most important speeches of America's Great Communicator Here in his own words is the record of Ronald Reagan's remarkable political career and historic eight year presidency **America's Mission** Tony Smith, 2012-03-12 America's Mission argues that the global strength and prestige of democracy today are due in large part to America's impact on international affairs Tony Smith documents the extraordinary history of how American foreign policy has been used to try to promote democracy worldwide an effort that enjoyed its greatest triumphs in the occupations of Japan and Germany but suffered huge setbacks in Latin America Vietnam and elsewhere With new chapters and a new introduction and epilogue this expanded edition also traces U.S. attempts to spread democracy more recently under presidents Clinton Bush and Obama and assesses America's role in the Arab Spring **The President Electric** Timothy Raphael, 2011-03-15 In this illuminating multi-pronged cultural and performance history of such phenomena as Chautauqua and radio movies and electrical technology Timothy Raphael puts together a compelling and sometimes revelatory narrative of how commandingly Reagan mastered the matrix of performance technology media celebrity and the republic of consumption he came of age in Dana Nelson Vanderbilt University Garry Wills and others have written well on the phenomenon of Ronald Reagan the actor president but this is the first book by a real authority trained in performance and fully reflective about it from the inside unquestionably an important contribution to the disciplinary fields of American studies and performance studies and an important contribution to public affairs Joseph Roach Yale University When Ronald Reagan first entered politics in 1965 his public profile as a performer in radio film television and advertising and his experience in public relations proved invaluable political assets By the time he left office in 1989 the media in which he trained had become the primary source for generating and wielding political power *The President Electric* Ronald Reagan and the Politics of Performance reveals how the systematic employment of the techniques and technologies of mass media performance contributed to Reagan's rise to power and defined his style of governance *The President Electric* stands out among books on Reagan as the first to bring the rich insights of the field of performance studies to an understanding of the Reagan phenomenon connecting Reagan's training in electronic media to the nineteenth century notion of the fiat of

electricity the emerging sociopolitical power of three entities mechanical science corporate capitalism and mass culture that electric technology made possible The book describes how this new regime of cultural and political representation shaped the development of the electronic mass media that transformed American culture and politics and educated Ronald Reagan for his future role as president Timothy Raphael is Assistant Professor of Visual and Performing Arts and Director of the Center for Immigration at Rutgers University Newark Photo David H Wells Corbis **Broke** Glenn Beck, Kevin Balfe, 2012-08-28 Briefly surveys more than two centuries of American political history to describe how the country has been broken spiritually politically and financially and advocates a return to core values to restore America's economic and spiritual health *American Patriotism in a Global Society* Betty Jean Craige, 1996-01-01 This book argues that the transformation of our world into a global society is causing a resurgence of tribalism at the same time that it is inspiring the ideology of political holism the understanding of human society as an evolving global system of interdependent individuals cultures and nations Betty Jean Craige examines the patriotic resistance to globalization in the United States by examining a number of recent historical events including the Persian Gulf War the 1988 presidential campaign and the Iran Contra scandal The New Reagan Revolution Michael Reagan, Jim Denney, 2025-06-25 There are cynics who say that a party platform is something that no one bothers to read and it doesn't very often amount to much Whether it is different this time than it has ever been before I believe the Republican Party has a platform that is a banner of bold unmistakable colors with no pastel shades Ronald Reagan 1976 Republican National Convention When Ronald Reagan was called to the podium by President Ford during the 1976 Republican National Convention he had no prepared remarks But the unrehearsed speech he gave that night is still regarded as one of the most moving speeches of his political career The reason he was able to give such a powerful speech on a moment's notice was that he was proclaiming the core principles of his heart and soul which he had been teaching and preaching for years The New Reagan Revolution reveals new insights into the life thoughts and actions of the man who changed the world during the 1980s The challenges and threats we face today are eerily similar to the conditions in the world before the beginning of the Reagan era The good news is that we already know what works Ronald Reagan has given us the blueprint This book is not merely a diagnosis of our nation's ills but a prescription to heal our nation rooted in the words and principles of Ronald Reagan In these pages you'll find a plan for returning America to its former greatness soundness and prosperity It's the plan Ronald Reagan developed over years of study observation and reflection It's a plan he announced to the nation straight from his heart one summer evening during America's 200th year It's the plan he put into action during his eight years in office as the most effective president of the 20th century and it is the plan we can use today to help return America to its former greatness soundness and prosperity **Faith and the Presidency From George Washington to George W. Bush** Gary Scott Smith, 2006-10-12 In the wake of the 2004 election pundits were shocked at exit polling that showed that 22% of voters thought moral values was the most important issue at stake People on both sides

of the political divide believed this was the key to victory for George W Bush who professes a deep and abiding faith in God While some fervent Bush supporters see him as a man chosen by God for the White House opponents see his overt commitment to Christianity as a dangerous and unprecedented bridging of the gap between church and state In fact Gary Scott Smith shows none of this is new Religion has been a major part of the presidency since George Washington's first inaugural address Despite the mounting interest in the role of religion in American public life we actually know remarkably little about the faith of our presidents Was Thomas Jefferson an atheist as his political opponents charged What role did Lincoln's religious views play in his handling of slavery and the Civil War How did born again Southern Baptist Jimmy Carter lose the support of many evangelicals Was George W Bush as his critics often claimed a captive of the religious right In this fascinating book Smith answers these questions and many more He takes a sweeping look at the role religion has played in presidential politics and policies Drawing on extensive archival research Smith paints compelling portraits of the religious lives and presidencies of eleven chief executives for whom religion was particularly important Faith and the Presidency meticulously examines what each of its subjects believed and how those beliefs shaped their presidencies and in turn the course of our history

21 Great Leaders Pat Williams, Jim Denney, 2015-02-01 To improve your own leadership influence study the lives of great leaders you'll find 21 of them in Pat Williams' newest book Member of the Basketball Hall of Fame senior vice president of the Orlando Magic and author of 90 books Pat Williams has devoted much of his life to the study of leadership and shares the stories and principles of individuals from George Washington to Nelson Mandela Billy Graham to Walt Disney and Margaret Thatcher to Steve Jobs Organized around Pat's Seven Sides of Leadership Vision Communication People Skills Character Competence Boldness Serving Heart 21 Great Leaders will provide challenge encouragement and affirmation for your own leadership journey
