Speaking For Clio:

Clio's Laws Mauricio Tenorio-Trillo, 2019-12-16 Offering a unique perspective on the very notions and practices of storytelling history memory and language Clio's Laws collects ten essays some new and some previously published in Spanish by a revered voice in global history Taking its title from the Greek muse of history this opus considers issues related to the historian's craft including nationalism and identity and draws on Tenorio Trillo's own lifetime of experiences as a historian with deep roots in both Mexico and the United States By turns deeply ironic provocative and experimental and covering topics both lowbrow and highbrow the essays form a dialogue with Clio about idiosyncratic yet profound matters Tenorio Trillo presents his own version of an *ars historica* what history is why we write it and how we abuse it alongside a very personal essay on the relationship between poetry and history Other selections include an exploration of the effects of a historian's autobiography a critique of history's celebratory obsession and a guide to reading history in an era of internet searches and too many books A self-described exile Tenorio Trillo has produced a singular tour of the historical imagination and its universal traits

Poems without Poets Boris Kayachev, 2021-03-31 The canon of classical Greek and Latin poetry is built around big names with Homer and Virgil at the center but many ancient poems survive without a firm ascription to a known author This negative category anonymity ties together texts as different as for instance the orally derived Homeric Hymns and the learned interpolation that is the Helen episode in Aeneid 2 but they all have in common that they have been maltreated in various ways consciously or through neglect by generations of readers and scholars ancient as well as modern These accumulated layers of obliteration which can manifest for instance in textual distortions or aesthetic condemnation make it all but impossible to access anonymous poems in their pristine shape and context The essays collected in this volume attempt each in its own way to disentangle the bundles of historically accreted uncertainties and misconceptions that affect individual anonymous texts including pseudepigrapha ascribed to Homer Manetho Virgil and Tibullus literary and inscribed epigrams and unattributed fragments Poems without Poets will be of interest to students and scholars working on any anonymous ancient texts but also to readers seeking an introduction to classical poetry beyond the limits of the established canon
