Specialist Control James Edward McClellan, 2003 **Specialist Control III., The SAGE Handbook of Geographical Knowledge** John A Agnew, David N Livingstone, 2011-02-17 A refreshingly innovative approach to charting geographical knowledge A wide range of authors trace the social construction and contestation of geographical ideas through the sites of their production and their relational geographies of engagement This creative and comprehensive book offers an extremely valuable tool to professionals and students alike Victoria Lawson University of Washington A Handbook that recasts geography's history in original thought provoking ways Eschewing the usual chronological march through leading figures and big ideas it looks at geography against the backdrop of the places and institutional contexts where it has been produced and the social cum intellectual currents underlying some of its most important concepts Alexander B Murphy University of Oregon The SAGE Handbook of Geographical Knowledge is a critical inquiry into how geography as a field of knowledge has been produced re produced and re imagined It comprises three sections on geographical orientations geography's venues and critical geographical concepts and controversies The first provides an overview of the genealogy of geography The second highlights the types of spatial settings and locations in which geographical knowledge has been produced The third focuses on venues of primary importance in the historical geography of geographical thought Orientations includes chapters on Geography the Genealogy of a Term Geography's Narratives and Intellectual History Geography's Venues includes chapters on Field Laboratory Observatory Archive Centre of Calculation Mission Station Battlefield Museum Public Sphere Subaltern Space Financial Space Art Studio Botanical Zoological Gardens Learned Societies Critical concepts and controversies includes chapters on Environmental Determinism Region Place Nature and Culture Development Conservation Geopolitics Landscape Time Cycle of Erosion Time Gender Race Ethnicity Social Class Spatial Analysis Glaciation Ice Ages Map Climate Change Urban Rural Comprehensive without claiming to be encyclopedic textured and nuanced this Handbook will be a key resource for all researchers with an interest in the pasts presents and futures of geography **The Uses of Space in Early Modern History** P. Stock, 2015-03-18 While there is an growing body of work on space and place in many disciplines less attention has been paid to how a spatial approach illuminates the societies and cultures of the past Here leading experts explore the uses of space in two respects how space can be applied to the study of history and how space was used at specific times **Specialist Control** James Edward McClellan (III), James E. McClellan III, 2003 The Comité du Librairie of the Académie Royale des Sciences in Paris its influence on modern scientific refereeing are examined in this 2003 J F Lewis award winning monograph James McClellan investigates the development growth of the Comité du Librairie in the late 18th century its influence in establishing international norms for processing modifying authorizing books papers for publication Pointing out that historians of the Académie Royale des Sciences have known about the Comité de Librairie had logged the existence of its registers but no one had studied them in detail he

presents a comprehensive authoritative history of the Comité d'histoire et philosophie des sciences. **Science in the Archives** Lorraine Daston, 2022-12-22 Archives bring to mind rooms filled with old papers and dusty artifacts But for scientists the detritus of the past can be a treasure trove of material vital to present and future research fossils collected by geologists data banks assembled by geneticists weather diaries trawled by climate scientists libraries visited by historians These are the vital collections assembled and maintained over decades centuries and even millennia which define the sciences of the archives With *Science in the Archives* Lorraine Daston and her co authors offer the first study of the important role that these archives play in the natural and human sciences Reaching across disciplines and centuries contributors cover episodes in the history of astronomy geology genetics philology climatology medicine and more as well as fundamental practices such as collecting retrieval and data mining Chapters cover topics ranging from doxology in Greco Roman Antiquity to NSA surveillance techniques of the twenty first century Thoroughly exploring the practices politics economics and potential of the sciences of the archives this volume reveals the essential historical dimension of the sciences while also adding a much needed long term perspective to contemporary debates over the uses of Big Data in science

The Foundations of Political Economy and Social Reform Ryuzo Kuroki, Yusuke Ando, 2017-12-22 This book brings together leading contributors to explore the development of political economy in eighteenth century France from an interdisciplinary perspective in particular the ideas for social reform proposed before the Revolution Political economy in the Eighteenth century encompassed not only what we traditionally regard as economics but also moral philosophy natural jurisprudence and political theory This volume explores the different arguments that were made for reforming the economic organisation of the Ancien Régime before the French Revolution In doing so the contributors show that political economy in France laid the foundation for social reform ideas throughout the whole of the eighteenth century

A History of Scientific Journals Aileen Fyfe, Noah Moxham, Julie McDougall-Waters, Camilla Mørk Røstvik, 2022-10-03 Modern scientific research has changed so much since Isaac Newton's day it is more professional collaborative and international with more complicated equipment and a more diverse community of researchers Yet the use of scientific journals to report share and store results is a thread that runs through the history of science from Newton's day to ours Scientific journals are now central to academic research and careers Their editorial and peer review processes act as a check on new claims and findings and researchers build their careers on the list of journal articles they have published The journal that reported Newton's optical experiments still exists First published in 1665 and now fully digital the *Philosophical Transactions* has carried papers by Charles Darwin Dorothy Hodgkin and Stephen Hawking It is now one of eleven journals published by the Royal Society of London Unrivalled insights from the Royal Society's comprehensive archives have enabled the authors to investigate more than 350 years of scientific journal publishing The editorial management business practices and financial difficulties of the *Philosophical Transactions* and its sibling *Proceedings* reveal the meaning and purpose of journals in a changing scientific community At a time when we are

surrounded by calls to reform the academic publishing system it has never been more urgent that we understand its history

Creolised Science Dorit Brixius, 2024-04-04 This rich deeply researched study offers the first comprehensive exploration of cross cultural plant knowledge in eighteenth century Mauritius Using the concept of creolisation the process by which elements of different cultures are brought together to create entangled and evolving new entities Brixius examines the production of knowledge on an island without long established traditions of botany as understood by Europeans Once foreign plants and knowledge arrived in Mauritius they were adapted to new environmental circumstances and a new socio cultural space Brixius explores how French colonists settlers mediators labourers and enslaved people experienced and shaped the island s botanical past centring the contributions of subaltern actors By foregrounding neglected non European actors from both Africa and Asia within a melting pot of cultivation traditions from around the world she presents a truly global history of botanical knowledge

The Institutionalization of Science in Early Modern Europe , 2019-11-26 This volume aims to furnish a broader framework for analyzing the scientific and institutional context that gave rise to scientific academies in Europe including the Accademia del Cimento in Florence the Royal Society in London the Acad mie Royale des Sciences in Paris and the Academia naturae curiosorum in Schweinfurt The essays detail the multiple backgrounds that prompted seventeenth century savants from Italy to England and from Poland to Portugal to establish new forms of scientific organizations in which to institutionalize collaborative research as well as modes of communication with like minded individuals and associations
