Pratt, 1966 **Silent Film Sound** Rick Altman, 2004 Based on extensive original research and filled with gorgeous illustrations Silent Film Sound reconsiders all aspects of sound practices during the silent film period in America Beginning with sound accompaniment and continuing through to the more familiar sound practices of the 1920s renowned film historian Rick Altman discusses the variety of sound strategies cinema exhibitors used to differentiate their products During the nickelodeon period prior to 1910 this variety reached its zenith with carnival like music automatic pianos small orchestras lecturers synchronized sound systems and voices behind the screen In the 1910s musical accompaniment began to support a film s narrative and emotional content with large theaters and blockbuster productions driving the development of new instruments new music publication projects and a new style of film music A monumental achievement Silent Film Sound challenges common assumptions about this period and reveals the complex and swiftly changing nature of silent American cinema The Griffith Project, Volume 9 Paolo Cherchi Usai, 2019-07-25 No other silent film director has been so extensively studied as D W Griffith However only a small group of his more than 500 films has been the subject of a systematic analysis and the vast majority of his other works stills await proper examination For the first time in film studies the complete creative output of Griffith from Professional Jealousy 1907 to The Struggle 1931 will be explored in this multi volume collection of contributions from an international team of leading scholars in the field *Of Gods and Monsters* John T. Soister, 2015-09-18 While Universal s Dracula and Frankenstein both 1931 have received the most coverage of any of the studio s genre releases it is the lesser known films that have long fascinated fans and historians alike Starting with The Last Warning a 1929 movie released as both a silent and a talkie Universal provided a decade of films that entertained audiences and sometimes frustrated critics Each of Universal s horror science fiction and twisted mystery films receives an in depth essay for each film The focus is first on the background to the making of the movie and its place in the Universal catalog A detailed plot synopsis with critical commentary follows Filmographic data for the film conclude the entry Universal s The Shadow short film series is covered in an appendix Many rare illustrations and movie posters are also included *The Griffith Project, Volume 4* Paolo Cherchi Usai, 2019-07-25 The fourth volume of The Griffith Project looks at the films produced by D W Griffith at the Biograph Company in 1910 There were 86 films in all and they represent a period of creativity for the director and they have been systematically analyzed in this volume Color, Hair, and Bone Linden Lewis, Glyne A. Buffalo Bill on the Silver Screen Sandra K. Sagala, 2013-08-13 For more than thirty years William F. Buffalo Bill Cody entertained audiences across the United States and Europe with his Wild West show Scores of books have been written about Cody's fabled career as a showman but his involvement in the film industry following the dissolution of his traveling show is less well known In *Buffalo Bill on the Silver Screen* Sandra K. Sagala chronicles the fascinating story of Cody's venture into filmmaking during the early cinema period In 1894 Thomas Edison invited Cody to bring some of the Wild West performers to the inventor's kinetoscope studio From then on as Sagala reveals Cody was frequently in the camera's eye eager to participate in the newest and most popular phenomenon of the era the motion picture In 1910 promoter Pliny Craft produced *The Life of Buffalo Bill* a film in which Cody played his own persona After his Wild West show disbanded Cody fully embraced the film business seeing the technology as a way to recoup his financial losses and as a new vehicle for preserving America's history and his own legacy for future generations Because he had participated as a scout in some of the battles and skirmishes between the U.S. Army and Plains Indians Cody wanted to make a film that captured these historical events Unfortunately for Cody *The Indian Wars* 1913 was not a financial success and only three minutes of footage have survived Long after his death Cody's legacy lives on through the many movies that have featured his character Sagala provides a useful appendix listing all of these films as well as those for which Cody himself took an active role as director producer or actor Published on the eve of the centennial anniversary of *The Indian Wars* this engaging book offers readers new insights into the legendary figure's life and career and explores his lasting image in film *The Man Who Made Movies* Paul Spehr, 2008-11-17 The story of W. K. L. Dickson assistant to Edison inventor and key figure in early cinematography Valuable and comprehensive Communication Booknotes Quarterly W. K. L. Dickson was Thomas Edison's assistant in charge of the experimentation that led to the Kinetoscope and Kinetograph the first commercially successful moving image machines In 1891-1892 he established what we know today as the 35mm format Dickson also designed the Black Maria film studio and facilities to develop and print film and supervised production of more than one hundred films for Edison After leaving Edison he became a founding member of the American Mutoscope Company which later became the American Mutoscope Biograph

then Biograph In 1897 he went to England to set up the European branch of the company Over the course of his career Dickson made between five hundred and seven hundred films which are studied today by scholars of the early cinema This well illustrated book offers a window onto early film history from the perspective of Dickson s own oeuvre
