The Of Nonsense:

A Theology of Nonsense Josephine Gabelman, 2016-09-08 There is within all theological utterances something of the ridiculous perhaps more so in Christianity given its proclivity for the paradoxical and the childlike Yet few theologians are willing to discuss that consent to the Christian doctrine often requires a faith that goes beyond reason or does not exclusively identify with it There seems to be a fear that the association of theology with the absurd will give fuel to the skeptic s refrain you can t seriously believe in all that nonsense This book considers the legitimacy of the skeptic s objection and rather than trying to explain away points of logical contradiction the author explores the possibility that an idea can be contrary to rationality and also true and meaningful The study involves the systematic analysis of central stylistic features of literary nonsense using Lewis Carroll s famous Alice stories as exemplar The project culminates in the setting up of a nonsense theology by considering the practical and evangelical ramifications of associating Christian faith with nonsense literature and conversely the value of relating theological principles to the study of literary nonsense Ultimately the research suggests that faith is always a risk and that a strictly rational apologetic misrepresents the nature of Christian truth

Explorations in the Field of Nonsense, 2022-07-04

In Praise of Nonsense Winfried Menninghaus, 1999-10-01 Shells leafwork picture frames hummingbirds wallpaper decorations hems of clothing such are the examples Kant's Critique of Judgment offers for a free and purely aesthetic beauty Menninghaus's book demonstrates that all these examples refer to a widely unknown debate on the arabesque and that Kant in displacing it addresses genuinely modern phenomena The early Romantic poetics and literature of the arabesque follow and radicalize Kant's move Menninghaus shows parergonality and nonsense to be two key features in the spread of the arabesque from architecture and the fine arts to philosophy and finally to literature On the one hand comparative readings of the parergon in Enlightenment aesthetics Kant and Schlegel reveal the importance of this term for establishing the very notion of a self reflective work of art On the other hand drawing on Kant's posthumous anthropological notebooks Menninghaus extrapolates an entire Kantian theory of what it means to produce nonsense and why the Critique of Judgment defines genius precisely through the power as well as the dangers of doing so Ludwig Tieck's 1797 rewriting of Charles Perrault's famous Bluebeard tale 1697 explicitly claims to be an arabesque book without any sense and coherence Menninghaus's close reading of this capricious narrative reveals a specifically Romantic as opposed say to a Victorian or dadaistic type of nonsense Benjamin's as well as Propp's Levi Strauss's and Meletinskij's oppositions of myth and fairy tale lend additional credit to a Romantic poetics that inaugurates universal poetry while performing a bizarre trajectory through arabesque ornament nonsense parergonality and the fairy tale
