The Of The Crime

Clemens Wendtner

The Of The Crime:

Participation in Crime Falling within the Subject-Matter Jurisdiction of the International Criminal Court Aleksandra Nieprzecka, 2024-06-18 This book centres on the forms of participation in crime set out in the Rome Statute but it is definitely not a simple repetition or summary of the views expressed in the ICC case law. Instead, the work critically elaborates on the ICC practice and presents a theoretical and dogmatic description of modes of criminal responsibility that might be found in the Statute. The element of novelty is however brought about by the methodology which encompasses a normative analysis based on the distinction between the categories of sanctioned and sanctioning norms initially introduced by K Binding in the German doctrine but for the purposes of this book adjusted to the structure of international core crimes and reconciling them with the grounds for criminal responsibility as such. Moreover, the work does not avoid bold assertions concerning the norms of participation in crime concerning inter alia the concept of spectator or public approval and or direct incitement to genocide. This approach should be of particular interest to those who are under the impression that international criminal law is entangled in a multiplicity of labels and the judicial practice sometimes adopts the same requirements without any further thought or analysis. The book aims to trigger a broader debate on the merits and rationale of participation in crime and encourages readers to rethink some of the concepts developed within judicial practice. The work also takes into consideration the ICC case law in particular some tendencies that might be inferred from the separate and concurring opinions in the Ntaganda case. All in all, it endeavours to reflect on the content of Article 25 3 and 28 of the Rome Statute and provide an answer on how ICC practice might and perhaps should evolve further. Aleksandra Nieprzecka Ph D is a member of the Polish Bar Association in Krak w and worked as a principal researcher in the project concerning the model of participation in crime adopted in the Rome Statute carried out at the Jagiellonian University in Krak w where she finished her doctoral studies according to the co tutelle agreement between the Jagiellonian University in Krak w and the University of Hamburg.

The Crime of Aggression Noah Weisbord, 2019-06-11 A gripping behind the scenes account of the dramatic legal fight to hold leaders personally responsible for aggressive war. On July 17 2018 starting an unjust war became a prosecutable international crime alongside genocide crimes against humanity and war crimes. Instead of collective state responsibility our leaders are now personally subject to indictment for crimes of aggression from invasions and preemptions to drone strikes and cyberattacks. The Crime of Aggression is Noah Weisbord's riveting insider's account of the high stakes legal fight to enact this historic legislation and hold politicians accountable for the wars they start. Weisbord a key drafter of the law for the International Criminal Court takes readers behind the scenes of one of the most consequential legal dramas in modern international diplomacy. Drawing on in depth interviews and his own invaluable insights he sheds critical light on the motivations of the prosecutors diplomats and military strategists who championed the fledgling prohibition on unjust war and those who tried to sink it. He untangles the complex history behind the measure tracing how the crime of aggression was

born at the Nuremberg trials only to fall dormant during the Cold War and he draws lessons from such pivotal events as the collapse of the League of Nations the rise of the United Nations September 11 and the war on terror The power to try leaders for unjust war holds untold promise for the international order but also great risk In this incisive and vitally important book Weisbord explains how judges in such cases can balance the imperatives of justice and peace and how the fair prosecution of aggression can humanize modern statecraft

The Royal Financial Administration and the Prosecution of Crime in France, 1670-1789 Albert N. Hamscher, 2012-07-13 The Royal Financial Administration and the Prosecution of Crime in France 1670 1789 explores the French monarchy's role in financing criminal prosecutions in the royal courts of the realm the payment of criminal *frais de justice* in the vocabulary of the *ancien régime* between 1670 and 1789 that is from the codification of criminal judicial procedure in the early period of Louis XIV's personal rule to the outbreak of the French Revolution The subject brings together three areas of scholarly inquiry criminal justice royal administration and the management of the crown's finances A central goal of the study is to provide factual information and interpretive insights on each of these topics and to explain the relationship of each to the others over a long time period The book contributes to existing scholarship in four ways First although each of the major dimensions of the inquiry the operation of the criminal justice system the conduct of the royal administration and the management of the monarchy's finances has a large and increasingly sophisticated historical literature this is the first study to combine them in a systematic way Second the long time period covered in the book not only enables the historian to distinguish gradual from rapid change but it also allows the reader to view how the system functioned in different historical contexts Third the study is based on archival sources throughout France This comprehensive approach permits the identification of elements of a common experience without sacrificing attention to important aspects of regional diversity Finally with respect to the sources themselves the range is broad encompassing regulatory acts and decisions of the king's councils administrative correspondence at the central regional and in some cases local levels financial accounts and related papers and court records from the major appellate courts and from several lower courts as well An appendix of 33 tables lists figures of annual expenditure and other pertinent financial operations for each of the major financial districts of the kingdom
