Developing the Virtues Julia Annas, Darcia Narváez, Nancy E. Snow, 2016 Ethicists and psychologists have become increasingly interested in the development of virtue in recent years approaching the topic from the perspectives of virtue ethics and developmental psychology respectively Such interest in virtue development has spread beyond academia as teachers and parents have increasingly striven to cultivate virtue as part of education and child rearing Looking at these parallel trends in the study and practice of virtue development the essays in this volume explore such questions as How can philosophical work on virtue development inform psychological work on it and vice versa How should we understand virtue as a dimension of human personality What is the developmental foundation of virtue What are the evolutionary aspects of virtue and its development How is virtue fostered How is virtue exemplified in behavior and action How is our conception of virtue influenced by context and by developmental and social experiences What are the tensions impediments and prospects for an integrative field of virtue study Rather than centering

on each discipline the essays in this volume are organized around themes and engage each other in a broader dialogue The volume begins with an introductory essay from the editors that explains the full range of philosophical and empirical issues that have surrounded the notion of virtue in recent years Journal of Moral Theology, Volume 8, Issue 2 David M. Langston, 2001 Conscience once a core concept for ethics has mostly disappeared from modern moral theory In this book Douglas Langston traces its intellectual history to account for its neglect while arguing for its still vital importance if correctly understood In medieval times Langston shows in Part I the notions of conscientia and synderesis from which our contemporary concept of conscience derives were closely connected to Greek ideas about the virtues and practical reason although in Christianized form As modified by Luther Butler and Kant however conscience later came to be regarded as a faculty like will and intellect and when faculty psychology fell into disrepute so did the role of conscience in moral philosophy A view of mature conscience that sees it as relational with cognitive emotional and conative dimensions can survive the criticisms of conscience as faculty In Part II through discussions of Freud Ryle and other modern thinkers Langston proceeds to reconstruct conscience as a viable philosophical concept Finally in Part III this better grounded concept is connected with the modern revival of virtue ethics and Langston shows how crucial conscience is to a theory of virtue because it is fundamental to the training of any morally good person Works, Containing Sermons on Several Subjects Samuel Clarke, 1738 *Studies in Philosophy and the History of Philosophy Vol. 4* John K. roared his credo before huge audiences on the street corners of Harlem remains an enigma His image as an honest idealist urging blacks to build their own nation has been clouded by accusations that he was a con man who in the name of black pride perpetrated one of history's greatest swindles The Marcus Garvey And Universal Negro Improvement Association Papers clarifies the Garvey phenomenon This is the first volume in a monumental ten volume survey of thirty thousand archival documents and original manuscripts from widely separated sources brought together by editor Robert A Hill to provide a compelling picture of the evolution spread and influence of the UNIA Letters pamphlets vital records intelligence reports newspaper articles speeches legal records and diplomatic dispatches are enhanced by Hill's descriptive source notes explanatory footnotes and comprehensive introduction Of the over three hundred items included in Volume I only very few have ever been published or reprinted before Volume I begins with the earliest mentions in 1826 of the Garvey family in Jamaica's slave records and closes with Garvey's triumphant address at Carnegie Hall on August 25 1919 The information is fascinating and often startling tracing Garvey's early career in Jamaica Central America Europe and the United States and detailing the first stirrings of what was to become an international mass movement Hill presents complete documentation of the first official surveillance of the UNIA which prepared the way for the beginning of the criminal and civil litigation that engulfed Garvey and his movement as American and European governments reacted to the perceived threat with repressive policies The documents also record the internal structure and political splits during the early years of the UNIA and provide the financial history of Garvey's controversial Black Star Line steamship venture one of the schemes that ultimately led to the financial collapse of his movement The first volume and the following five focus on America the seventh and eighth on Africa and the last two on the Caribbean The information Hill has compiled goes far beyond preoccupation with a single intriguing historical figure to document the growth and demise of a mass social phenomenon an Afro American protest movement with strong links to African and Caribbean nationalism in the first decades of the twentieth century Marcus Mosiah Garvey 1887-1940 led an extraordinary mass movement of black social protest His Universal Negro Improvement Association and his back to Africa program of racial nationalism introduced many ideas that emerged again during the Black Power movement
