The Official Point Of View:

The Concept of Law from a Transnational Perspective Detlef von Daniels, 2016-03-23 This book brings together the fruits of different traditions in legal philosophy and draws on them to develop a systematic thesis on the concept of law The work uses a legal model to explore the underlying question of how the current phenomena of transnational law are best understood in combination with an examination of the traditions of Jürgen Habermas's critical theory and H L A Hart's analytic jurisprudence This leads the author to conclude that the key to a fruitful dialogue and comprehensive understanding is to appreciate that the concept of law is not state centered and must reflect relationships to other legal systems

The Invisible Origins of Legal Positivism W.E. Conklin, 2001-11-30 Conklin's thesis is that the tradition of modern legal positivism beginning with Thomas Hobbes postulated different senses of the invisible as the authorising origin of humanly posited laws Conklin re-reads the tradition by privileging how the canons share a particular understanding of legal language as written Leading philosophers who have espoused the tenets of the tradition have assumed that legal language is written and that the authorising origin of humanly posited rules norms is inaccessible to the written legal language Conklin's re-reading of the tradition teases out how each of these leading philosophers has postulated that the authorising origin of humanly posited laws is an unanalysable externality to the written language of the legal structure As such the authorising origin of posited rules norms is inaccessible or invisible to their written language What is this authorising origin Different forms include an originary author an a priori concept and an immediacy of bonding between person and laws In each case the origin is unwritten in the sense of being inaccessible to the authoritative texts written by the officials of civil institutions of the sovereign state Conklin sets his thesis in the context of the legal theory of the polis and the pre polis of Greek tribes The author claims that the problem is that the tradition of legal positivism of a modern sovereign state excises the experiential or bodily meanings from the written language of the posited rules norms thereby forgetting the very pre legal authorising origin of the posited norms that each philosopher admits as offering the finality that legal reasoning demands if it is to be authoritative

Poor People's Politics Javier Auyero, 2001 Examines how Argentina's urban poor use political networks and informal webs of reciprocal help to solve their everyday survival needs

Bulgakov: The Novelist-Playwright Lesley Milne, 2005-07-20 First published in 1996 Routledge is an imprint of Taylor Francis an informal company

Parliamentary Debates New Zealand. Parliament, 1918 European Vision and the South Pacific Third Edition Bernard Smith, 2022-10-05 Bernard Smith 1916-2011 was arguably Australia's greatest art historian and one of the most important humanist thinkers internationally on ideas concerning cultural contact His *European Vision and the South Pacific* first published in 1960 showed how the ideas of the Enlightenment and the empirical structuring of scientific and geographical knowledge during the great eighteenth century voyages of discovery affected notions of identity both for Europeans and the Indigenous peoples with whom they came in contact Not only did Smith's investigation of art science and

imperialism of this period explore the conditions of frontier contact it opened up the dialogue on de colonisation and allowed us to think beyond or after it He was undoubtedly a pioneer of post colonialism and the book remains a lighthouse in pacific studies The republication of *European Vision and the South Pacific* is an essential part of the discourse reframing the interconnections and crossing of cultural boundaries between Europe and antipodean societies This new edition of a significant Australian classic also coincides with the 250th anniversary of Cook s landing on the east coast of Australia and complements new scholarship on territorialisation colonialism and the politics of exchange between metropolitan centres and peripheries A new introduction by Sheridan Palmer situates the book in a contemporary context National Labor Relations Act and Proposed Amendments United States. Congress. Senate. Committee on Education and Labor,1939 The Parliamentary Debates (official Report). Great Britain. Parliament. House of Lords,1926 Contains the 4th session of the 28th Parliament through the session of the Parliament **National Defense Establishment (unification of the Armed Services)** United States. Congress. Senate. Committee on Armed Services,1947 The French-Canadian Idea of Confederation, 1864-1900 A. I. Silver,1997-01-01 This new edition of *The French Canadian Idea of Confederation* originally published in 1982 includes a new preface and conclusion that reflect upon the failure of biculturalism and Quebec s continuing struggle to define its place within Canada and the world
