The *Necronomicon Shocking Cinema of the Seventies* continues the acclaimed journal's exploration of film culture with a special edition devoted to film from this special era. In a series of innovative articles, leading critics and scholars consider the social and cinematic issues which shaped the films of the decade. Covering genres such as horror, the disaster movie, blaxploitation, and kung fu, the authors discover the truth behind one of the most prolific, turbulent, and challenging periods of cinema history.

Science fiction film offers its viewers many pleasures, not least of which is the possibility of imagining other worlds in which very different forms of society exist. Not surprisingly, however, these alternative worlds often become spaces in which filmmakers and film audiences can explore issues of concern in our own society. Through an analysis of over thirty canonic science fiction (SF) films including *Logan's Run*, *Star Wars*, *Blade Runner*, *Back to the Future*, *Gattaca*, and *Minority Report*, *Black Space* offers a thoroughgoing investigation of how SF film since the 1950s has dealt with the issue of race and specifically with the representation of blackness. Setting his study against the backdrop of America's ongoing racial struggles and complex socioeconomic histories, Adilifu Nama pursues a number of themes in *Black Space*. They include the structured absence, token presence of blacks in SF film; racial contamination and racial paranoia; the traumatized black body as the ultimate signifier of difference, alienness, and otherness; the use of class and economic issues to subsume race as an issue; the racially subversive pleasures and allegories encoded in some mainstream SF films; and the ways in which independent and extra-filmic productions are subverting the SF genre of Hollywood filmmaking. The first book-length study of African American representation in science fiction film, *Black Space* demonstrates that SF cinema has become an important field of racial analysis, a site where definitions of race can be contested and post-civil rights race relations reimagined.

The Golden Age Kaleb Quist, 2021-10-23

Once a generation there comes a novel bursting with spectacle and drama, inspiring the hearts and minds of readers all over the globe. This is NOT one of those novels. *THE GOLDEN AGE* is a slice of life comedy drama which follows a group of elderly superheroes stuck living together in a nursing home. Stripped of their pride and superpowers, they must face their greatest adversary of all: RETIREMENT. In a last-ditch attempt to stay relevant, our heroes stage a mutiny against the nursing home, vowing to take the power back. Even if it kills them in the process, *THE GOLDEN AGE* reflects the inherent fear of growing old in a world that treats its senior citizens like second-rate citizens. In the end, what becomes of our heroes when we have no more use for them? Read what TOP CRITICS are saying about the latest violation of the Geneva Conventions: *THE GOLDEN AGE*. At least you tried, my mom. If I could, I would pay to have this removed from the internet. An actual Facebook review: I can't read any of this.
