

5 Reasons to Use Discussion Strategies in the Classroom

01 ENHANCED COMPREHENSION.

Active discussions help students process and understand complex concepts by breaking them down into digestible components.

02 CRITICAL THINKING.

Engaging in discussions challenges students to analyze, synthesize, and evaluate information from various sources and perspectives.

03 ACTIVE LEARNING.

Engaging in discussions requires students to participate in the process through listening, even if they are not talking at the moment.

04 CONFIDENCE BUILDING.

As students learn to express their thoughts, they gain more confidence and ownership of their own thinking and participation in academic discussions.

05 CONTINUOUS FEEDBACK.

Discussions provide opportunities for immediate feedback from peers and teachers, which helps students self-identify gaps in their understanding.

The Open Classroom A Practical Guide To A New Way Of Teaching:

The Open Classroom Herbert R. Kohl, 1971 The Open Classroom Herbert Kohl, 1970 Beyond the Happening Catherine Spencer, 2020-06-01 Beyond the Happening uncovers the heterogeneous uniquely interdisciplinary performance based works that emerged in the aftermath of the early Happenings By the mid 1960s Happenings were widely declared outmoded or even dead but this book reveals how many practitioners continued to work with the form during the late 1960s and 1970s developing it into a vehicle for studying interpersonal communication that simultaneously deployed and questioned contemporary sociology and psychology Focussing on the artists Allan Kaprow Marta Minuj n Carolee Schneemann and Lea Lublin it charts how they revised and retooled the premises of the Happening within a wider network of dynamic international activity The resulting performances directly intervened in the wider discourse of communication studies as it manifested in the politics of countercultural dropout soft power and cultural diplomacy alternative pedagogies sociological art and feminist consciousness raising *Pursuing Excellence for the Glory of God* Keith A. Currivean, 2022-01-13 What is education How and why do educators do what we do And in what way can and ought education be distinctively Christian These are a few of the probing questions for which this book seeks answers Among other contributions Currivean s book explores a biblical philosophy of Christian education with unprecedented breadth and depth To accomplish this objective it considers what education is chapter 1 what philosophy of education is chapter 2 and what the ultimate goal of education is chapter 3 Additionally this book provides a never before Christian overview of twelve philosophies of education chapters 4 15 Each of those chapters provides an introduction of a particular philosophy of education and some of that philosophy s exemplars Each of those chapters also contributes a constructive Christian critique Chapter 16 highlights a biblical philosophy of Christian education featuring some people some principles and some priorities for a biblical philosophy of Christian education viz pursuing excellence for the glory of God **Closing Chapters** Thomas G. Welsh, 2011-01-01 Closing Chapters attempts to explain the disintegration of urban parochial schools in Youngstown Ohio a onetime industrial center that lost all but one of its eighteen Catholic parochial elementary schools between 1960 and 2006 Through this examination of Youngstown Welsh sheds light on a significant national phenomenon the fragmentation of American Catholic identity Co-operative Internet Learning William Coughlan, Jr., 2006 This book combines together historical feminist and psychoanalytic theory as well as some minimal Buddhist logic into a co operative process to enable the reader to develop an Internet co op school *Designing the Creative Child* Amy F. Ogata, 2013-04-21 The postwar American stereotypes of suburban sameness traditional gender roles and educational conservatism have masked an alternate self image tailor made for the Cold War The creative child an idealized future citizen was the darling of baby boom parents psychologists marketers and designers who saw in the next generation promise that appeared to answer the most pressing worries of the age Designing the Creative Child reveals how a postwar cult of childhood creativity developed and continues

to this day Exploring how the idea of children as imaginative and naturally creative was constructed disseminated and consumed in the United States after World War II Amy F Ogata argues that educational toys playgrounds small middle class houses new schools and children s museums were designed to cultivate imagination in a growing cohort of baby boom children Enthusiasm for encouraging creativity in children countered Cold War fears of failing competitiveness and the postwar critique of social conformity making creativity an emblem of national revitalization Ogata describes how a historically rooted belief in children s capacity for independent thinking was transformed from an elite concern of the interwar years to a fully consumable and aspirational ideal that persists today From building blocks to Gumby playhouses to Playskool trains Creative Playthings to the Eames House of Cards Crayola fingerpaint to children s museums material goods and spaces shaped a popular understanding of creativity and Designing the Creative Child demonstrates how this notion has been woven into the fabric of American culture

The Language of Houses Alison Lurie,2014-08-19 In 1981 Pulitzer Prize winning novelist Alison Lurie published *The Language of Clothes* a meditation on costume and fashion as an expression of history social status and individual psychology Amusing enlightening and full of literary allusion the book was highly praised and widely anthologized Now Lurie has returned with a companion book *The Language of Houses* a lucid provocative and entertaining look at how the architecture of buildings and the spaces within them both reflect and affect the people who inhabit them Schools churches government buildings museums prisons hospitals restaurants and of course houses and apartments all of them speak to human experience in vital and varied ways *The Language of Houses* discusses historical and regional styles and the use of materials such as stone and wood and concrete as well as contemplating the roles of stairs and mirrors windows and doors tiny rooms and cathedral like expanses illustrating its conclusions with illuminating literary references as well as the comments of experts in the field This book which is accompanied by light hearted original drawings by Karen Sung is an essential and highly entertaining new contribution to the literature of modern architecture

The Justice Motive in Social Behavior Melvin J. Lerner,Sally C. Lerner,2013-11-11 This volume was conceived out of the concern with what the imminent future holds for the have countries those societies such as the United States which are based on complex technology and a high level of energy consumption Even the most sanguine projection includes as base minimum relatively rapid and radical change in all aspects of the society reflecting adaptation or reactions to demands created by poten tial threat to the technological base sources of energy to the life support system itself Whatever the source of these threats whether they are the result of politically endogeneous or exogeneous forces they will elicit changes in our social institutions changes resulting not only from attempts to adapt but also from unintended consequences of failures to adapt One reasonable assumption is that whatever the future holds for us we would prefer to live in a world of minimal suffering with the greatest opportunity for fulfilling the human potential The question then becomes one of how we can provide for these goals in that scenario for the imminent future a world of threat change need to adapt diminishing access to
