The Origins Of Middle Class Culture Halifax Yorkshire 1660 178:

The Origins of Middle-class Culture John Smail, 1994 Smail argues that a group's class identity depends on a culture that its members share one that encompasses economic social and political factors in a common worldview He traces the emergence of an increasingly prosperous manufacturing and middle class elite in Halifax when large scale and capitalistic textile operations began to undercut the small scale independent clothiers and yeomen The new manufacturers and the elite professionals associated with them he shows became involved in distinctive economic forms and relationships of capitalistic production They developed their own attitudes toward credit investment and money with a distinctive consumer orientation toward a whole range of luxury items and fashionable goods **Culture in Eighteenth-Century England** Jeremy

Black, 2007-02-01 He also shows the different currents at work belying any simple picture of England and the English as confident and self assured **BOOK JACKET** **The Middling Sorts** Burton J. Bledstein, Robert D. Johnston, 2013-10-31

According to their national myth all Americans are middle class but rarely has such a widely used term been so poorly defined These fascinating essays provide much needed context to the subject of class in America Faith in the Town Hannah Barker, Carys Brown, Kate Gibson, Jeremy Gregory, 2025-02-28 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations Across eighteenth and early nineteenth century northern England religious faith continued to affect the lives of men women and children in profound ways Rather than abandoning their faith in the face of increasing urbanisation and industrialisation as is often assumed was the case town dwellers across the social and denominational spectrum commonly understood their relationships with their families households and the world within a framework of religious duty and virtue For urban middling and labouring individuals religious practice and the influence of faith was not limited to time spent in church or chapel but extended into all areas of activity and experience the workplace the streets and other public spaces and the home The importance of faith in the lived experience of town dwellers was not something that existed in spite of change faith was promoted by the new conditions of urban life Faith in the Town explores key decades of this transformational period encompassing almost a century of urban development between 1740 and 1830 By placing lay religious belief centre stage this book demonstrates that many of the developments associated with modernity specifically industrialisation urbanisation population growth and Enlightenment thinking were not inimical to faith Instead religious belief and lay piety was a crucial element in the formation of urban economy society and culture during the long eighteenth century meaning that northern towns were not only places where faith could both be nourished and flourish but that these urban centres were themselves shaped by faith *George III* G. Ditchfield, 2002-10-31 This book is a political study of the reign of George III which draws upon unpublished sources and takes account of recent research to present a rounded appreciation of one of the most important and controversial themes in British history It examines the historical

reputation of George III his role as a European figure and his religious convictions and offers a discussion of the domestic and imperial policies with which he was associated **The Emergence of Stability in the Industrial City** Martin Hewitt, 1996 35 years of political tranquility followed the failure of Chartism This book asks why there was no significant political or social unrest in Britain in this period when social upheaval occurred in many continental European countries in 1848 **Royal Historical Society Annual Bibliography of British and Irish History** Austin Gee, 1996 The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year The volume covers all periods of British and Irish history from Roman Britain to the late twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians Sociological Abstracts Leo P. Chall, 1997 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers Arts & Humanities Citation Index , 1997 **From the Middling to the Middle** John Smail, 1988
