The Other Enlightenment How French Women Became Modern:

The Other Enlightenment Carla Hesse, 2003-03-30 This historical study examines the way women used writing to create themselves as modern individuals in post Revolutionary France From publisher description **The Great Nation in**

Decline Professor Sean M Quinlan, 2013-06-28 This book studies how doctors responded to and helped shape deep seated fears about nervous degeneracy and population decline in France between 1750 and 1850 It uncovers a rich and far ranging medical debate in which four generations of hygiene activists used biomedical science to transform the self sexuality and community in order to regenerate a sick and decaying nation a programme doctors labelled physical and moral hygiene Moreover it is shown how doctors imparted biomedical ideas and language that allowed lay people to make sense of often bewildering socio political changes thereby giving them a sense of agency and control over these events Combining a chronological and thematic approach the six chapters in this book trace how doctors began their medical crusade during the middle of the Enlightenment how this activism flowered during the French Revolution and how they then revised their views during the period of post revolutionary reaction The study concludes by arguing that medicine acquired an unprecedented political social and cultural position in French society with doctors becoming the primary spokesmen for bourgeois values and thus helped to define the new world that emerged from the post revolutionary period **The Family and the Nation**

Jennifer Ngaire Heuer, 2018-09-05 The French Revolution transformed the nation s and eventually the world s thinking about citizenship nationality and gender roles At the same time it created fundamental contradictions between citizenship and family as women acquired new rights and duties but remained dependents within the household In *The Family and the Nation* Jennifer Ngaire Heuer examines the meaning of citizenship during and after the revolution and the relationship between citizenship and gender as these ideas and practices were reworked in the late 1790s and early nineteenth century Heuer argues that tensions between family and nation shaped men s and women s legal and social identities from the Revolution and Terror through the Restoration She shows the critical importance of relating nationality to political citizenship and of examining the application not just the creation of new categories of membership in the nation Heuer draws on diverse historical sources from political treatises to police records immigration reports to court cases to demonstrate the extent of revolutionary concern over national citizenship This book casts into relief France s evolving attitudes toward patriotism immigration and emigration and the frequently opposing demands of family ties and citizenship **A Companion**

to Eighteenth-Century Europe Peter H. Wilson, 2014-01-28 *A COMPANION TO EIGHTEENTH CENTURY EUROPE* This is an impressive volume with leading experts providing a wide ranging coverage that should satisfy most requirements for effective and thoughtful introductory surveys All specialists on this period will find much of value in this excellent volume History The Journal of the Historical Association This Companion contains 31 essays by leading international scholars to provide an overview of the key debates on eighteenth century Europe It considers not just major western European states but

also the often neglected countries of eastern and northern Europe Placing Europe within an international context contributors investigate key areas of society economics culture and political development The book concludes with the French and other European revolutions that brought the century to a close both chronologically and as regards the Ancien R gime A Companion to Eighteenth Century Europe examines both established and emerging areas of interest in the field making it an essential guide for students and scholars **The Facts on File Companion to the French Novel** Karen L. Taylor,2006 French novels such as Madame Bovary and The Stranger are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization

Enlightening enthusiasm Lionel Laborie,2015-10-01 In the early modern period the term enthusiasm was a smear word used to discredit the dissenters of the radical Reformation as dangerous religious fanatics In England the term gained prominence from the Civil War period and throughout the eighteenth century Anglican ministers and the proponents of the Enlightenment used it more widely against Paracelsian chemists experimental philosophers religious dissenters and divines astrologers or anyone claiming superior knowledge But who exactly were these enthusiasts What did they believe in and what impact did they have on their contemporaries This book concentrates on the notorious case of the French Prophets as the epitome of religious enthusiasm in early Enlightenment England Based on new archival research it retraces the formation development and evolution of their movement and sheds new light on key contemporary issues such as millenarianism censorship and the press blasphemy dissent and toleration and madness *The World of the Salons* Antoine Lilti,2015 The World of the Salons is a revisionist study of the French salon of the eighteenth century arguing that it was a place governed by social hierarchy not equality connected to the world of the Court and not the fount of the Enlightenment as has traditionally been believed *From Wives to Widows in Early Modern Paris* Janine M. Lanza,2016-04-22 Looking especially at widows of master craftsmen in early modern Paris this study provides analysis of the social and cultural structures that shaped widows lives as well as their day to day experiences Janine Lanza examines widows in early modern Paris at every social and economic level beginning with the late sixteenth century when changes in royal law curtailed the movement of property within families up to the time of the French Revolution The glimpses she gives us of widows running businesses debating remarriage and negotiating marriage contracts offer precious insights into the daily lives of women in this period Lanza shows that understanding widows dramatically alters our understanding of gender not only in terms of how it was lived in this period but also how historians can use this idea as a category of analysis Her study also engages the historiographical issue of business and entrepreneurship particularly women s participation in the world of work and explicitly examines the place of the law in the lived experience of the early modern period How did widowed women use their newly acquired legal emancipation How did they handle their emotional loss How did their roles in their families and their

communities change How did they remain financially solvent without a man in the house How did they make decisions that had always been made by the men around them These questions all touch upon the experience of widows and on the ways women related to prevalent structures and ideologies in this society Lanza s study of these women the ways they were represented and how they experienced their widowhood challenges many historical assumptions about women and their roles with respect to the law the family and economic activity *Gender and Voice in the French Novel, 1730-1782* Aurora Wolfgang, 2017-03-02 Analyzing four best selling novels by both women and men written in the feminine voice this book traces how the creation of women centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth century France The author argues that writing in a female voice allowed writers of both sexes to break with classical notions of literature and style so that they could create a modern sensibility that appealed to a larger reading public and gave them scope to innovate with style and form Wolfgang brings to light how the female voice in literature came to embody the language of sociability but also allowed writers to explore the domain of inter subjectivity while creating new bonds between writers and the reading public Through examination of Marivaux s *La Vie de Marianne* Graffigny s *Lettres d une P ruviennne* Riccoboni s *Lettres de Mistriss Fanni Butlerd* and Laclos s *Les Liaisons dangereuses* she shows that in France this modern feminine sensibility turned the least prestigious of literary genres the novel into the most compelling and innovative literary form of the eighteenth century Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity this study claims an important role for feminine voice narratives in shaping the field of eighteenth century literature **A Companion to the French Revolution** Peter McPhee, 2014-12-15 A Companion to the French Revolution comprises twenty nine newly written essays reassessing the origins development and impact of this great turning point in modern history Examines the origins development and impact of the French Revolution Features original contributions from leading historians including six essays translated from French Presents a wide ranging overview of current historical debates on the revolution and future directions in scholarship Gives equally thorough treatment to both causes and outcomes of the French Revolution
