## The Other Side Of Da Court:

The Practice of International and National Courts and the (De-)Fragmentation of International Law Ole Kristian Fauchald, André Nollkaemper, 2014-10-01 In recent decades there has been a considerable growth in the activities of international tribunals and the establishment of new tribunals Furthermore supervisory bodies established to control compliance with treaty obligations have adopted decisions in an increasing number of cases National courts further add to the practice of adjudication of claims based on international law While this increasing practice of courts and supervisory bodies strengthens the adjudicatory process in international law it also poses challenges to the unity of international law Most of these courts operate within their own special regime functional regional or national and will primarily interpret and apply international law within the framework of that particular regime The role of domestic courts poses special challenges as the powers of such courts to give effect to international law as well as their actual practice in applying such law largely will be determined by national law At the same time both international and national courts have recognised that they do not operate in isolation from the larger international legal system and have found various ways to counteract the process of fragmentation that may result from their jurisdictional limitations This book explores how international and national courts can and do mitigate fragmentation of international law It contains case studies from international regimes including the WTO the IMF investment arbitration and the ECtHR and from various national jurisdictions including Japan Norway Switzerland and the UK providing a basis for conclusions to be drawn in the final chapter *A structural stylistic analysis of La princesse de Cleves* Susan W. Tiefenbrun, 2019-10-21 No detailed description available for *A structural stylistic analysis of La princesse de Cleves* A Digested Index to the Modern Reports, of the Courts of Common Law, in England [1689-1809] and the United States [1799-1812] Nicholas Baylies, 1814 **Reports of Cases Argued and Adjudged in the Supreme Court of the United States** United States. Supreme Court, 1887 **Racial Justice, Policies and Courts' Legal Reasoning in Europe** María Elósegui, Cristina Hermida, 2017-04-08 This volume looks at how courts and the police handle racial discrimination in Europe The chapters show that beyond legal technique neither the legislators nor the judges escape from their own emotions when responding to racial discrimination But as the authors point out emotions are not always negative They can also help in a positive way in judicial interpretation The study profiles five countries Germany UK Estonia Portugal and Spain Each of these belong both to the European Union and to the Council of Europe Coverage examines the responsibility of the public powers more specifically of the legislative and judicial power both of the police and of the judiciary in persecuting racist behavior In addition the authors also consider the increase in racism in groups of citizens The authors argue that racial justice is a proactive reinforcement of policies practices attitudes and actions that lead to equal access to opportunities for all After reading this book readers will gain a better understanding of the reasoning of legislators police and judges when dealing with racial discrimination in Europe today **The Power and Patronage of Marguerite**

War Department,1903 Digital Work Platforms at the Interface of Labour Law Eva Kocher,2022-03-10 This open access book shows how to design labour rights to effectively protect digital platform workers organise accountability on digital work platforms and guarantee workers collective

representation and action It acknowledges that digital work platforms entail enormous risks for workers and at the same time it reveals the extent to which labour law is in need of reconstruction The book focusses on the conceptual links often overlooked in the past between labour law s categories and its regulatory approaches By explaining and analysing the wealth of approaches that deconstruct and reconceptualise labour law the book uncovers the organisational ideas that permeate labour law s categories as well as its policy approaches in a variety of jurisdictions These ideas reveal a lack of fit between labour law s traditional concepts and digital platform work digital work platforms rarely behave like hierarchical organisations instead they more often function as market organisers The book provides a fresh perspective for international academic and policy debates on the regulation of digital work platforms as well as on the purposes and foundations of labour law It offers a way out of the impasse the debate around labour law classification has reached by showing what labour law could learn from digital law approaches to platforms and vice versa The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on [bloomsburycollections.com](https://bloomsburycollections.com)
