Information Program United States. Office of Price Stabilization, 1953 **The Story of Manned Space Stations** Philip Baker, 2007-08-20 Philip Baker charts the history of manned space stations from the very beginning in a logical chronological order. He tells the story of the two major space powers starting out on their very separate programs but slowly coming together through ASTP, Shuttle, Mir, and the ISS, and includes programs that rarely get mentioned: the US Manned Orbiting Laboratory and the Soviet Almaz station, both military-backed projects. The Mir space station was one of the greatest human achievements in modern history, and a thorough telling of its story is essential to this book. During its life, it grew and evolved into a truly international outpost with visitors from all over the world taking advantage of the only permanent space station in orbit at that time. This book will be the only one of its kind to tell the whole story of the manned space stations from both nations from the very beginning to the current ISS story and to the possibilities beyond. Each chapter of this book will contain interviews with many of the primary participants, including the astronauts, cosmonauts, designers, mission controllers, doctors, and managers most directly involved in the flights. The author paints a vivid picture of two competing nations slowly coming together to form an alliance that is shaky and uncertain to begin with but grows from fierce competition into solid collaboration. **A History of Modern American Criminal Justice** Joseph F. Violence Work Micol Seigel,2018-08-02 In *Violence Work* Micol Seigel offers a new theorization of the quintessential incarnation of state power the police Foregrounding the interdependence of policing the state and global capital Seigel redefines policing as violence work showing how it is shaped by its role of channeling state violence She traces this dynamic by examining the formation demise and aftermath of the U S State Department s Office of Public Safety OPS which between 1962 and 1974 specialized in training police forces internationally Officially a civilian agency the OPS grew and operated in military and counterinsurgency realms in ways that transgressed the borders that are meant to contain the police within civilian public and local spheres Tracing the career paths of OPS agents after their agency closed Seigel shows how police practices writ large are rooted in violence especially against people of color the poor and working people and how understanding police as a civilian public and local institution legitimizes state violence while preserving the myth of state benevolence
