which featured some of the most colorful aircraft markings ever displayed on U S Navy aircraft to the lower visibility schemes led to a much more drab and understated look for the F 14 Yet even through the latter stages of its career special aircraft in each unit including the X00 modex Tomcat assigned to the Carrier Air Wing Commander CAG and the X01 modex aircraft assigned to the squadron commander CO allowed a limited number of colorful squadron markings to continue Additionally anniversary markings holiday markings and retro markings also added color to a few aircraft Each unit section has a selection of photographs that chronicles the evolution of markings throughout the years the squadron flew the F 14 Part 1 will be followed by two additional volumes Part 2 will cover the Pacific Fleet and Reserve Squadrons Finally the third book in the trilogy will take a look at the prototypes early developmental Tomcats those assigned to test and evaluation squadrons and facilities TOPGUN adversary Tomcats miscellaneous and utility units and NASA Additionally the official paint schemes used by the U S Navy will be covered as will a detailed look at the standard markings and stenciling used on Tomcats The digital edition of Colors Markings of the F 14 Tomcat Part 1 Atlantic Fleet and Reserve Squadrons has 216 pages 317 full color high resolution photographs and 25 color profiles
