presented in Proportion Harmonies and Identities PHI Time and Space were compiled to establish a multidisciplinary platform for presenting interacting and disseminating research It also aims to foster awareness and discussion on Time and Space focusing on different visions relevant to Architecture Arts and Humanities Design and Social Sciences and its importance and benefits for the sense of identity both individual and communal The idea of Time and Space has been a powerful motor for development since the Western Early Modern Age Its theoretical and practical foundations have become the working tools of scientists philosophers and artists who seek strategies and policies to accelerate the development process in different contexts

The Miracle of Me and My Life of Miracles Curtis W. McCalister, 2022-06-10 This book is a culmination of many people's suggestions that I actually write a book about all of the miracles that I've seen during my life Beginning with my own life and including what it was like growing up in the 1960s the majestic temple I saw floating in the sky the power and the glory I beheld while looking at the vision I saw while working for W W Grainger and especially the two people I saw whom I knew had already passed away Because of the things I've seen I felt compelled by God to let people know that death is not the end but a doorway to the next level of human existence He wants me to reassure and counsel everyone who has had a loved one taken from them and to let them know that they are young again and very much alive on the other side
