Sky Blue Frame:

The Valley's Edge Daniel R. Green, 2012 In this gripping firsthand account Daniel Green tells the story of U S efforts to oust the Taliban insurgency from the desolate southern Afghan province of Uruzgan Nestled between the Hindu Kush mountains and the sprawling wasteland of the Margow and Khash Deserts Uruzgan is a microcosm of U S efforts to prevent Afghanistan from falling to the Taliban insurgency and Islamic radicalism Green who served in Uruzgan from 2005 to 2006 as a U S Department of State political adviser to a Provincial Reconstruction Team PRT reveals how unrealistic expectations a superficial understanding of the Afghans and a lack of resources contributed to the Taliban s resurgence in the area He discusses the PRT s good governance efforts its reconstruction and development projects the violence of the insurgency and the PRT s attempts to manage its complex relationship with the local warlord cum governor of the province Upon returning to Afghanistan in 2009 with the U S military and while working at the U S Embassy in Kabul until 2010 Green discovered that although many improvements had been made since he had last served in the country the problems he had experienced in Uruzgan continued despite the transition from the Bush administration to the Obama administration An Unformed Map Philip Janzen, 2025-05-02 In An Unformed Map Philip Janzen traces the intellectual trajectories of Caribbean people who joined the British and French colonial administrations in Africa between 1890 and 1930 Caribbean administrators grew up in colonial societies saw themselves as British and French and tended to look down on Africans Once in Africa however they were doubly marginalized excluded by Europeans and unwelcome among Africans This marginalization was then reproduced in colonial archives where their lives appear only in fragments Drawing on sources beyond the archives of empire from dictionaries and language exams to a suitcase full of poems Janzen considers how Caribbean administrators reckoned with the profound effects of assimilation racism and dislocation As they learned African languages formed relationships with African intellectuals and engaged with African cultures and histories they began to rethink their positions in the British and French empires They also created new geographies of belonging across the Atlantic foundations from which others imagined new political horizons Ultimately Janzen offers a model for reading across sources and writing history in the face of archival fragmentation Verbal-Visual Configurations in Postcolonial Literature Birgit Neumann, Gabriele Rippl, 2020-04-23 Examining a range of contemporary Anglophone texts this book opens up postcolonial and transcultural studies for discussions of visibility and vision It argues that the preoccupation with visual practices in Anglophone literatures addresses the power of images vision and visual aesthetics to regulate cultural visibility and modes of identification in an unevenly structured world The representation of visual practices in the imaginative realm of fiction opens up a zone in which established orders of the sayable and visible may be revised and transformed In 12 chapters the book examines narrative fiction by writers such as Michael Ondaatje Derek Walcott Salman Rushdie David Dabydeen and NoViolet Bulawayo who employ word image relations to explore the historically fraught links between visual practices and the experience of

modernity in a transcultural context Against this conceptual background the examination of verbal visual relations will illustrate how Anglophone fiction models alternative modes of representation that reflect critically on hegemonic visual regimes and reach out for new more pluralized forms of exchange

Parametric and Feature-Based CAD/CAM Jami J. Shah, Martti Mäntylä, 1995-11-03 The book is the complete introduction and applications guide to this new technology This book introduces the reader to features and gives an overview of geometric modeling techniques discusses the conceptual development of features as modeling entities illustrates the use of features for a variety of engineering design applications and develops a set of broad functional requirements and addresses high level design issues

The Modern Landscapes of Ted Smyth Rod Barnett, Jacqueline Margetts, 2017-01-06 The modern period in landscape architecture is enjoying the fascinated appreciation of scholars and historians in Europe and the Americas and new themes new subjects and new appraisals are appearing This book contributes to the conversation by focusing on the work of a singular designer who spent his entire career in a province of the North Island of New Zealand Ted Smyth practiced an assured landscape modernism without ever seeing the designs of his forebears or his contemporaries working in the UK Europe and the United States Designing in isolation from the mainstream of modernism and a little after its high tide Smyth produced a series of gardens that provoke a revaluation of the diffusionist model of influence The book explains and describes the evolution of Smyth's design vocabulary and relates it to the development of tropical landscape modernism in other Asia Pacific sites It shows how a culture of garden modernism can be generated from within a particular locale and highlights Smyth's engagement with Māori design traditions in search of a specific expression of the high modern essentialism of place

Anti-Imperial Choice Yohanan Petrovsky-Shtern, 2009-04-28 Providing extensive historical background biographical detail and analysis of each writer's poetry and prose Petrovsky-Shtern shows how a Ukrainian Jewish literary tradition emerged Along the way he challenges assumptions about modern Jewish acculturation and Ukrainian Jewish relations
