

SEEING SCIENCE THROUGH ART™

The background of the cover is a painting. It depicts a tree with a slender, human-like trunk standing on a small, rounded mound of reddish-brown earth. The tree's branches are thin and leafless, spreading out against a sky filled with soft, white and grey clouds. In the distance, a range of blue mountains is visible under the sky. The foreground shows some sparse, dry vegetation and a hint of a body of water or a path to the left.

Sky Tree Seeing Science Through Art:

Sky Tree Thomas Locker, Candace Christiansen, 2001-08-07 A tree stands on a hill by a river As the sky changes so does the tree its branches filling with clouds stars snow birds mists and the golden spring sun One tree can mean many things Thomas Locker's lyrical text records the changes in the tree's world just as simply as a child might observe them and his magnificent paintings crystallize the natural phenomena that embellish the tree on each page Questions at the bottom of each page lead to a unique discussion in the back of the book where art and science are intertwined and further depth is added to the wonder of Sky Tree
