Sky High Catherine Lievens, Ansley has been looking for his dragon since Byron was taken from him a hundred years ago. The sacrifice of his shield and the man he was in love with was necessary, but Ansley can't find peace, and neither can the other five mages he considers his brothers, who also shared that sacrifice. They've been without their other half for so long that some of them have lost hope. But not Ansley Parker; he has no memory beyond the past hundred years. He's been moving every ten years or so because he's not aging, which probably has to do with his ability to shift into a dragon, but this time around it's harder to leave everything behind. He doesn't have a choice, though. When Ansley finally finds the right spell, it leads him straight to Byron. But Byron isn't Byron anymore. A hundred years and no memories turned him into a new man. A man Ansley likes even more than he did Byron. Ansley's job is to find the other five dragons, but with the threat that caused the mages to lose the dragons rising again, he might not be able to do it in time. And if he can't, it could mean death for all of them. Copyrighted advance sheets of works of fiction Copyrighted advance sheets, 1892

Sky-High Eric P. Nash, 2023-06-27 Part architectural guidebook and part critique, *Sky High* documents the pencil-thin supertall towers that are transforming New York City's skyline, as well as its streets. New York City's penchant for building skyward has reached new heights with its crop of supertall towers, those that rise at least 984 feet above the sidewalk. The city that never sleeps is also the city that never stops building ever higher, from the Woolworth and Chrysler buildings of an earlier race to the top to today's super-luxury aeries of 57th Street's Billionaires Row and the towers of the World Trade complex in Lower Manhattan. Bruce Katz's extraordinary photographs capture a dozen of these self-styled odes to wealth and power, alongside Eric P. Nash's incisive critique documenting the evolution of the skyline, past and present, and the supertalls.
