## **Slavic Accentuation A Study In Relative Chronology:**

**Slavic Accentuation** F. H. H. Kortlandt, 1975      **Slavic Accentuation** F. H. Kortlandt, 1974      *Slavic Accentuation* Frederik H. H. Kortlandt, 1975      **The Prehistory of the Balto-Slavic Accent** Jay Jasanoff, 2017-09-04 The Prehistory of the Balto Slavic Accent has been written to fill a gap The interested non specialist can easily learn about the complex accent systems of the individual Baltic and Slavic languages and how they relate to each other But the reader interested in the Proto Balto Slavic parent system and how it evolved from the very different system of Proto Indo European has few reliable places to turn The goal of this book is to provide an accentological interface between Indo European and Balto Slavic to identify and explain the accent shifts and other early changes that give the earliest stages of Baltic and Slavic their distinctive prosodic cast      **Evidence and Counter-evidence: Balto-Slavic and Indo-European linguistics** Alexander Lubotsky, J. Schaeken, Jeroen Wiedenhof, 2008      *Studies in West Slavic and Baltic Linguistics* , 2023-11-20 *Studies in Slavic and General Linguistics* is mainly devoted to the field of descriptive linguistics Although the series is primarily intended to be a means of publication for linguists from the Low Countries the editors are pleased to accept contributions by linguists from abroad      *Proto-Slavic Inflectional Morphology* Thomas Olander, 2015-04-14 Proto Slavic the reconstructed ancestor of the Slavic languages presents a rich inflectional system inherited from Proto Indo European In this handbook all the inflectional endings of Proto Slavic are traced back to Proto Indo European through a systematic comparison with the corresponding forms in related languages Applying a redefinition of Proto Slavic based on prehistoric loanword relations with neighbouring non Slavic languages Thomas Olander provides a new look at the Proto Slavic inflectional system The systematic coherent and exhaustive approach laid out in the handbook paves the way for new solutions to long standing problems of Slavic historical grammar      **The System of Nominal Accentuation in Sanskrit and Proto-Indo-European** A. M. Lubotsky, 2023-11-27      **Dutch Contributions to the Eighth International Congress of Slavists, Zagreb, Ljubljana, September 3–9, 1978** Jan M. Meijer, 1979-01-01 This volume contains 18 papers derived from presentations by Dutch linguists at the Eighth International Congress of Slavists      *The Čakavian Dialect of Orbanici near Žminj in Istria* Janneke Kalsbeek, 2023-11-20 Čakavian dialects the westernmost dialects of the South Slavic language area have long attracted the attention of investigators largely owing to the complexity of their prosodic systems These prosodic systems are interesting not only from a typological point of view but also contain material of great importance for the study of Slavic historical accentology The description of a Čakavian dialect in Istria Croatia presented in this volume contributes data for South Slavic historical dialectology and for historical accentology The book includes an introduction on Čakavian and other South Slavic dialects particularly those spoken in Istria and chapters based on fieldwork by the author on the phonology morphology and some syntactic phenomena of the dialect of Orbanici In the chapters on morphology special attention is paid to accentuation types The book also contains dialect texts 70 pp and a lexicon in which all attested forms are listed      *Dutch Contributions*

to the Thirteenth International Congress of Slavists, Ljubljana, August 15-21, 2003: Linguistics, 2022-06-13 From the contents A propos de la genese du sens specifique des verbes perfectifs en Russe Andries Breunis A note on Stang's law in Moscow accentology Pepijn Hendriks Notes on intonation and voice in modern Russian Cornelia E Keijsper Early dialectal diversity in South Slavic II Frederik Kortlandt Bad theory wrong conclusions M Halle on Slavic accentuation Frederik Kortlandt Description and transcription of Russian intonation ToRI Cecilia Ode The use of the supine in lower Sorbian Han Steenwijk      **The Proto-Germanic n-stems.** Guus Kroonen, 2011-04 The n stems are an intriguing part of Proto Germanic morphology Unlike any other noun class the n stems have roots that are characterized by systematic consonant and vowel alternations across the different Germanic dialects This monograph represents a diachronic investigation of this root variation It traces back the Germanic n stems to their Indo European origin and clarifies their formal characteristics by an interaction of sound law and analogy This book therefore is not just an attempt to account for the typology of the Germanic n stems but also a case study of the impact that sound change may have on the evolution of morphology and derivation

*Metatony in Baltic* Rick Derksen, 2023-04-12 During the past decades Balto Slavic accentology has become increasingly important for the reconstruction of Proto Indo European This study tries to provide an explanation for the phenomenon of metatony in Baltic i e the phenomenon that in certain Baltic forms a morpheme shows the reflex of the Balto Slavic circumflex intonation where we would expect the reflex of the acute intonation m tatonie douce or vice versa m tatonie rude The subject necessarily involves an inquiry into the origin of the Lithuanian and Latvian tone systems Furthermore it requires the assessment of a large number of etymologies In the final chapter of the book the developments which are considered to be relevant to the rise of metatony are incorporated into a relative chronology The investigation is based on a comprehensive collection of data including evidence from Lithuanian and Latvian dialects and Old Lithuanian In comparison with earlier studies on the subject the Latvian evidence plays an essential role This book tries to demonstrate that the value of Latvian data for Balto Slavic accentology has hitherto not been fully recognized      **Dutch Studies in South Slavic and Balkan**

**Linguistics**, 2023-11-20 Studies in Slavic and General Linguistics is mainly devoted to the field of descriptive linguistics Although the series is primarily intended to be a means of publication for linguists from the Low Countries the editors are pleased to accept contributions by linguists from abroad      *Historical Linguistics 2009* Ans M.C. van Kemenade, Nynke de Haas, 2012-04-12 The International Conference on Historical Linguistics has always been a forum that reflects the general state of the art in the field and the 2009 edition held in Nijmegen The Netherlands fully allows the conclusion that the field has been thriving over the years The studies presented in this volume are an expression of ongoing theoretical discussions as well as new analytical approaches to the study of issues concerning language change Taken together they reflect some of the current challenges in the field as well as the opportunities offered by judicious use of theoretical models and careful corpus based work The volume's contributions are organized under the following headings I General and Specific Issues of

Language Change II Linguistic Variation and Change in Germanic III Linguistic Variation and Change in Greek and IV Linguistic Change in Romance      **Water, Whiskey, and Vodka** Danko Šipka, 2023-11-01 A fascinating cultural and linguistic history of the Slavic languages exploring the deep connections and distinctions between them Water whiskey and vodka are three words that seem to have nothing in common but each of them comes from the same root Water Whiskey and Vodka takes a deep dive into the origins of the Slavic languages from a common ancestor language through various cultural and historical shifts to arrive at the current breadth of languages The book takes a captivating look at the unique sociolinguistic context of the Slavic languages and pays special attention to the cultural subtleties particular to each one and the people who speak it Danko Šipka touches on the origins of the Slavic languages their linguistic similarities and differences word borrowing across them all and the cultural importance of languages even within this family of languages Water Whiskey and Vodka will fascinate readers whether or not they speak Slavic languages interested in the history and development of one or more Slavic languages Writing from the Slavic linguistic tradition where talking about language happens in the public sphere he offers readers a deeper understanding of various Slavic cultural traditions and historical events as they are reflected in their languages      *A Structural Description of the Macedonian Dialect of Dihovo* B.
