Slum Upgrading And Participation Lessons From Latin America:

Slum Upgrading and Participation Ivo IMPARATO, Jeff Ruster, 2003-01-01 The UN currently estimates that there are about 837 million urban slum dwellers worldwide and this figure is likely to rise to 1.5 billion by 2020 if current trends are not reversed This book offers five geographically and institutionally diverse case studies from Latin America where some of the longest running and most successful programmes in this field have been conducted These programmes involving a wide variety of funding arrangements and agencies demonstrate the positive impact that community participation and people oriented service solutions can have on slum upgrading efforts in low income urban areas Learning from the Slums for the Development of Emerging Cities Jean-Claude Bolay, Jérôme Chenal, Yves Pedrazzini, 2016-07-29 This book deals with slums as a specific question and a central focus in urban planning It radically reverses the official version of the history of world cities as narrated during decades slums are not at the margin of the contemporary process of urbanization they are an integral part of it Taking slums as its central focus and regarding them as symptomatic of the ongoing transformations of the city the book moves to the very heart of the problem in urban planning The book presents 16 case studies that form the basis for a theory of the slum and a concrete development manual for the slum The interdisciplinary approach to analysing slums presented in this volume enables researchers to look at social and economic dimensions as well as at the constructive and spatial aspects of slums Both at the scientific and the pedagogical level it allows one to recognize the efforts of the slum's residents key players in the past and present development of their neighborhoods and to challenge public and private stakeholders on priorities decided in urban planning and their mismatches when compared to the findings of experts and the demands of users Whether one is a planner an architect a developer or simply an inhabitant of an emerging city the presence of slums in one's environment at the same time central and nonetheless incongruous makes a person ask questions Today it is out of the question to be satisfied with the assumption of the marginality of slums or of the incongruous nature of their existence Slums are now fully part of the urban landscape contributing to the identity and the urbanism of cities and their stakeholders

The Urban Poor in Latin America Marianne Fay, 2005 About half of the region's poor live in cities and policy makers across Latin America are increasingly interested in policy advice on how to design programmes and policies to tackle poverty This publication argues that the causes of poverty the nature of deprivation and the policy levers to fight poverty are to a large extent site specific It therefore focuses on strategies to assist the urban poor in making the most of the opportunities offered by cities such as larger labour markets and better services while helping them cope with the negative aspects such as higher housing costs pollution risk of crime and less social capital Urban Violence and Insecurity Caroline O'N Moser, 2004 *Upgrading Informal Settlements in South Africa* Liza Rose Cirolia, Tristan Görgens, Mirjan van Donk, Warren Smit, Scott Drimie, 2017-11-10 More than 1.2 million households in South Africa live in informal settlements without access to adequate shelter services or secure tenure There has been a gradual shift to upgrading these informal settlements in recent

years and there have been some innovative experiments Upgrading Informal Settlements in South Africa a partnership based approach examines the successes and challenges of informal settlement upgrading initiatives in South Africa and contextualises these experiences within global debates about informal settlement upgrading and urban transformation The book discusses The South African informal settlement upgrading agenda from local national and international perspectives South African city experiences with informal housing and upgrading The role of partnerships actors and capabilities in pursuing an incremental upgrading agenda Tools instruments and methodologies for incremental upgrading Implications of the upgrading agenda for the transformation of cities The book has been written and edited by a wide range of practitioners and researchers from government NGOs the private sector and academia It covers theory and practice and represents a vast accumulated body of housing experience in South Africa

Analytical Perspective of Pro-poor Slum Upgrading Frameworks,2006 The Oxford Handbook of Urban Planning Randall Crane,Rachel Weber,2015 Why plan How and what do we plan Who plans for whom These three questions are then applied across three major topics in planning States Markets and the Provision of Social Goods The Methods and Substance of Planning and Agency Implementation and Decision Making

Routledge Handbook of Urban Indonesia Sonia Roitman,Deden Rukmana,2022-10-18 This handbook focuses on the practices initiatives and innovations of urban planning in response to the rapid urbanisation in Indonesian cities The book provides rigorous evidence of planning Indonesian cities of different sizes Indonesia the world s fourth most populous country is increasingly urbanising Through the lens of the Sustainable Development Goals chapters examine specific policies and projects and analyse 19 cities ranging from a megacity of over ten million residents to metropolitan cities large cities medium cities and small cities in Indonesia The handbook provides a diverse view of urban conditions in the country Discussing current trends and challenges in urban planning and development in Indonesia it covers a wide range of topics organised into five main themes Indonesian planning context informality insurgency and social inclusion design spatial and economic practices creative and innovative practices and urban sustainability and resilience Written by 64 established and emerging scholars from Indonesia and overseas this handbook is an invaluable resource to academics working on Urban Studies Development Studies Asian and Southeast Studies as well as to policy makers in Indonesia and in other cities of the Global South Energy Efficiency in the Urban Environment Heba Allah Essam E. Khalil,Essam E. Khalil,2015-02-12 Energy Efficiency in the Urban Environment is a study of energy crisis urbanisation and climate change as well as a discussion of how to combat these global challenges With a special focus on Egypt this book addresses the macroscale of urbanism from the perspective of city dwellers quality of life and explores the microscale of buildings and **Spatial Mobility of Migrant Workers in Beijing, China** Ran Liu,2015-03-30 The great migration of farmers leaving rural China to work and live in big cities as floaters has been an on going debate in China for the past three decades This book probes into the spatial mobility of migrant workers in Beijing and questions the city rights issues beneath the city making movement in contemporary China

In revealing and explaining the socio spatial injustice this volume re theorizes the right to the city in the Chinese context since Deng Xiaoping s reforms The policy review census analysis and housing survey are conducted to examine the fate of migrant workers who being the most marginalized group have to move persistently as the city expands and modernizes itself The study also compares the migrant workers with local Pekinese dislocated by inner city renewals and city expansion activities Rapid urban growth and land expropriation of peripheral farmlands have also created a by product of urbanization an informal property development by local farmers in response to rising low cost rental housing demand This is a highly comparable phenomenon with cities in other newly industrialized countries such as S o Paulo Readers will be provided with a good basis in understanding the interplay as well as conflicts between migrant workers housing rights and China s globalizing and branding pursuits of its capital city Audience This book will be of great interest to researchers and policy makers in housing planning governance towards urban informalities rights to the city migrant control and management and housing related conflict resolutions in China today
