Small Urban Interiors 500 Solutions For Living:

Small Urban Interiors, 2002 **Small Urban Interiors** Ana Cristina G. Cañizares, 2002 *Detroit Home*, 2004 **500 Solutions for Working at Home** Ana G. Canizares, 2003 The technological advances of the last two decades from virtual communication to ubiquitous laptop computers have given way to an unprecedented freedom from the traditional office Whether you have an office but need to work at home on weekends are a working parent wanting more time with your children or have a country house you d like to spend more time in are the owner of a small business seeking to contain your overhead or one of a growing number of freelance professionals there are countless reasons why you might want to transform a part of your home into a convenient work space 500 Solutions for Working at Home provides just that a wealth of practical ideas on how to create space silence order and efficiency within the existing structure of your home Whether you have an entire room or a mere closet to dedicate to your workspace this book illustrates a wide range of solutions by some of the best contemporary architects and interior designers from around the world *Future City Architecture for Optimal Living* Stamatina Th. Rassia, Panos M. Pardalos, 2015-04-01 This book offers a wealth of interdisciplinary approaches to urbanization strategies in architecture centered on growing concerns about the future of cities and their impacts on essential elements of architectural optimization livability energy consumption and sustainability It portrays the urban condition in architectural terms as well as the living condition in human terms both of which can be optimized by mathematical modeling as well as mathematical calculation and assessment Special features include new research on the construction of future cities and smart cities discussions of sustainability and new technologies designed to advance ideas to future city developments Graduate students and researchers in architecture engineering mathematical modeling and building physics will be engaged by the contributions written by eminent international experts from a variety of disciplines including architecture engineering modeling optimization and related fields **Universal Design 2021: From Special to Mainstream Solutions** Ira Verma, 2021-07-15 Universal Design is a process for creating an equitable and sustainable society It is a concept committed to recognizing and accepting each individual s potential and characteristics and promoting the realization of a built environment that does not stigmatize users but enables everyone to participate fully in their community This book presents 32 articles from the 5th International Conference on Universal Design UD2021 Previous Universal Design conferences have been organized biennially but the 2020 conference was postponed due to COVID 19 restrictions and eventually held online from 9 11 June 2021 UD2021 brings together a multidisciplinary group of experts from around the world to share knowledge and best practice with the common goal of shaping the way we design avoiding stereotyped or discriminatory views and solutions that could stigmatize particular groups of people The articles are organized into chapters under seven broad themes universal design and inclusive design user experience and co design access to education and learning environment web accessibility and usability of technology architecture and the built environment mobility and transport and designing for

older people The current situation has highlighted not only the importance of web accessibility the user friendliness of interfaces and remote connections during the last year the importance and quality of our daily living environment access to services and green space has also become ever more obvious This book will be of particular interest to those working to enable all those with disabilities or impairments to live independently and participate fully in all aspects of life

Innovations in Design & Decision Support Systems in Architecture and Urban Planning Jos P. Leeuwen, van, Harry J.P. Timmermans, 2006-09-21 Traditionally the DDSS conferences aim to be a platform for both starting and experienced researchers who focus on the development and application of computer support in urban planning and architectural design This volume contains 31 peer reviewed papers from this year's conference This book will bring researchers together and is a valuable resource for their continuous joint effort to improve the design and planning of our environment

Regenerative by Design David Cheshire, 2024-10-01 How do we design cities and buildings that metabolise use living materials and are net positive that give back more to the planet than they take Our cities and buildings are a drain on the planet requiring huge amounts of resources and tracts of land to support their needs and destroying biodiversity in the process The idea of living regenerative buildings is gaining ground buildings that give back more than they take providing habitats ecosystems services e.g. clean water clean air locally grown food and putting humans back in touch with the natural world The climate and biodiversity crisis has driven organisations to set ambitious net zero carbon and ESG targets however many are struggling to see how to achieve them and often doing the same thing but expecting a different result This book sets out the regenerative building agenda and design principles showing how buildings towns and cities could start to have a positive impact on our planet providing ecosystems services and living within the means afforded by the site

Retrofitting Suburbia, Updated Edition Ellen Dunham-Jones, June Williamson, 2011-03-29 Updated with a new Introduction by the authors and a foreword by Richard Florida this book is a comprehensive guide book for urban designers planners architects developers environmentalists and community leaders that illustrates how existing suburban developments can be redesigned into more urban and more sustainable places While there has been considerable attention by practitioners and academics to development in urban cores and new neighborhoods on the periphery of cities there has been little attention to the redesign and redevelopment of existing suburbs The authors both architects and noted experts on the subject show how development in existing suburbs can absorb new growth and evolve in relation to changed demographic technological and economic conditions Retrofitting Suburbia was named winner in the Architecture Urban Planning category of the 2009 American Publishers Awards for Professional and Scholarly Excellence The PROSE Awards awarded by The Professional and Scholarly Publishing PSP Division of the Association of American Publishers

Nature-Based Solutions for More Sustainable Cities Edoardo Croci, Benedetta Lucchitta, 2021-11-05 Nature Based Solutions for More Sustainable Cities makes a clear case of performances impacts and benefits generated by NBS in cities

providing a comprehensive framework approach to understand the real and full potential of NBS at the urban level

Forthcoming Books Rose Army,2003-04 **Search** ,1993 Log Home Living ,1999-11-01 Log Home Living is the oldest largest and most widely distributed and read publication reaching log home enthusiasts For 21 years Log Home Living has presented the log home lifestyle through striking editorial photographic features and informative resources For more than two decades Log Home Living has offered so much more than a magazine through additional resources shows seminars mail order bookstore Web site and membership organization That s why the most serious log home buyers choose Log Home Living **Log Home Living** ,1999-07 Log Home Living is the oldest largest and most widely distributed and read publication reaching log home enthusiasts For 21 years Log Home Living has presented the log home lifestyle through striking editorial photographic features and informative resources For more than two decades Log Home Living has offered so much more than a magazine through additional resources shows seminars mail order bookstore Web site and membership organization That s why the most serious log home buyers choose Log Home Living **Green Up!** Stevie Famulari,2019-09-17 There are unique greening solutions and practices that help create a lifestyle shift improving the health of living and working spaces for its occupants from a personal business environmental and profitable perspective Short term and long term considerations are important elements when moving forward towards healthy practices in lifestyles choices and site designs This book addresses a myriad of greening practices that can be applied to structures in our urban suburban and rural cultures From the loft to the neighborhood the office spaces to the public spaces and the schools to the communities this book outlines how business owners and residents can integrate scale appropriate green solutions into their lifestyles Green Up Sustainable Design Solutions for Healthier Work and Living Environments includes detailed illustrations and photographs to help you understand design opportunities for your space Stevie Famulari provides unique insights and inspires business owners residents and planners to develop their own green understanding and design solutions Illustrations and photographs of applied greening are included throughout the book to help inspire your own goals and design and then transform them to reality The author breaks down the misconceptions of the complexity of sustainability and green practices Greening is a lifestyle change and this step by step instruction guide lets you know how easy it is to transition to the green side **Regulating Place** Eran Ben-Joseph,Terry S. Szold,2005-07-08 Regulating Place looks at how design standards have shaped the built environment of urban America Tracing the history behind the evolution of building codes the contributors examine the increasing influence of regulatory codes over urban design and planning during the past century From the environment to housing to public space the volume considers the positive and negative effects of regulation on American cities particularly the merits of flexible approaches relative to more rigid technocratic methods Regulating Place also questions what sort of criteria should be used to measure reg **Unbuilt Utopian Cities 1460 to 1900: Reconstructing their Architecture and Political Philosophy** Tessa Morrison,2016-03-09 Bringing together ten utopian works that mark

important points in the history and an evolution in social and political philosophies this book not only reflects on the texts and their political philosophy and implications but also their architecture and how that architecture informs the political philosophy or social agenda that the author intended Each of the ten authors expressed their theory through concepts of community and utopian architecture but each featured an architectural solution at the centre of their social and political philosophy as none of the cities were ever built they have remained as utopian literature Some of the works examined are very well known such as Tommaso Campanella's Civitas Solis while others such as Joseph Michael Gandy's Designs for Cottages are relatively obscure However even with the best known works this volume offers new insights by focusing on the architecture of the cities and how that architecture represents the author's political philosophy It reconstructs the cities through a 3 D computer program ArchiCAD using Artlantis to render Plans sections elevations and perspectives are presented for each of the cities The ten cities are Filarete Sforzina Albrecht Dürer Fortified Utopia Tommaso Campanella The City of the Sun Johann Valentin Andreae Christianopolis Joseph Michael Gandy An Agricultural Village Robert Owen Villages of Unity and Cooperation James Silk Buckingham Victoria Robert Pemberton Queen Victoria Town King Camp Gillette Metropolis and Bradford Peck The World a Department Store Each chapter considers the work in conjunction with contemporary thought the political philosophy and the reconstruction of the city Although these ten cities represent over 500 years of utopian and political thought they are an interlinked thread that had been drawn from literature of the past and informed by contemporary thought and society The book is structured in two parts

WCFS2020 Łukasz Piątek, Soon Heng Lim, Chien Ming Wang, Rutger de Graaf-van Dinther, 2021-08-05 This book highlights state of the art research findings on floating developments in both inland and coastal waters with focus on living recreation and working offshore It includes six themes 1 business case and real estate development 2 spatial planning and architecture 3 food and energy production 4 ecological impact and nature based solutions 5 governance and social impact and 6 design and engineering of infrastructures The book presents key issues addressed when utilizing water space It gives an overview of findings and discussions from the world's leading experts from the industry policymakers entrepreneurs researchers and identifies new opportunities as well as fosters collaboration on floating projects for a more climate adaptive socially inclusive sustainable and better world

The European City D. Burtenshaw, M. Bateman, G. J. Ashworth, 2021-06-29 Originally published in 1991 this book focusses on the philosophies histories and processes which have made the West European city system rich in internal variety yet distinct from that of the rest of western industrialised urban society It synthesizes international experiences in particular aspects of urban policy making with reference to Germany France and Benelux The book covers urban planning in its broadest sense from economic socio spatial recreational housing and transport perspectives
