public health investigators and antismoking activists who have clashed ever more stridently as Americans debate whether smoking should be closely regulated as a major health menace We see tobacco spread rapidly from its aboriginal sources in the New World 500 years ago as it becomes increasingly viewed by some as sinful and some as alluring and by government as a windfall source of tax revenue With the arrival of the cigarette in the late nineteenth century smoking changes from a luxury and occasional pastime to an everyday to some indispensable habit aided markedly by the exuberance of the tobacco huskers This free enterprise success saga grows shadowed from the middle of this century as science begins to understand the cigarette s toxicity Ironically the more detailed and persuasive the findings by medical investigators the more cigarette makers prosper by seeming to modify their product with filters and reduced dosages of tar and nicotine We see the tobacco manufacturers come under intensifying assault as a rogue industry for knowingly and callously plying their hazardous wares while insisting that the health charges against them a remain unproven and b are universally understood so smokers indulge at their own risk Among the eye opening disclosures here outrageous pseudo scientific claims made for cigarettes throughout the 30s and 40s and the story of how the tobacco industry and the National Cancer Institute spent millions to develop a safer cigarette that was never brought to market Dealing with an emotional subject that has generated more heat than light this book is a dispassionate tour de force that examines the nature of the companies culpability the complicity of society as a whole and the shaky moral ground claimed by smokers who are now demanding recompense *Mother Jones Magazine*, 1993-01 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues *Taming the Sharks* Christopher L. Peterson, 2004 *Taming the Sharks* Towards a Cure for the High Cost Credit Market chronicles the historic economic legal and political factors breeding America s feverish high cost debt industry The ideas presented are novel progressive and controversial Historians have long argued that interest rates provide a sort of economic and political health of nations If true the contemporary American market for credit shows troubling signs of distress While Federal Reserve Board monetary policy has kept commercial and prime consumer interest rates low the past two decades have seen explosive growth in an industry specializing in high cost consumer debt Payday loan outlet chains automobile title loan companies rent to own furniture stores pawnshops and sub prime and manufactured home mortgage lenders are transforming the personal finance patterns of millions of Americans Many observers have complained this industry charges excessive prices uses unfair business practices and is generally causing more harm for its borrowers than good Industry insiders retort they are merely responding to a legitimate demand for financial services that in effect consumers vote with their feet Echoing problems of past centuries today s consumers face difficulty comparing credit prices patterns of reckless lending and borrowing as well as distressing economic externalities With an idea on the future Peterson s book hopes to find ingredients of a compromise to protect working poor borrowers while simultaneously preserving economic competition **Ayn Rand Cult** Jeff Walker, 2012-03-30

Despised by the intellectual establishment Ayn Rand continues to attract many thousands of devoted followers Her Objectivist movement preaches an uncompromising hard line on politics art sex and psychological health Though much has been written about Rand The Ayn Rand Cult is the first book to explain the true origin of her ideas and to show how they were shaped into a new atheistic religion Jeff Walker shatters many myths about Rand exposing Objectivism as a classic cult unusual because of its overt emphasis on self interest rationality and atheism but typical of cults in its guru worship thought control trial and excommunication of deviants and hostility to existing society **The Prevention Pipeline** ,1994
