First, Do Less Harm Ross Koppel, Suzanne Gordon, 2012-04-23 Each year hospital acquired infections prescribing and treatment errors lost documents and test reports communication failures and other problems have caused thousands of deaths in the United States added millions of days to patients hospital stays and cost Americans tens of billions of dollars Despite and sometimes because of new medical information technology and numerous well intentioned initiatives to address these problems threats to patient safety remain and in some areas are on the rise In First Do Less Harm twelve health care professionals and researchers plus two former patients look at patient safety from a variety of perspectives finding many of the proposed solutions to be inadequate or impractical Several contributors to this book attribute the failure to confront patient safety concerns to the influence of the market model on medicine and emphasize the need for hospital wide teamwork and greater involvement from frontline workers from janitors and aides to nurses and physicians in planning implementing and evaluating effective safety initiatives Several chapters in First Do Less Harm focus on the critical role of interprofessional and occupational practice in patient safety Rather than focusing on the usual suspects physicians safety champions or high level management these chapters expand the list of stakeholders and patient safety advocates to include nurses patient care assistants and other staff as well as the health care unions that may represent them First Do Less Harm also highlights workplace issues that negatively affect safety including sleeplessness excessive workloads outsourcing of hospital cleaning and lack of teamwork between physicians and other health care staff In two chapters experts explain why the promise of health care information technology to fix

safety problems remains unrealized with examples that are at once humorous and frightening A book that will be required reading for physicians nurses hospital administrators public health officers quality and risk managers healthcare educators economists and policymakers First Do Less Harm concludes with a list of twenty seven paradoxes and challenges facing everyone interested in making care safe for both patients and those who care for them *Chronic Illness* Pamala D.

Larsen, Ilene Morof Lubkin, 2009 The new edition of best selling *Chronic Illness Impact and Intervention* continues to focus on the various aspects of chronic illness that influence both patients and their families Topics include the sociological psychological ethical organizational and financial factors as well as individual and system outcomes The Seventh Edition has been completely revised and updated and includes new chapters on Models of Care Culture Psychosocial Adjustment Self Care Health Promotion and Symptom Management Key Features Include Chapter Introductions Chapter Study Questions Case Studies Evidence Based Practice Boxes List of websites appropriate to each chapter Individual and System Outcomes

Contemporary Introduction to Sociology Jeffrey C. Alexander, Kenneth Thompson, Laura Desfor Edles, 2016-01-08 The first edition of *A Contemporary Introduction to Sociology* was the first truly new introductory sociology textbook in decades Written by two leading sociologists at the cutting edge of theory and research the text reflected the idioms and interests of contemporary American life and global social issues The second edition continues to invite students to reflect upon their lives within the context of the combustible leap from modern to postmodern life The authors show how culture is central to understanding many world problems as they challenge readers to confront the risks and potentialities of a postmodern era in which the futures of both the physical and social environment seem uncertain As culture rapidly changes in the 21st century the authors have broadened their analysis to cover developments in social media and new data on gender and transgender issues *Chronic Illness* Ilene Morof Lubkin, Pamala D. Larsen, 2013 The newest edition of best selling *Chronic Illness*

continues to focus on the various aspects of chronic illness that influence both patients and their families Topics include the sociological psychological ethical organizational and financial factors as well as individual and system outcomes This book is designed to teach students about the whole client or patient versus the physical status of the client with chronic illness The study questions at the end of each chapter and the case studies help the students apply the information to real life Evidence based practice references are included in almost every chapter *Critical and Cultural Interactionism* Michael Hviid Jacobsen, 2019-03-28 One of the longest standing traditions in sociology interactionism is concerned with studying human interaction and showing how society to a large part is constituted by patterns of interaction In spite of the work of figures such as Robert E Park Everett C Hughes Erving Goffman Herbert Blumer Norman K Denzin and Gary Alan Fine interactionism perhaps owing to its association with the perspective of symbolic interactionism remains something of an odd man out in mainstream sociology This book seeks to rectify this apparent neglect by bringing together critical social theories and microsociological approaches to research thus revealing the critical and cultural potentials in interactionism the

chapters arguing that far from being oriented towards the status quo interactionism in fact contains a critical and cultural edge Presenting the latest work from some of the leading figures in interactionist thought to show recent developments in the field and offer an overview of some of the most potent and prominent ideas within critical and cultural criminology Critical and Cultural Interactionism will appeal to scholars of sociology with interests in interactionism social theory research methods and criminology

Women, Science, and Technology Mary Wyer, Mary Barbercheck, Donna Cookmeyer, Hatice Ozturk, Marta Wayne, 2013-09-11 Women Science and Technology is an ideal reader for courses in feminist science studies This third edition fully updates its predecessor with a new introduction and twenty eight new readings that explore social constructions mediated by technologies expand the scope of feminist technoscience studies and move beyond the nature culture paradigm
