Dunkerley, 1975 **Ethics and Professionalism** John H. Kultgen, 1988 Exploring the relationship between morality and professional ideals Kultgen examines the structure and organization of occupations and the ideals and ideology associated with professions He argues that professionalization of occupations can both harm and benefit society and that by converting occupations into organized special interest groups the professions serve some sectors of society at the expense of others On

the other hand he highlights the positive points of the professional ideal and explores ways in which it can be used to advance the physical and moral welfare of society Kultgen also shows how it is the practices within the professions that determine whether rules and ideals are used as masks for self interest or for genuinely moral purposes ISBN 0 8122 8094 6
