Cohen, 2013-03-07 Anthony Cohen makes a distinct break with earlier approaches to the study of community which treated the subject in largely structural terms His view is interpretive and experiential seeing the community as a cultural field with a complex of symbols whose meanings vary among its members He delineates a concept applicable to local and ethnic communities through which people see themselves as belonging to society The emphasis on boundary is sensitive to the circumstances in which people become aware of the implications of belonging to a community and describes how they symbolise and utilise these boundaries to give substance to their values and identities **Social Identity** Richard Jenkins, 1996 Social Identity provides a clearly written accessible introduction to sociological and social anthropological approaches to identity Looking at the work of Mead Goffman and Barth this book makes clear their relevance to everyday life Insisting that reflexive self identity is not a modern phenomenon the core argument is that individual and collective identity can both be understood using the same model as internal and external processes Social Identity brings together sociological and social anthropological theories of identity and makes an original contribution to social theory Focusing on identity as individual and collective this book brings us a fresh perspective on the relationship between the individual and society This book provides an essential guide to the concept of social identity offering students critical discussions of Schutz Berger and Luckman Becker Anthony Cohen Giddens Bourdieu and many others BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Globalization** George Ritzer, 2010 List of Figures Preface 1 Globalization I Liquids Flows and Structures Some of the Basics From Solids to Liquids to Gases Flows Does Globalization Hop Rather Than Flow Heavy Light Weightless Heavy Structures That Expedite Flows Heavy Structures as Barriers to Flows Subtler Structural Barriers Structure and Process On the Increasing Ubiquity of Global Flows and Processes and Structures Thinking About Global Flows and Structures Chapter Summary 2 Globalization II
