Scheler's Phenomenology of Community Ernest W. Ranly, 2012-12-06 My own serious study of Max Scheler began in 1958 when I presented a Master's thesis to St Louis University under the direction of Professor Vernon Bourke on Scheler's value theory Three years later when I returned to complete my doctorate work at St Louis University I returned also to the study of Max Scheler In the meantime several more volumes of the *Gesammelte Werke* had appeared several new translations of Scheler were published and the whole area of phenomenology began to be more favorably accepted by the American intellectual community My doctoral dissertation was on Scheler's theory of community under the expert and careful direction of Professor James Collins The bulk of the present work is a direct result of my work at St Louis University I have never regretted the time and effort spent on the study of Scheler He can be classified as nothing short of a genius not only in the breadth of his interests but also in the vitality unity and depth of his thought Most students of Scheler criticize his lack of unity I claim to find strong lines of inner consistency throughout his writings In the second place my study of Scheler has put me into contact with many of the most dominant intellectual influences of the day **Globalization and Cultural Self-Awareness** Xiaotong Fei, 2015-04-30 This volume comprises some twenty articles speeches and conversations of Fei Xiaotong from the late 1980s to the early 2000s Their central connecting theme is how civilizations could co exist against a backdrop of rapid globalization Fei proposes his concept of cultural self awareness summarized in the axiom each

appreciates his own best appreciates the best of others all appreciate the best together for the greater harmony of all This is the result of many years of research and fieldwork and represents a synthesis of his Western training and traditional Chinese thought Professor Fei Xiaotong was one of the most prominent Chinese sociologists and anthropologists in the last century and a leading figure in Chinese intellectual circles He was noted in the West for his Peasant Life in China From the Soil and other works written during the 1930s and 1940s His later important research and theoretical concepts though extremely influential in China on both theoretical and practical levels are almost unknown in international academia **Applied**

Berger, 2011-06-07 Peter L Berger is arguably the best known American sociologist living today Since the 1960s he has been publishing books on many facets of the American social scene and several are now considered classics So it may be hard to believe Professor Berger s description of himself as an accidental sociologist But that in fact accurately describes how he stumbled into sociology In this witty intellectually stimulating memoir Berger explains not only how he became a social

scientist but the many adventures that this calling has led to Rather than writing an autobiography he focuses on the main intellectual issues that motivated his work and the various people and situations he encountered in the course of his career Full of memorable vignettes and colorful characters depicted in a lively narrative often laced with humor Berger's memoir conveys the excitement that a study of social life can bring The first part of the book describes Berger's initiation into sociology through the New School for Social Research a European enclave in the midst of Greenwich Village bohemia Berger was first a student at the New School and later a young professor amidst a clique of like minded individuals There he published *The Social Construction of Reality* with colleague Thomas Luckmann one of his most successful books followed by *The Sacred Canopy* on the sociology of religion also still widely cited The book covers Berger's experience as a globe trekking sociologist including trips to Mexico where he studied approaches to Third World poverty to East Asia where he discovered the potential of capitalism to improve social conditions and to South Africa where he chaired an international study group on the future of post Apartheid society Berger then tells about his role as the director of a research center at Boston University For over two decades he and his colleagues have been tackling such important issues as globalization the secularization of Europe and the ongoing dialectic between relativism and fundamentalism in contemporary culture What comes across throughout is Berger's boundless curiosity with the many ways in which people interact in society This book offers longtime Berger readers as well as newcomers to sociology proof that the sociologist's attempt to explain the world is anything but boring
