Sofia And The Misfortune Of The Hiv/aids:

Sofia and the Misfortune of the Hiv/aids Arolyn Ibrahim N. Koroma,2004

Leone Ibrahim Arolyn N. Koroma,2016-10-06 The adventure of Bai Bureh revealed a classic African trendsetter on a mission to conquer He was born in a ruling house a chief king He was confronted with humongous obstacles but he was equally determined to die a king Bai Bureh was selfless and altruistic He was noted for his humble beginnings At a very young age he was perceived as timid among his peers but he redeemed himself after he triumphantly thrashed both his high school bullies Fenplaba Lawbreaker and Gbose Gbose Violator He was a teenager whose aim was to be the defender of not only his country of Sierra Leone but also of Africa He set a precedent by challenging the all powerful British Empire ruled by King Edward VII and Queen Victoria The British role in interfering with Sierra Leoneans economic way of life in 1898 was a no brainer and to Bai Bureh it was a game changer Enough was enough His social and natural capabilities were to complement his resiliency to lead his people during the economic and political dark ages of Africa The legendary warrior Bai Bureh used a holistic approach to the various twentieth century challenges faced by his country of Sierra Leone created by the dominant colonialist British Empire s quest for world dominance But he brilliantly challenged them with both a twentieth and twenty first century political approach He was well ahead of his time at the turn of century For the legend it was not what people think about him It was not what his admirers say about him but what he did and how he did it What he said and how he said it set him apart from most African warriors who trod the African stage in parallel era His calculated political trajectory was shaped by his worldview defined by an external threat which he perceived as a catalyst to destabilize Sierra Leoneans socioeconomic life The British colonialist imposition of a hut tax did not settle well with the hotheaded leader He galvanized a small but resilient Sierra Leonean populace He and his people stood firm against the British sanctioning of a hut tax on personal dwellings on a nation where local commerce was either on its infancy stage or nonexistent The altercation slowly but surely reached its climax in 1898 and a war ensued Bai Bureh proved smarter in the battlefield than he was perceived capable by the superior British military might Bai Bureh was first to introduce in battlefield the silent but lethal sniping tactics and guerilla warfare which killed a sizeable number of British infantry soldiers by constructing camouflage trenches along the only accessible trails to the country s interior A rogue court filled with hateful British demagoguery sentenced Bai Bureh to a prison term The imprisonment to slow the hotheaded Bai Bureh s rebellious activities only polarized his charisma and opened new venues of leadership and supervisory positions including the British maximum prison in the Gold Coast He returned to Sierra Leone to be lavishly showered with richly deserved homecoming welcome He was again crowned chief king He was born a king and he died a king in his hometown of Kasseh in northern Sierra Leone

People in Crisis Lee Ann Hoff,Lisa Brown,Miracle R. Hoff,2011-02-25 The first edition of People in Crisis published in 1978 established success as a comprehensive and user friendly text for health and social service professionals The book and its following incarnations

included critical life events and life cycle transition challenges clearly pointing out the interconnections between such events stressful developmental changes and their potential for growth but also danger of suicide and or violence toward others This revised edition includes new case examples and expanded coverage of cross cultural content including commonalities and differences in origins manifestations and crisis responses The authors illustrate the application of crisis concepts assessment and intervention strategies across a wide range of health and mental health settings as well as at home school workplace and in the community Each chapter contains a closing summary that includes discussion questions references and online data sources for maximum application and learning Updated chapters discuss new research based content on workplace violence and abuse youth violence in schools and higher education settings the use of psychotropic drugs including for very young children in the absence of comprehensive assessment the crisis vulnerability of war veterans and the hazards of pathologizing what should be considered a normal response to the repeated and catastrophic trauma of war the intersection of socio political factors with individuals psychological healing from catastrophic experiences such as war and natural disaster

Crisis Lee Ann Hoff, 2014 The goal of this book is to provide a base level of understanding of emotional crises what triggers them how to spot warning signs and how to respond in the event of one We are more prone to slip into crisis at certain points in our life major life changes both planned and unexpected and at normal developmental stages and this book will better prepare us to safely navigate these moments for ourselves and others

The Experiment Must Continue Melissa Graboyes, 2015-11-09 The Experiment Must Continue is a beautifully articulated ethnographic history of medical experimentation in East Africa from 1940 through 2014 In it Melissa Graboyes combines her training in public health and in history to treat her subject with the dual sensitivities of a medical ethicist and a fine historian She breathes life into the fascinating histories of research on human subjects elucidating the hopes of the interventionists and the experiences of the putative beneficiaries Historical case studies highlight failed attempts to eliminate tropical diseases while modern examples delve into ongoing malaria and HIV AIDS research Collectively these show how East Africans have perceived research differently than researchers do and that the active participation of subjects led to the creation of a hybrid ethical form By writing an ethnography of the past and a history of the present Graboyes casts medical experimentation in a new light and makes the resounding case that we must readjust our dominant ideas of consent participation and exploitation With global implications this lively book is as relevant for scholars as it is for anyone invested in the place of medicine in society
