One of Britain s best loved historians Dan Cruickshank grants us an intimacy with centuries of rich and varied London history

infusing British cuisine for the past 150 years From the arrival of Italian ice cream vendors and German butchers in the nineteenth century to the British curry that permeates dishes today Panayi chronicles the rich and fascinating social history behind the rise of a truly multicultural cuisine The author argues that Britons eating habits have been reshaped by immigration globalization and increased wealth and he explores how other cultures have woven themselves into British society through the portal of food whether Anglo Indian fusion dishes like chicken tikka masala New British cuisine restaurants or the popular home cooked dish of spaghetti bolognese Panayi reveals how these changes in British cuisine shed light on the role of multiculturalism in the construction of modern British identity Britain is a diverse nation in which different peoples are united by willingness to sample the foods produced by other ethnic groups but those ethnic groups are at the same time ghettoized by not moving beyond their own culinary traditions A comprehensive and engaging investigation Spicing Up Britain serves up delicious new facets of food in Britain today *Cultures of Consumption* Frank

Fishes with Funny French Names Debra Kelly,2021-12-02 This book tells the story of what happens when an essentially

Parisian institution travels and establishes itself in its neighbour's capital city bringing with it French food culture and culinary practices The arrival and evolution of the French restaurant in the British capital is a tale of culinary and cultural exchange and of continuity and change in the development of London's dining out culture Although the main character of this story is the French restaurant this cultural history also necessarily engages with the people who produce purvey purchase and consume that food culture in many different ways and in many different settings in London over a period of some one hundred and fifty years British references to France and to the French are littered with associations with food whether it is desired rejected admired loathed envied disdained from the status of haute cuisine and the restaurants and chefs associated with it to contemporary concerns about food poverty and food waste to dietary habits and the politicisation of food and at every level in between However thinking about the place of the French restaurant in London restaurant and food culture over a long time span in many and varied places and spaces in the capital creates a more nuanced picture than that which may at first seem obvious
