conditions or conditioning for their behavior Their behavior is a product of their own conscious choices made based on values Humans are wired with the ability to become proactive and responsible Therefore if conditioning has made us subject to forces and feelings that tend to ruin our lives it is because we have by conscious decision or by default chosen to empower those things to control us If you feel that youve become passive reactive or reclusive perhaps its time to free yourself through the power of conscious decision making Become proactive carry your weather with you and become extraordinary Army History ,2016 American History ,2002-08
