Soldiers And Scholars Military Education And National Policy:

Soldiers and Scholars John Wesley Masland, Laurence I. Radway, 2015-12-08 The traditional distinction between military and political affairs in American life has become less significant as military officers increasingly participate with civilians in the formulation of national policies In an examination of the impact of this change upon professional military education the authors present a forthright analysis of military responsibility today the growth of education for policy roles the form and content of that education and its relation to the over all duties of the armed forces. They have used hundreds of interviews and questionnaires and studied carefully the history and programs of the military academies ROTC Command and Staff Schools Armed Forces Staff College National War College three service War Colleges Industrial College of the Armed Forces and other institutions Originally published in 1957 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Soldiers and Scholars** John W. Congress. House. Committee on Armed Services. Panel on Military Education, 1990 Guards the Guardians and How Thomas C. Bruneau, Scott D. Tollefson, 2009-06-03 The continued spread of democracy into the twenty first century has seen two thirds of the almost two hundred independent countries of the world adopting this model In these newer democracies one of the biggest challenges has been to establish the proper balance between the civilian and military sectors A fundamental question of power must be addressed who guards the guardians and how In this volume of essays contributors associated with the Center for Civil Military Relations in Monterey California offer firsthand observations about civil military relations in a broad range of regions including Latin America Africa Asia and Eastern Europe Despite diversity among the consolidating democracies of the world their civil military problems and solutions are similar soldiers and statesmen must achieve a deeper understanding of one another and be motivated to interact in a mutually beneficial way The unifying theme of this collection is the creation and development of the institutions whereby democratically elected civilians achieve and exercise power over those who hold a monopoly on the use of force within a society while ensuring that the state has sufficient and gualified armed forces to defend itself against internal and external aggressors Although these essays address a wide variety of institutions and situations they each stress a necessity for balance between democratic civilian control and military effectiveness The Military and Society Betsy C. Kysely, 1972 A highly selective bibliography prepared for use at the fifth Military History Symposium on The Military and Society this report contains citations no abstracts on The military and society in general the military and the economy the military and education propaganda and public opinion the military and foreign policy the military in non military activities the military and science and technology minorities in the military raising armies and a section of sources for further study The Military and

Society United States Air Force Academy. Library, Betsy C. Kysely, Betty Fogler, 1972 The Midshipman Culture and Educational Reform Todd A. Forney, 2004 The Midshipman Culture and Educational Reform examines the effect of educational and professional reforms on the culture of Annapolis from 1945 76 The Naval Academy has juggled the competing priorities of training and education throughout its history Proper balance was a perennial problem since the academy was limited to a four year timetable to graduation Bancroft Hall was the focal point for professional indoctrination and the heart and soul of the academy culture Its traditions and activities often competed with academies for the midshipmen s time and attention technology and operational requirements forced the school to reevaluate the emphasis paid to academics Outside groups such as the Folsom Board and Admiral Hyman Rickover also acted as a catalyst for reform The culmination of these efforts was the academic revolution of the 1960s which transformed Annapolis into an elite engineering college Midshipmen and their officers occasionally resisted changes that undercut their most cherished traditions including plebe indoctrination Ironically most core values of the academy culture remained similar to what they had always been including the emphasis on career service and loyalty to one s shipmates Fomey s book uses all original sources including a thorough survey of graduates from these years **American Military History** Maurice Matloff,1973 A Companion to Dwight D. Eisenhower Chester J. Pach, 2017-04-10 A Companion to Dwight D History ,1973 Eisenhower brings new depth to the historiography of this significant and complex figure providing a comprehensive and up to date depiction of both the man and era Thoughtfully incorporates new and significant literature on Dwight D Eisenhower Thoroughly examines both the Eisenhower era and the man himself broadening the historical scope by which Eisenhower is understood and interpreted Presents a complete picture of Eisenhower's many roles in historical context the individual general president politician and citizen This Companion is the ideal starting point for anyone researching America during the Eisenhower years and an invaluable guide for graduate students and advanced undergraduates in history political science and policy studies Meticulously edited by a leading authority on the Eisenhower presidency with chapters by international experts on political international social and cultural history To Serve Canada Richard A. Preston, 1991 In To Serve Canada Preston takes up the story of RMC Royal Military College as one of Canada's three military colleges and examines its development through the uncertain years of the Cold War through the vagaries of public indifference towards defence through the evolution of degree granting status and the moves towards institutional bilingualism and through the frequent Ottawa directed re evaluations of their roles By chronicling the development of RMC and its sister colleges from the post Korea period to the present Dr Preston has provided a valuable and entertaining addition to the historical literature of this country Foreword page vii viii The Military and Modernization Henry Bienen, 2017-07-05 There is a growing body of work on the military in developing countries Few studies have explored in depth questions concerning the social origins of offi cers and enlisted men or trace career patterns within the armed forces of the developing world With the exception of Latin

America it has been rare for a study to assess the performance of ruling or non ruling militaries for political development and modernization of their societies Th is oversight is exactly what Henry Bienen addresses in this collection **Bibliographies** Army Library (U.S.),1957 Educating Air Forces Randall Wakelam, David Varey, 2020-12-01 Compared to armies and navies which have existed as professional fighting services for centuries the technology that makes air forces possible is much newer As a result these services have had to quickly develop methods of preparing aviators to operate in conditions ranging from peace or routine security to full scale war The first book to address the history and scope of air power professionalization through learning programs Educating Air Forces offers valuable new insight into strategy and tactics worldwide Here a group of international experts examine the philosophies policies and practices of air service educational efforts in the United States France Italy Germany Australia Canada and the UK The contributors discuss the founding successes and failures of European air force learning programs between the Great War and World War II and explore how the tense Cold War political climate influenced the creation curriculum and results of various programs They also consider how educational programs are adapting to soldiers needs and the demands of modern warfare Featuring contributions from eminent scholars in the field this volume surveys the learning approaches globally employed by air forces in the past century and evaluates their effectiveness Educating Air Forces reveals how experiential learning and formal education are not only inextricably intertwined but also necessary to cope with advances in modern warfare
